

BEAUTIFUL BATHROOMS

*by*  
**AKW®**

**Beautiful Bathrooms by AKW** marks the beginning of an exciting period of change for us.

For over 35 years we have strived to push the boundaries of design whilst ensuring quality craftsmanship and great value, and have done so with overwhelming success.

This contemporary collection of baths is the first of many which focuses on promoting not only the importance of functionality, but also the powerful impact that intelligently designed, beautiful spaces have on our well-being.

I think we can all agree that everyone deserves to love the place they call home, whatever their needs, space or budget.

I am extremely proud of what we have achieved here and hope you enjoy browsing our collection as much as we loved building it.

## WELCOME TO **BEAUTIFUL BATHROOMS**

With our years of experience, we know that the right bathroom can not only transform a home, but the people living within it too.

An invigorating shower has the power to refresh and renew, with a luxurious soak able to help you to unwind and recharge. A bathroom can be a sanctuary, a place of solitude, somewhere to exercise some well-deserved self-care, and we firmly believe that everyone should love the space they live in.

We understand that good design is a key factor in promoting positive well-being, which is why we have intelligently designed and expertly curated the Beautiful Bathrooms collection, to help bring your vision to life.

Select from our range of contemporary and durable baths, wash basins, and WCs that stand the test of time, and complete your suite with a choice of stylish brassware, glass screens, electric and mixer showers, fitted furniture, towel warmers and accessories.

We are here to help you create a space to be proud of.

# OUR STORY

The AKW story began in 1982 after one of our founders had been trying to find a shower tray to meet his mother's needs without success. In frustration, he produced and patented one of his own design. Since then, AKW has become an international business and the UK's leading manufacturer of accessible bathrooms, kitchens, and daily living products.

Today, we are still driven by the same principles on which the business was founded; to support independent living and develop superior products that are practical, safe, beautifully designed, and improve quality of life.

We are proud of our heritage, with *care* and *family* threads that still run through our ethos today; caring for our customers and achieving a family feel throughout our business. The products within in this brochure have been carefully chosen and lovingly designed by us, for you, to underpin the principles we have been striving to achieve for over 35 years; from our family to yours.

## QUALITY YOU CAN TRUST

At AKW, we pride ourselves on being able to deliver high quality, beautiful bathroom products, many of which come with a 'Made for Life' warranty.

As a company, we are constantly striving to evolve, and as such, we take great care when producing concepts and designs, selecting materials, and working with our network of responsible suppliers to create innovative and stylish solutions.

*Life Made Better* is more than just a slogan, it is our mantra, our motivation, and it runs through the heart of everything we do, from design to delivery and beyond, which is why we aim to provide exceptional customer service, from beginning to end.

Our focus on *care* and *family* means that we take a personable, yet professional approach with all our customers. Our dedicated Customer Service colleagues are here to provide assistance and peace of mind, with our expert Technical Support team who benefit from decades of experience, available to guide and support you during and after installation.

We are here to help and ready to join you on this exciting journey.

# A DESIGN FOR EVERY HOME

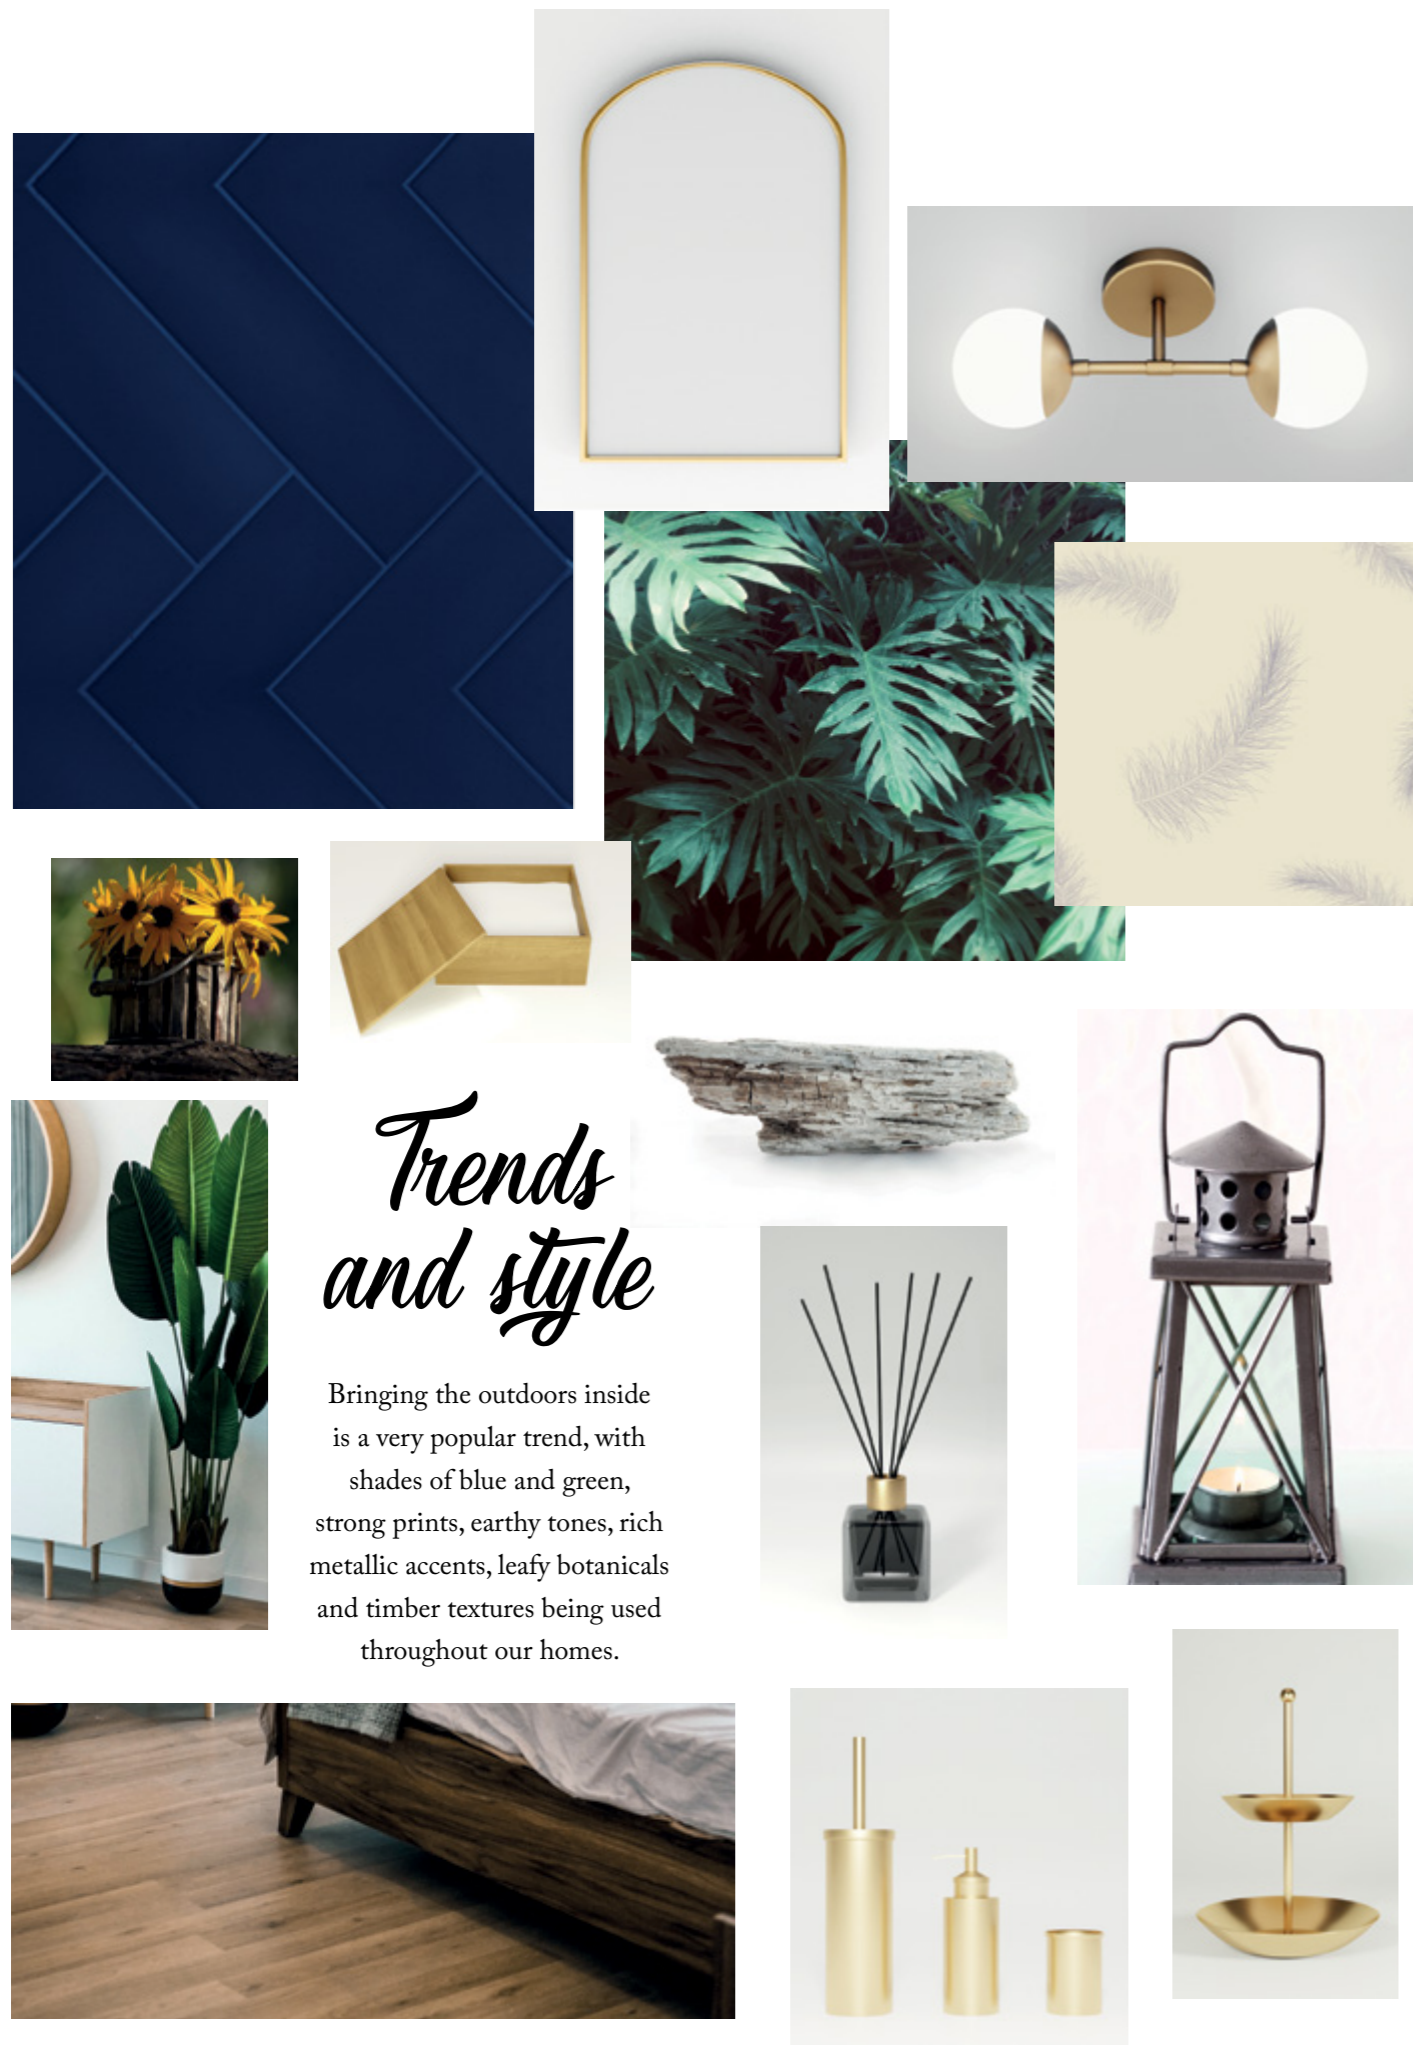

As designers and innovators, we are heavily influenced by current trends and take inspiration from the world around us. We also engage with and listen to our customers to make sure we can offer stylish bathroom products that help you to really love your home, no matter its size or your budget.

AKW was founded upon the need to provide a cost-effective, smart solution to improve quality of life, this still rings true today and drives us when developing new, aspirational concepts.

We are passionate about proving that anyone can have a beautiful bathroom; we have a wide range of contemporary yet affordable fixtures and fittings that not only help to maximise your space, but also reflect your own personal taste, without breaking the bank.

Together we can create a bathroom that is as individual as you are.

## DARE TO BE INSPIRED

We believe that everyone should enjoy designing their own beautiful bathroom; your space should represent who you are, it is a blank canvas on which you can paint.

When planning this striking concept, we were inspired by the deep hues of blue which are increasingly popular at the moment. We paired this with subtle silver and gold accessories, delicate plants, and natural timbers to give this room a bold aesthetic with a warm, inviting feel.

# BUILD YOUR BATHROOM

We know bathrooms are essential to our daily lives, but we also understand that the best bathrooms do not just meet our fundamental needs, they also contribute to our well-being – they make us feel good.

This means they also need to look good, which is why at AKW, we place great importance on developing bathroom products that are not only practical, but beautiful too.

We are here to help you build your bathroom step by step, and invite you to browse our range of WCs, wash basins and baths, to tailor your space with your choice of brassware, fitted furniture, or sleek glass screens, and accessorise as you see fit, making your home one that reflects who you are.

Wash Basins

We have a selection of stylish wash basins in a variety of sizes to suit your taste, needs and space.

Pedestals

Opt for a traditional full pedestal for an elegant finish which covers any unsightly plumbing, or go for a contemporary semi pedestal which gives the illusion of floating.

Fitted Furniture

Our fitted furniture is available in several natural-effect finishes, helps provide extra storage, and can be tailored to the smallest of spaces.

Brassware

Browse our hand-picked collection of brassware, which includes classic cross head or modern pieces from our popular AKW Denova® range.

WCs

Choose from our stylish close-coupled WCs or opt for our back-to-wall pan which cleverly conceals the cistern within fitted furniture.

Glass Screens

If you need a shower fitted over the bath, our screens come with a curved or square top finish.

Baths & Panels

Our steel baths are available in three lengths and come with a patented etched, anti-slip dot pattern in the showering area. We also have four types of bath panel to choose from in a range of clean finishes.

## A SAGE HAVEN

Create the ideal space to relax and unwind in, somewhere that oozes classic elegance, but also feels fresh and current, with hints of nature running throughout.

Here we showcase the Livenza Plus wash basin with full pedestal and vintage-inspired, cross head taps, tastefully paired with the Livenza Plus close-coupled WC.

Our bath with PVC panel and matching chrome brassware, sits effortlessly against our *'Aspendos Light Grey'* ceramic tiles, which add simple sophistication and complement the sage green walls and warm wooden flooring.

This bathroom is perfectly finished with floral wall art, an ornate mirror, soft cream textiles, and a mixture of chrome accessories.

# MADE YOU BLUSH

Rejuvenate and feel yourself bloom in this tenderly designed, blush-coloured paradise.

Our close-coupled Navlin WC and full pedestal wash basin with contoured AKW Denova® brassware feels right at home in this subtle sanctuary.

Origins wall panels in '*White Frost*' provide a stylish alternative to tiles that exudes personality and helps to reflect light effortlessly across the room, with ashen grey tones echoed in the '*Slate*' slip-resistant vinyl floor.

The curved top glass bath screen, chrome towel warmer, lush green plants, and collection of fashionable white Onyx bathroom accessories delicately tie this beautiful bathroom together.

## A CLEAN SLATE

Sometimes you just need to wash away the day and start over, begin again with a fresh mind, and the bathroom is the perfect place to do just that.

The centrepiece of this enviable room is undoubtedly the '*Grey Bonito*' wall panels from our Origins range, which adorn the bath with a natural yet refined finesse.

The square top glass screen, bold black Onyx accessories, and geometric mirror give this room a touch of strength, with the contemporary close-coupled Navlin WC, wash basin with semi pedestal, fluffy grey textiles, and leafy plants bringing elements of softness and warmth to this cool interior.

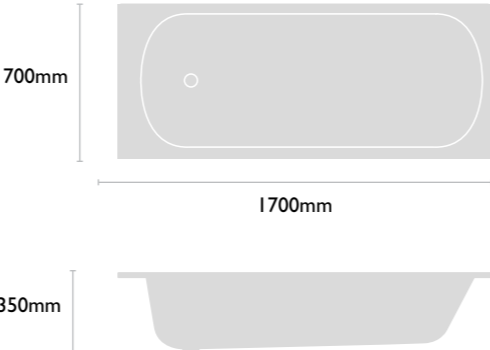

# BATHS

Our range of single-ended, pressed steel and enamel baths have a 39st weight limit (including water) and feature a patented etched, anti-slip dot pattern in the showering area, which has been designed to aid with the prevention of accidents, while ensuring maximum comfort when bathing. Two tap holes are pre-drilled for use with paired or mixer taps, with adjustable legs, chrome-finished handles, plug/chain waste and overflow included.\*

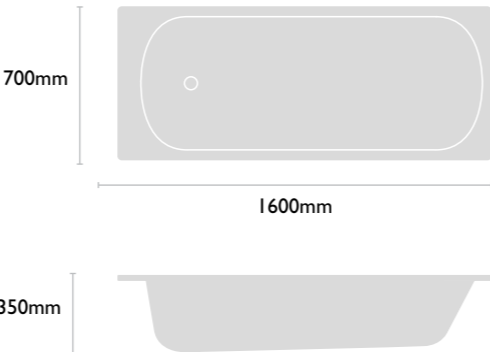

**Steel Bath 1700 x 700mm | 30842**

Internal length 1510mm | Internal width 572mm | Height 350mm  
Overflow to waste 256mm | Water capacity to overflow 150 litres

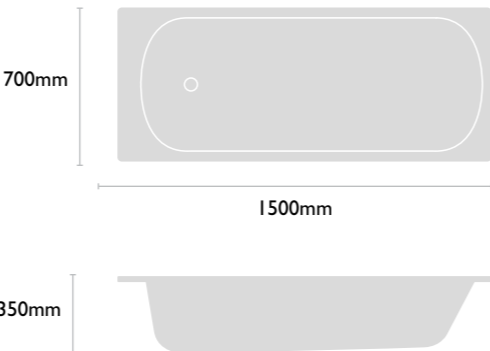

**Steel Bath 1600 x 700mm | 30843**

Internal length 1410mm | Internal width 572mm | Height 350mm  
Overflow to waste 256mm | Water capacity to overflow 138 litres

**Steel Bath 1500 x 700mm | 30844**

Internal length 1310mm | Internal width 572mm | Height 350mm  
Overflow to waste 256mm | Water capacity to overflow 126 litres

# BATH PANELS

Choose from our range of clean white bath panels to complete the look of your new bath.

**Extruded PVC Front Panel 1700mm | 30828**

## Onyx Large Shelf | 23680

## Onyx Small Shelf | 23681

## Onyx Robe Hook | 23690

## Onyx Soap Dish | 23683

# A BATHROOM FOR LIFE

Updating your bathroom to make it more functional can be expensive and disruptive. Given our decades of experience adapting homes to improve quality of life, we consider how your requirements might change over time and have developed a solution to future-proof your space.

Creating a bathroom for life involves fitting and plumbing a wet room former beneath the bath, so if you are unable to safely use this in the future and would instead benefit from a wet floor shower, the components are already installed, making the switch much simpler, cheaper, and faster for everyone involved.

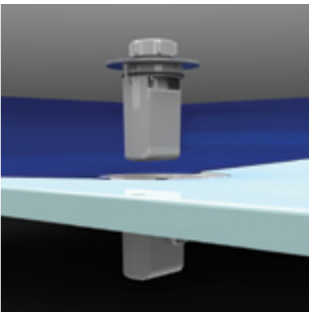

Our Tuff Form® wet room former offers superior strength which can support a full bath and bather. Installed with a unique adaptor\*, this enables you to easily convert a traditional bathroom to a wet room, should this be needed to address a decrease in mobility, or even if your showering preferences change.

Bath-to-Tray Adaptor  
(waste not included)

Bath legs can be situated directly  
on top of the Tuff Form®

Typical waste connection  
(Bath to Tuff Form® and below)

# HERE FOR YOU

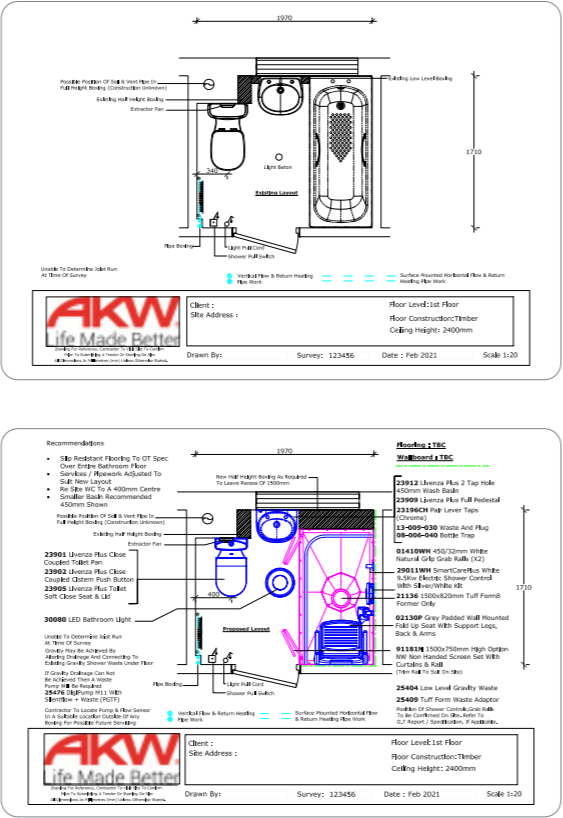

At the heart of every successful renovation is careful planning, trust and teamwork, that's why we are here to help you, every step of the way.

Our experienced network of regional Sales representatives can provide advice on selecting the best products for you, and are contactable via phone, email, LinkedIn, or over video conference.

If you're in need of assistance with the design or specification of your project, our team of nationwide specialist Surveyors are on hand to visit, measure your space, supply drawings, and advise on the best fixtures and fittings for your bathroom, giving you peace of mind and an expert to chat things through with face-to-face.

Our dedicated Customer Service colleagues are here to help with placing your order and arranging a delivery that suits you. Should you have any installation or operational queries, our fantastic Technical Support team – many of whom have previously worked as plumbers – are available to discuss these with you, or organise a home visit from our Engineers, should this be required.

Naturally, we put safety and security first, so all our Surveyors and Engineers carry AKW ID cards, which have braille stickers for visually impaired customers. They are also equipped with PPE and adhere to increased health & safety protocols to ensure the welfare of everyone.

To find out how we can help, get in touch using the details below.

The Dementia Services Development Centre at the University of Stirling have undertaken a review of this product and have rated its design in relation to dementia design principles and its usability within a dementia-inclusive environment. For ease of identification, the suitability of the product is classified by number with corresponding explanation of use, within the ratings key provided. The DSDC Accredited Product logo is awarded on the merit of the individual product and colour-way. This accreditation does not merit the manufacture or final application of the product. Whilst every endeavour has made to ensure the ratings are reflective of the products suitability and applied use at the time of print, DSDC cannot be held responsible for the application of the final product, its performance or its interface with other products or finishes. For an environment to be considered 'dementia-inclusive' or 'dementia-friendly' careful consideration must be given to the specification of adjoining finishes, their performance specification (for example Light Reflectance Value (LRV) slip resistance and use of pattern) and their suitability for their intended use.
