GLASS CENTRAL

Strand Hardware Ltd hold the exclusive UK distribution rights for the Preference range from Singapore. Preference have been manufacturing glass fittings for 25 years. Their P&M brand is the market leader in Singapore and they have considerable export sales in Australia, Asia, the Middle East and Europe. Preference design and manufacture their range and, with constant innovation behind the launch of new products, they maintain the highest quality to ensure their competitive edge in the market place.

Extensive stocks are held in Singapore to complement our UK stock holding to ensure minimum lead times. The range includes Patch fittings, Door handles and knobs, Locks and latches, Door Rails, Partitioning systems, Sliding door gear, Shower fittings, Magtec sliding door systems, Spider fixings, Standoffs and hydraulic self-closing hinges. For full details of their products, please visit their website www.preference.com.sg

The Glass Central product range is stocked at our premises based in Walsall, West Midlands, where we will also cut the door rails to your required sizes with delivery times to meet your requirements.

We aim to offer a first class service providing a high quality product, competitively priced, supported by experienced sales professionals and full technical back up.
