

Simply Silent™ DX100

Technical data

Performance

Specification

	DX100
Speeds	2
Extract Performance (l/s)	15/21
Extract Performance (m³/h)	54/76
Electrical Power Rating (W)	6.7/7.7
Specific Fan Power (W/l/s)	0.45/0.37
Sound Pressure Level (dBA@3M)	22/34
IP Rating	X4

Sound pressure testing carried out at ISVR,
University of Southampton - March 2015

AIR QUALITY INNOVATION

The Simply Silent™ DX two-speed, intermittent extractor fan range is designed for those looking for something conventional, with a modern twist. These fans control humidity, odours and mould growth effectively in bathrooms, shower rooms, cloakrooms and toilets. The Simply Silent™ DX range features a conventional grille-style fascia, finished in cool white and available in either round or square.

Choose a model with or without a wall fitting kit, include a run-on timer that is fully adjustable once installed, a pull cord for on-demand operation, or a timer and built-in humidistat to automatically regulate humidity.

So Simple Installation Fuss-free fitting

Quick-fit clamp.

Radial fixing points and level reference.

Larger cable access.

Screwless hook and clip cover.

The flexible Simply Silent™ DX100 suits wall, ceiling, panel or window installations.

So Simple Installation makes fitting quick and hassle free – wherever it's positioned.

Simply Silent™ DX100

The Simply Silent™ DX100 range of 100mm extract fans features unique, innovative Ghost™ Air Movement Technology to deliver near-silent running.

Fan noise comes from both the motor and the movement of air. To combat this, Ghost™ Air Movement Technology uses long-life silent running motors and precision engineered components to avoid mechanical noise, while advanced air flow management eliminates irregular air flow paths and turbulence.

A look inside

Flow straighteners guide air through the duct, **reducing turbulence.**

Long-life ball-bearing motors **suppress motor noise.**

Optimised impeller blade design maximises performance, **while minimising noise.**
