FENCING

## Palisade

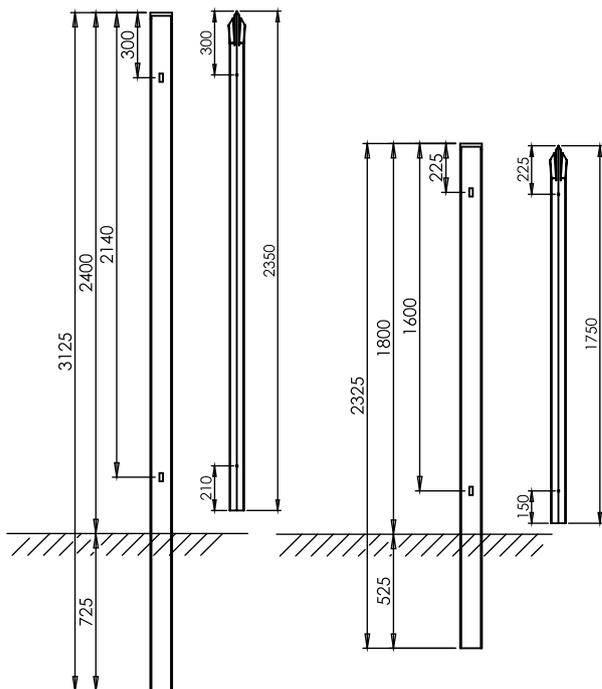

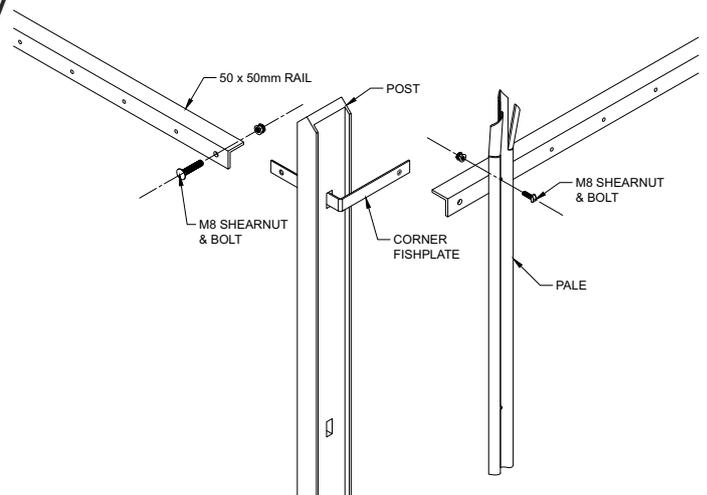

Galvanised Palisade Fencing

Palisade fencing is the most popular choice for locations requiring a level of security and vandal resistance and can be seen protecting premises of many different types throughout the UK.

Steel Palisade fencing is especially popular for schools and industrial sites because of its high damage resistance and that it is difficult to climb.

- 1** 50x50mm Rail
- 2** M12 x 30mm Shear Nut & Bolt
