

MAKE YOUR ROCKFALL PROTECTION SMARTER

HELLOMAC is an alert system developed to monitor our rockfall protections, also in remote areas. Get an alert when a rockfall event occurs!

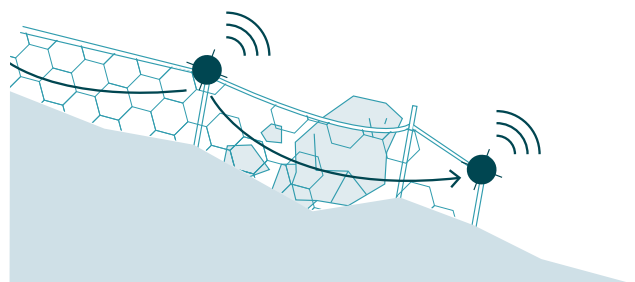

EASY TO INSTALL ALERT SYSTEM THAT FITS MACCAFERRI DRAPERY SYSTEMS, ROCKFALL AND DEBRIS FLOW BARRIERS

Why HELLOMAC is the right system to make you feel safe:

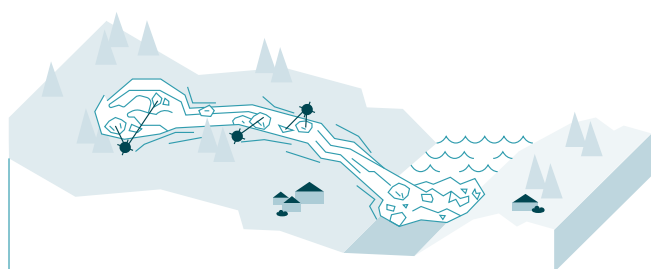

- Super reliable and accurate
- Easily deployable by a rockfall worker
- Does not require wiring activities
- Does not need external power supply
- Does not require maintenance

TESTED

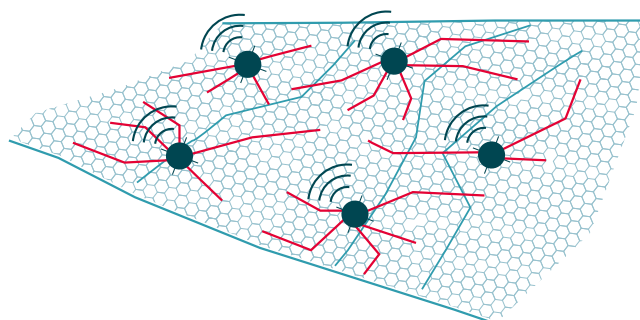

HELLOMAC WAS TESTED AT
POLITECNICO DI MILANO ON
MACCAFERRI PRODUCTS

Rockfall Barriers

Debris Flow Barriers

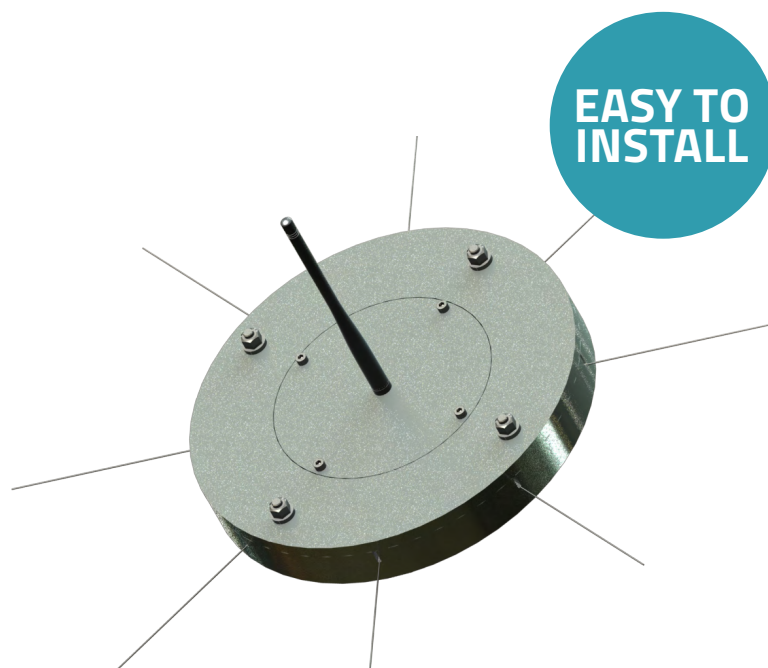

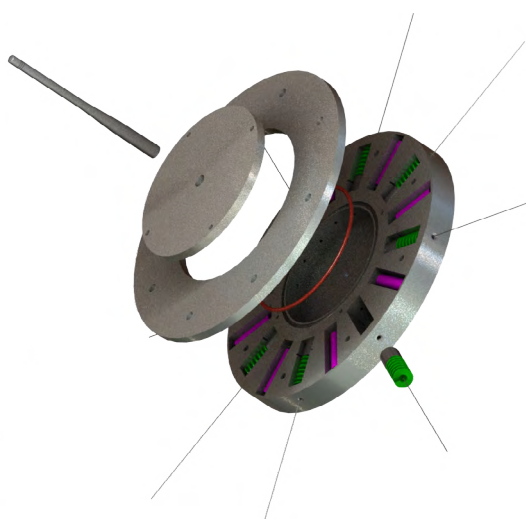

Drapery System

HELLOMAC

MAKE YOUR ROCKFALL PROTECTION SMARTER

Developed to work also in remote areas, where cell coverage is not available.

Unlike traditional systems, HELLOMAC signals events on every single portion of the barrier, allowing the detecting system to be restored in a simpler and more economical way.

GET NOTIFIED WHEN
A ROCKFALL EVENT
OCCURS VIA MOBILE
APP, SMS AND EMAIL.

HELLOMAC App available on
App Store and Play Store
