- Proven to be maintenance free
- Active in-field sales support

AVAILABILITY

- Any configuration available from stock, within 24h

Competing brands: inferior replicate locks with questionable reliability

SECURITY

- Only single bolt assuring less security
- Day bolt risking of coming loose
- Handle blocking putting pressure on mechanism and making it less vandal-proof
- Only 1,5mm stainless steel

MODULARITY

- Poor range of configurations
- Only 4 types of handles
- No keep modularity
- 'You can get any color as long as it's black (H. Ford)'

QUALITY & DURABILITY

- Company's copy mentality doesn't bring genuine quality & engineering expertise
- Mechanism risk to block and will require physical interventions on your end, thus losing money & creating frustrated customers
- Unknown testing & quality screening
- Unclear warranty
- Lock box slits water ingress
- Aluminium split pin

INSTALLATION & MAINTENANCE

- Many loose components make you lose time as an installer
- Requires lubrication 2x/year
- Requires dismantling to spray mechanism 1x/year

AVAILABILITY

- Stock ruptures?
