

PROGRAMMABLE THERMOSTAT

The OMNIE programmable thermostat provides full 7-day programmable room control. The discreet thermostat fits into a standard back box and is powered by a permanent 230V mains supply. Each thermostat comes with an optional floor sensor. The floor sensor can be activated to limit the floor temperature where this is required.

Specifications

Mounting Position: Flush mounted

Dimensions (W x H x D): 85mm x 85mm x 15mm

Power: 230V

DIAL THERMOSTAT

The non-programmable thermostat available from OMNIE is a simple versatile dial thermostat, which is able to switch a 230V signal.

Specifications

Mounting Position: Flush mounted

Dimensions (W x H x D): 85mm x 85mm x 15mm
