

MACROPOXY™ 400 SERIES

MULTI-PURPOSE EPOXY PRIMERS

The multi-purpose Macropoxy 400 Series provides excellent application properties by airless spray, and can provide low temperature curing down to 5°C. The products can be used as primers on suitably prepared surfaces in both internal and external environments, as well as a high build intermediate coat and a final coat, where a low sheen industrial and functional finish is required.

FEATURES

- Low temperature curing capability (Macropoxy C400W)
- Excellent application properties by airless spray
- VOC compliant
- Meets accelerated testing requirements for C5-M High Durability in accordance with ISO 12944-6-1998

BENEFITS

- Full film formation at low temperature
- Cures down to 5°C
- Faster handling of coated steel
- Lower shop energy costs
- Less waste
- Reduced cost
- Helps maintain VOC compliance in accordance with the Solvent Emissions Directive (SED)
- Suitable for use in environments up to and including C5-M

MACROPOXY™ 400 SERIES

MULTI-PURPOSE EPOXY PRIMERS

TYPICAL APPLICATIONS

Our Macropoxy 400 Series is suited to a wide range of specifications including C5-M (high durability) as defined in ISO 12944-5-2007, featuring up to 20 years to first major maintenance in appropriate specifications.

The series is also fully compatible with the FIRETEX® range of intumescent products.

Macropoxy C400W product offers low temperature cure down to 5°C ensuring full film formation and faster handling of coated steel at lower temperatures. This new technology enables clients to extend their painting season and reduce shop energy costs for faster and lower cost throughput.

THE SHERWIN-WILLIAMS DIFFERENCE

Sherwin-Williams Protective & Marine delivers world-class industry subject matter expertise, unparalleled technical and specification service, and unmatched regional commercial team support to our customers around the globe. Our broad portfolio of high-performance coatings and systems that excel at combating corrosion helps customers achieve smarter, time-tested asset protection. We serve a wide array of industries across our rapidly growing international distribution footprint, including oil and gas, water and wastewater, bridge and highway, steel fabrication, flooring, food and beverage, rail and power, and marine.
