# Made for the Future.

The Cibes Cloud Plus is our next generation lift, made for the future in every sense. We are taking accessibility, design and sustainability to the next level. Our excellent design is easy to operate and upgrade over time and offers you more options than ever before, so that you get a lift that makes a world of difference to your everyday life. The Cibes Cloud Plus is designed for you, to elevate your way of living, today and in the future.

*Offering you modern design, unparalleled safety and comfort, the Cibes Cloud Plus is designed to elevate your way of living.*

## **Step into the Cibes Cloud Plus.**

Sometimes in everyday life, you run into barriers. Whether it is about not being able to move around in your home freely or not being able to shop at your favourite store because you are a wheelchair user, does not matter. We make life easier by removing these barriers.

## Designed for you

From the extremely busy city centre, to the quiet countryside, we all have a place where we feel safe and want to live together with those we love. Let the Cibes Cloud Plus blend in seamlessly with your lifestyle. The elegant Scandinavian design, carefully selected colour collections and ergonomic features makes this a beautiful lift, not only to look at but to elevate your living. The Cibes Cloud Plus is made for any environment, for any style.

## Design that speaks to your senses

Travelling in the Cibes Cloud Plus is easy and comfortable. The control panel has two-directional buttons so you can apply pressure on them from the top or from the front, making it ideal for all passengers. The integrated level indicator of the control panel, showcasing travel direction and floor completes the elegant intuitive design.

# Ready-made concept

Enjoy barrier-free living with minimal interruption to your daily life. Your Cibes Cloud Plus can be delivered in weeks and installed in just a few days. All thanks to the space-saving, smart ready-made lift concept, with everything you need for installation.

---

## 20 different lift sizes

The widest range of platform lift sizes on the market, to fit into any space.

---

---

## Panoramic lift design

Thanks to the fully glazed panoramic lift shaft you can enjoy a full 360° view of your building and keep any space open and airy.

---

---

## No lift pit needed

The lift can be installed with a shallow pit of only 5 cm or placed directly on the floor by adding an elegant access ramp.

---

---

## Reduced Top Height

The top height of only 2350 mm fits under most ceilings.

---

---

## Screw-driven platform lift

Equipped with 100% electric screw and nut drive with automatic lubrication system.

---

---

## Panoramic Plus doors

The strong lightweight aluminium doors have maximum glazing, making the most of the 360° view.

---

---

## Machine Room Less

There is no need for a separate machine room, the lift machinery fits inside the shaft.

---

# Premium is the new standard

The Cibes Cloud Plus is set to enhance your experience and make every ride a pleasure. The standard lift model is packed with several features to give you a premium level of comfort.

## Intuitive Call Button

The large intuitive call button has a modern look and feel and the self-explanatory LED lighting makes them easy to operate.

## Recessed Ceiling

The ceiling of the Cibes Cloud Plus is equipped with energy-saving LED lighting adding subtle and soothing extra light to your lift.

## Functional Light Features

The LED lighting of the top safety bar and safety edges give the lift a modern look, but are also functional. For instance, the top safety bar lights up in red if you accidentally lean on it.

# Add an extra touch

Create an atmosphere in any environment and enhance the feeling of luxury by adding extra features to your lift.

**Shaft Lighting**

**Ceiling with  
LED Light Diodes**

**Recessed

## Most sustainable lift yet

Let us introduce you the most energy-efficient lift of its kind, made for the future in every sense. How did we do this? We selected our suppliers carefully, invested in sustainable innovations and only used high-quality materials to make our products as durable as can be.

### Upgraded drive system

Enjoy the most comfortable, quiet and smoothest ride ever with our new optimised drive system.

The drive system is energy-efficient enough to carry Energy label A and only generates a sound of 40 dB. This makes it the quietest platform lift on the market. Thanks to this innovative solution, we are proud to say that the Cibes Cloud Plus is truly unique.

### Easy to upgrade over time

Why install a completely new lift when you can replace parts of it? Thanks to the smart and flexible construction, it is easier than ever to extend the lifetime of your lift through continuous updates and upgrades.

### Durable and energy-saving light features

All lighting features are equipped with LED technology and programmed to automatically switch off when the lift is not in use. This not only saves money, but is also better for the planet.

# Beautiful Colour Collection

The Cibes Cloud Plus offers you a collection of 7 carefully selected and harmonising colour combinations. From minimalist shades of white to beautiful and bold colours for those who want their lift to be the showpiece of any building. As an option, you also have the choice between close to 300 colours from our RAL and premium colours collection.

**Signal White**  
(RAL 9003)

**Oyster White**  
(RAL 1013)

**Grey**  
(RAL 7024)

**Graphite Black**  
(RAL 9011)

**Green**  
(RAL 7033)

**Azure Blue**  
(RAL 5009)

**Orange**  
(RAL 2010)

# Flooring

Inspired by the natural texture of stone, this Marmoleum Slate collection by Forbo brings the design of your lift to life. Each lift colour in our standard collection is provided with a preselected floor, but you can choose any of the other Marmoleum Slate floors in our collection as an option.

Do you want the lift to blend in completely with your surroundings? It is also possible to deliver the platform without a floor, allowing you to fit your own floor.

**Cornish Grey**

**Welsh Slate**

**New Foundland Slate**

**Highland Black**

*“Color is a power which directly influences the soul.”*

*Wassily Kandinsky*

# Door Collection

Our new collection of doors is made for your comfort. All door models are made of strong lightweight aluminium and are easy to upgrade over time.

**Panoramic Plus Door**  
Standard door model

**Panoramic Door**  
Optional door model

**Saloon Door**  
Optional door model

**Panoramic Gate**  
Optional door model

**Panoramic Plus Gate**  
Optional door model

## Saloon doors

Make your lift stand out by adding these elegant and modern, double-action saloon doors. The double door leaves have integrated automatic door openers and save a lot of space on every landing.

## Gate door on the top floor

The perfect solution if you have a slanted ceiling on the top floor or like to keep a room as open and airy as possible. For such cases, you can opt for a 1300 mm high gate instead of a full-height door.

# Door Accessories

## Landing Light

Get an extra warm welcome by adding this landing light. The light is activated when the lift arrives to the floor and provides an extra light source in dark rooms.

**Level Indicator**  
Add level indicators above your doors to always see from the outside on what floor the lift is.

## Child Safety Lock

Prevent the lift from being used by young children during inattentive moments by adding a child safety lock.

# CIBES LIFT GROUP

BRINGING PEOPLE TOGETHER

Founded in 1947, Cibes Lift Group is a world-leading manufacturer of space-saving, modular lifts. High-quality Swedish engineering and great Scandinavian design are the secrets behind our success. All lifts are manufactured in our factory in Sweden and exported to more than 70 countries via a network of 200 certified dealers.
