

Special Features

- ▲ HYGIENIC AND VANDAL RESISTANT
- ▲ SMOOTH RADIUS DESIGN
- ▲ INTEGRAL SPLASHBACK
- ▲ ADULT AND JUNIOR HEIGHT MODELS
- ▲ SHROUD TO CONCEAL PIPEWORK

Description

The floor mounted drinking fountain is hygienic, robust and supplied in two models to suit adult or junior height installations. The shielded bubbler valve is positioned for ease of use and the smooth radius design eliminates sharp corners which can cause injury. The drinking fountain is supplied with a full height shroud to conceal the supply and waste pipework.

Construction

The drinking fountain is manufactured in one piece without joints or crevices from grade 304 stainless steel with all exposed surfaces polished to a satin finish. For ease of cleaning and hygiene a splashback is incorporated in the top of the drinking fountain.

The shroud is removable to gain access to the pipework and is held in place by security screws.

Each drinking fountain is supplied with a flush grated waste fitting and a chrome plated shielded bubbler complete with a self closing push button valve.
