

Technical specification

# Triple Conic

High tenacity polyester based cloth

UV Resistant / stable

100% waterproof

The triple conic canopy is an aesthetically pleasing structure that can be utilised for a number of applications.

## Dimensions

This structure is available in one size, 8 x 18m. It has an eave height of 2.7 metres.

## Frame

The steel frame can have a low maintenance hot dip galvanised finish or a polyester powder coated finish. Available in a range of RAL colours. Resin bolted to foundations. It is guaranteed for 25 years.

## Foundations

Typical foundation size: 1500mm x 1500mm x 900mm C35. Set 300mm below finished floor level. Dependent on ground conditions and location.

## Cladding

The structure is clad in a pvc tensile fabric, guaranteed for 10 years.

## Optional extras

Fordingbridge can supply and install padded covers for canopy posts, available in a range of colours to cover various post widths and heights.

## Tensile Fabric

A cost-effective fabric for creating large covered spaces
