

# GRILLES

## FOR MINI CANAL, CANAL PLUS AND CANAL COMPACT

Jaga offers various integrated trench heating solutions for floor-to-ceiling windows and glazed façades. Elegant, giving an unobstructed view through the window or glazed façade. But also technically advanced, since they are equipped with powerful Jaga Low-H<sub>2</sub>O technology.

For Mini Canal, Canal Compact and Canal Plus there are more than 22 different grilles available. In this overview, you will find a solution to suit every interior.

the lacquer coating, an extremely  
wear-resistant and UV-resistant  
polyester lacquer coating of the  
highest quality is used. Only in  
glossy (code 2..)

## SPECIALS - OVERVIEW GRILLES

### ACCORDION

**ANA** Natural aluminium

The Accordion by Jaga gives your floor an artistic touch.  
It has a unique and flexible appearance, but always  
stays firmly in place. Its playful, curved strips stand side  
by side – matched in ranks. The result? An uninterrupted  
concertina movement that gives the grille a life of its  
own.

**Free air flow: 55%**  
**Output correction factor: 0.75**

Dimensional tolerance  
grille width: 0/+2 mm

### PEBBLES

**PNC/026** platinum gray

**PNC/028** Granite gray

Pebbles is a new addition to the extensive Jaga range. It  
is an superbly crafted cast aluminium grille, a masterpie-  
ce of traditional metalwork. Pebbles has the strong ap-  
pearance of a traditional heavy cast iron grille with all the  
advantages of light aluminium. The irregularly spaced  
and different shaped holes give the grille the appearance  
of a scattering of pebbles.

Rigid grille in cast aluminium. With rubber caps to  
reduce impact noise. Sandblasted and lacquered with an  
extremely wear and UV resistant polyester lacquer with a  
matt, lightly structured finish. Matching frame in natural  
aluminum colour.

Pebbles is made up of 'tiles' (10 mm thick x 500 mm  
long) with the end tile at least 20 cm long. The tiles have  
a pattern of holes which can be matched at the joints so  
that the seams are barely visible.

**Free air flow: 66%**  
**Output correction factor: 0.85**

Dimensional tolerance  
grille width: 0/+2 mm

Only available for frame widths  
260, 340 and 420 mm.
