GLASS FOR LIFE

MILlicom  
THE DIGITAL LIFESTYLE

Glass wall cladding injects colour, vibrancy and style.

Easy to maintain, glass wall cladding, splashbacks or bespoke mirror surfaces are suitable for a wide variety of commercial and residential locations: perfect in kitchens and bathrooms, ideal in wet areas, especially spas or leisure centres and stylish in reception areas, bars or restaurants.

- Each installation is wholly bespoke
- Available in any RAL, Dulux or Pantone reference
- Digital glass printing service to provide full four colour imagery
- Invisible fixings for a seamless finish
- Easy to clean and low maintenance, grout-free glass wall cladding retains a pristine appearance
- Bespoke, over-sized mirrors, antique mirrors or mirrors with a specialist finish
- Add hand rails or other features
- Fit under sloping ceilings or in unusual spaces

#### **Ion Glass bespoke wall cladding offers excellent results**

- Low iron extra clear glass for maximum colour clarity
- Glass wall cladding is generally supplied in 6mm toughened glass
- Full templating service to achieve perfect cut outs for sockets, taps or around built-in furniture
- Glass panel sizes depend on the location, the number of cut outs required and the finished panel shape
- Panels need to be fixed to flat smooth plastered or lined walls
- Counter sunk point fixings are available where access panels are required
- Fully concealed fixing using full cover adhesive to the reverse of the glass

We offer individual, location specific advice on the appropriate fixing methods, glass size and glass specification to achieve the optimum, fully compliant result. Bespoke mirrors are subject to a minimum order of 20m<sup>2</sup> or as part of much larger project.

#### **Unrivalled Service**

All projects are surveyed to confirm the design, layout, initial measurements and building compliance and templated as required. All our installations are carried out by fully trained and experienced Ion Glass technicians, managing logistics and lifting details as appropriate.

To discuss your project with our team of experts contact us by phone or email.
