THE DRIVEWAY AND PAVING  
REFURBISHMENT PROFESSIONALS

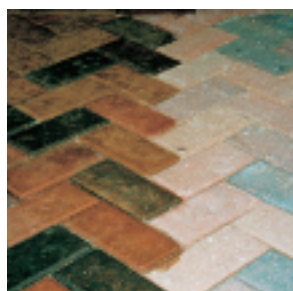

Reasons to use  
PICSEAL...

No more weeds

Stop oil stains

Improve the appearance

Maintain your investment

Minimise maintenance

## Is your paving dirty, has weeds and needs a little TLC?

### We can solve your maintenance problems!!

Our quality refurbishment team can transform your paving, bring it back to life and advise on simple long-term maintenance. Alternatively, we can arrange for all the PICS quality materials to be supplied direct to your home if you choose to carry out your own maintenance.

Simply choose from the two options below to refurbish your paving today!

#### PATTERN IMPRINTED CONCRETE

If your pattern imprinted concrete paving is more than three years old, it is likely to be in need of a spring clean. Once the paving has been thoroughly cleaned and treated for moss, algae or oil stains, a fresh coating of PICS High Solid Sealer will bring your paving alive again.

Our experienced refurbishment contractor can also attend to a variety of minor defects if required, and we will advise you on simple maintenance guidance for now and the future.

#### BLOCK PAVING

Maybe the drive was laid before you moved in, or perhaps it's just that you never really thought about long term maintenance? The facts are the same – wind, rain and the passing of time cause severe harm to block paved drives. Weeds establish themselves through the smallest of gaps and your once proud paving looks in need of attention.

You need the ultimate protection that only PICSEAL can offer. When all the preparations are complete and the PICSEAL has been applied it's like having brand new paving!

#### WHAT ARE MY CHOICES?

##### OPTION 1 – DIY

If your paving is generally in good condition but requires a wash down and application of sealer, you can purchase all the items necessary by completing the enclosed order form.

##### OPTION 2 – PROFESSIONAL REFURBISHMENT

If you need remedial work carried out on the fabric of your paving, contact us on our local telephone number printed overleaf for a FREE, no obligation site survey and quotation.

## THE NEXT STEP FORWARD...

### OPTION 1 – DIY

- IDENTIFY THE TYPE OF PAVING YOU HAVE AND THE RELEVANT PRODUCTS REQUIRED.
- ACCURATELY MEASURE THE AREA OF PAVING TO BE TREATED.
- COMPLETE THE ORDER FORM INCLUDING YOUR CONTACT DETAILS AND RETURN TO US BY FAX, EMAIL OR POST (see overleaf).
- GOODS WILL BE DELIVERED WITHIN 48 HRS UPON RECEIPT OF PAYMENT.
- PLEASE READ THE ENCLOSED APPLICATION AND HEALTH & SAFETY INSTRUCTIONS SENT WITH GOODS PRIOR TO USE.
