

The new Velocity cartridge is the heart and soul of Falcon's Waterfree Urinals. These cartridges utilise multiple unique design patents to provide safe, long lasting, low odour performance, while saving up to an average or more than 150 000 litres of water every year. Since its introduction, there have been several improvements incorporated into the design based on feedback from customers. The latest design follows that same path and includes 6 all-new-patent-pending features to provide the best performance ever.

**REDUCES SPLASH-BACK**

An integrated diverter shield reduces splashing while helping prevent debris from entering the cartridge.

**VISUAL INDICATION OF WHEN TO REPLACE**

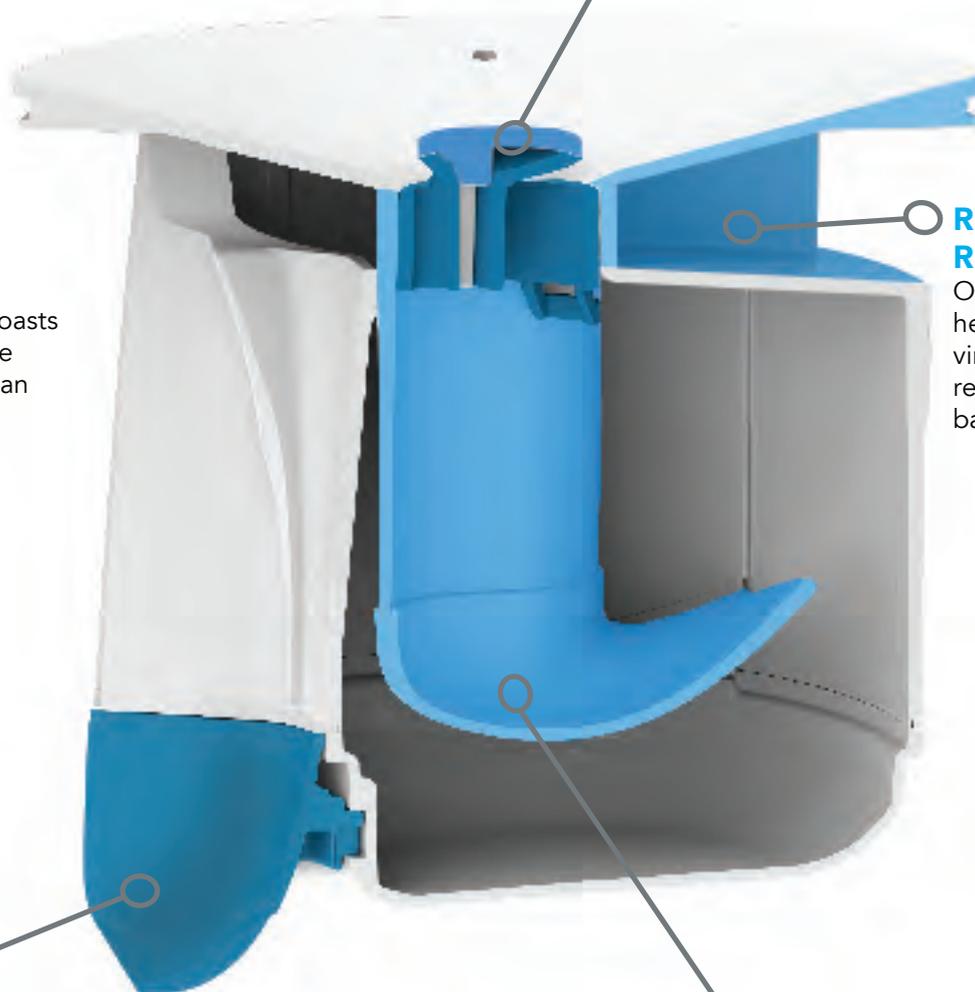

Our self-monitoring indicator provides you with a visual signal that helps you know when it is ready to be changed, making maintenance easier.

**GREENER FOOTPRINT**

Our Velocity cartridge boasts all of these features while using 20% less plastic than previous models.

**REDUCES RESTROOM ODORS**

Our patented cartridge helps keep your washroom virtually odour-free by reducing the area where bacteria can grow.

**KEEPS PIPES AND HOUSING CLEANER**

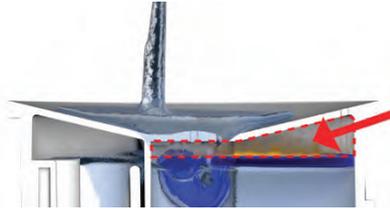

Our patent-pending anti-splash pour spout utilizes speed and direction to streamline urine through your pipes and help keep your housing and drain cleaner.

**RETAINS SEALANT BETTER**

Our interior baffle allows the cartridge to retain its sealant barrier even under the most challenging maintenance practices.

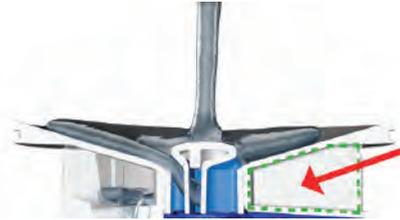

**HOW IT WORKS** THE VELOCITY CARTRIDGE

**ODOUR CONTROL**

Odour can accumulate in this cavity

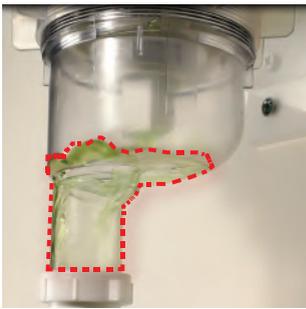

Competitors and old technology has a large surface area and cavity that can harbour bacteria and odour.

Cavity removed

New Velocity Cartridge reduced surface area and elimination of cavity helps reduce odour.

**ANTI-SPLASH / BUILD UP**

Competitors technology splashes, which causes build-up in housing and pipes.

New Velocity cartridge helps to eliminate splashing, which helps keep housing and pipes cleaner.

**OUR TECHNOLOGY IS ALWAYS EVOLVING** CARTRIDGE EVOLUTION HISTORY

Original Design Released

Diverter Shield Added to Help Retain Sealant

Reduced Splash

Easier to Remove Cartridge with New Low Profile O-Ring

Dramatically Reduced Odour Compared to All Previous Models

Better Sealant Retention Due to New Design

Visually Indicates You When to Change it

Helps Keep Housing and Pipes Cleaner

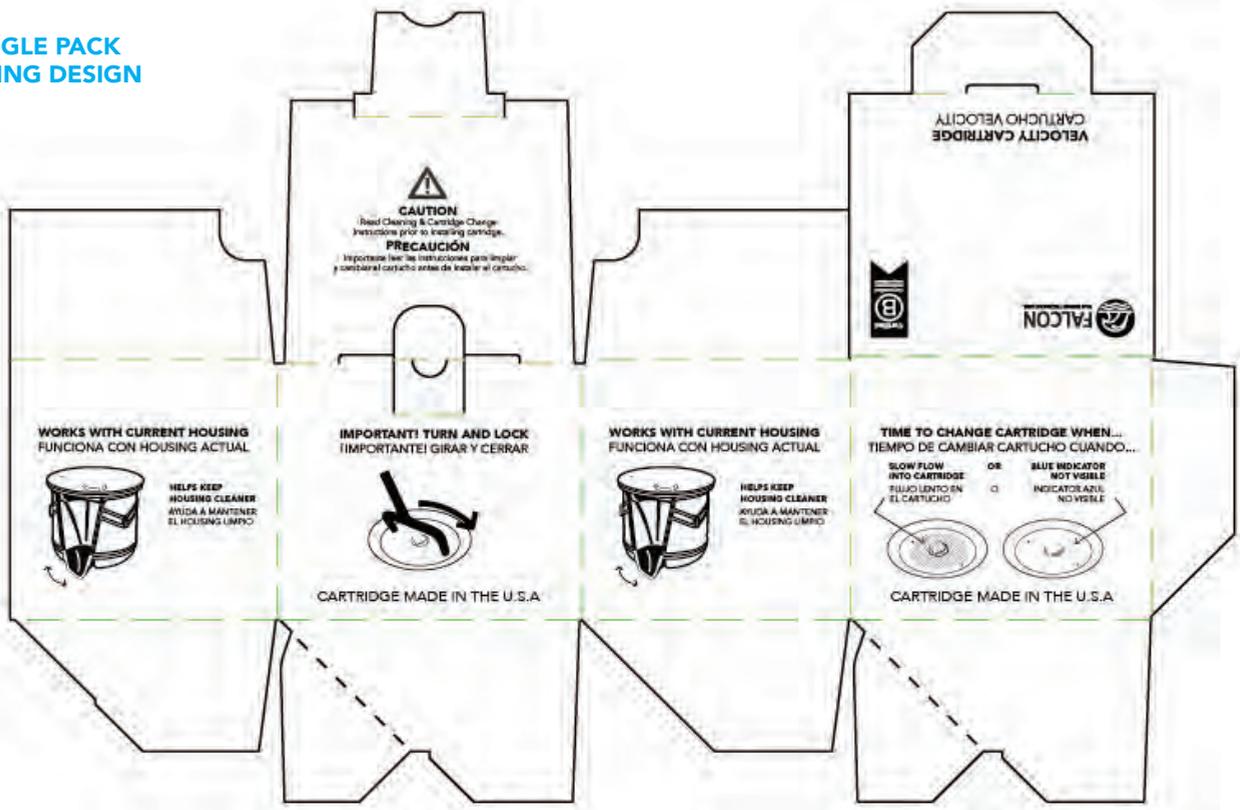

Bucket Dump Friendly

Smaller Environmental Footprint

## PRODUCT UPDATE PACKAGING

The Velocity Cartridge boxes now incorporate much of the product story into the printing on the package. Specifically highlighting certain necessary measures to ensure proper function of the cartridge, such as turning and locking the cartridge into place. The 32 pack external box is still blank and will not feature any new printing on the package.
