

# SPAS AND LEISURE ENVIRONMENTS

ion

■ GLASS FOR LIFE

Structural glass brings contemporary style and easy maintenance to your spa or leisure environment.

Bespoke glass cubicles are ideal for changing rooms, showers or toilets; glass partitions or screens divide spaces without impacting on light levels and glass doors are perfect for saunas and steam rooms. Make a design statement with a glass vision panel for your swimming pool.

- Each installation is wholly bespoke
- Glass cubicles are available in single or multi-cubicle units, wall hung or glass hung
- Sandblasted glass provides full or partial obscurity
- Minimalist metalwork and fixings for a fully frameless or partially framed result
- Specify easy-clean glass wall cladding in place of tiles
- Install single or double glass doors, wall hung or as part of glass screen or partition
- Glass vision panels for beautiful swimming pools
- Over-sized glass mirrors
- Glass rooflights for below ground leisure complexes

**Subject to individual requirements and compliance Ion Glass bespoke glass can be specified in a choice of glass finishes, sizes and metalwork options including:**

- Clear float standard glass
- Low iron extra clear or tinted glass
- Sandblasted glass for an opaque, partially opaque or decorative finish
- Single or double glazing options available
- Coloured, tinted, laminate or four colour printed glass available
- Bespoke metalwork individually commissioned or manufactured by Ion Glass.
- All visible metalwork can be specified in polished, brushed or powder coated finishes.

We offer individual, location specific advice on the appropriate fixing methods, glass size and glass specification to achieve the optimum, fully compliant result. Our bespoke mirrors are subject to a minimum order of 20m<sup>2</sup> or as part of much larger project.

### Unrivalled Service

All projects are surveyed to confirm the design, layout, initial measurements and building compliance and templated as required. All our installations are carried out by fully trained and experienced Ion Glass technicians, managing logistics and lifting details as appropriate.

To discuss your project with our team of experts contact us by phone or email.
