

## TRENCH CLIMATE CONVECTORS

LOW WATER CONTENT CONVECTORS FOR HEATING AND COOLING

# jaga

CLIMATE DESIGNERS

**Climate change and evolution of construction techniques demand new ecological solutions for heating, cooling and ventilation.**

New technologies have to consume far less energy. They have to ensure a better indoor climate without damaging the outdoor climate. Traditional systems with fire and carbon emissions have to be extinguished. We have to evolve towards a green flame and build a sustainable path towards a better future. Choosing the sustainable path is no longer a matter of choice, it's an obligation.

Always honouring its values, Jaga Climate Designers continually look for the most ecological solutions for heating, cooling and ventilation.

# SEAMLESS SOLUTIONS FOR DESIGNER BUILDINGS

## THE ARCHITECT'S CHOICE

Trench climate convectors can be integrated into any type of building, but they're commonly specified for buildings with large glazed façades due to the limited wall space and the desire for a subtle solution that does not obstruct the natural daylight or aesthetics.

For mechanical engineers, highly glazed buildings can pose a challenge in terms of the associated solar heat gain, heat loss and the possibility of cold draughts.

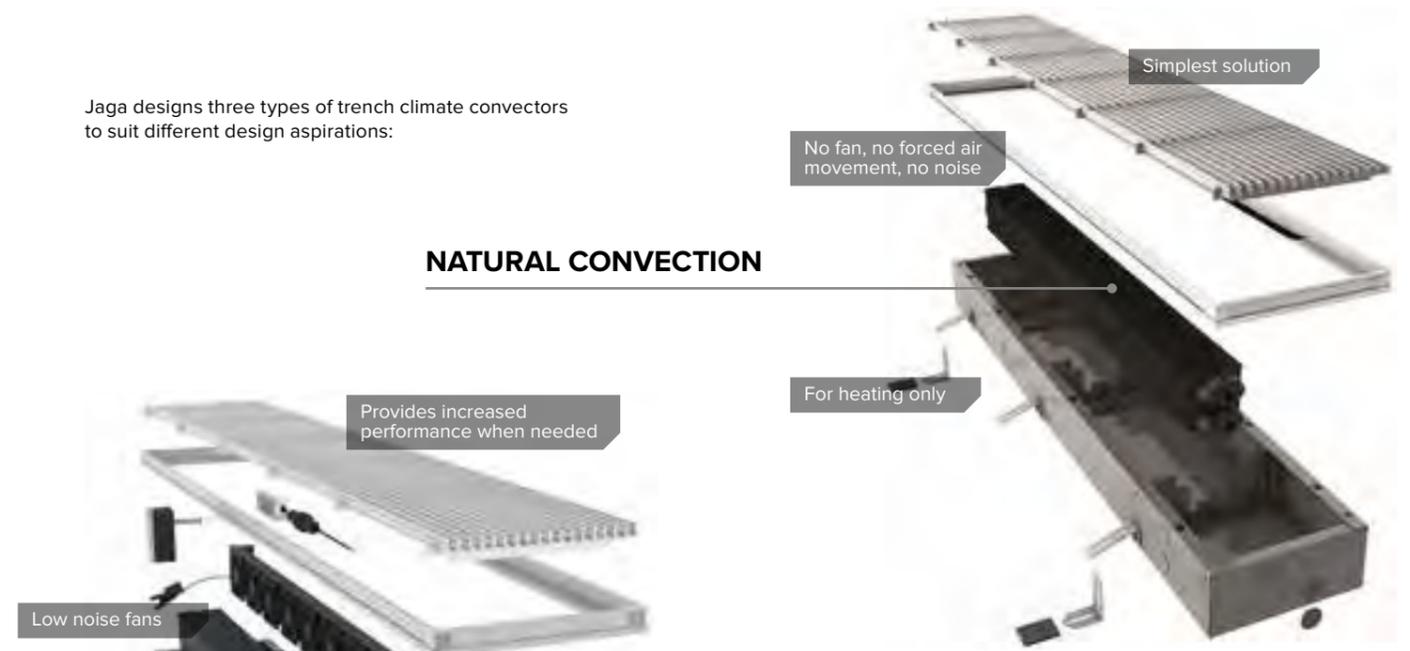

With high outputs, even at low flow temperatures, Jaga's trench convectors offer a complete climate solution, with the ability to provide heating, light cooling (non-condensing), deep cooling (condensing) and ventilation all from one unit.

They can also be used to effectively screen cold air and avoid condensation on large windows, or supply supplementary heat.

-  Highly glazed buildings
-  Buildings with limited wall space
-  Residential apartment blocks
-  Public buildings
-  Educational environments
-  Healthcare settings
-  Places of worship

Jaga designs three types of trench climate convectors to suit different design aspirations:

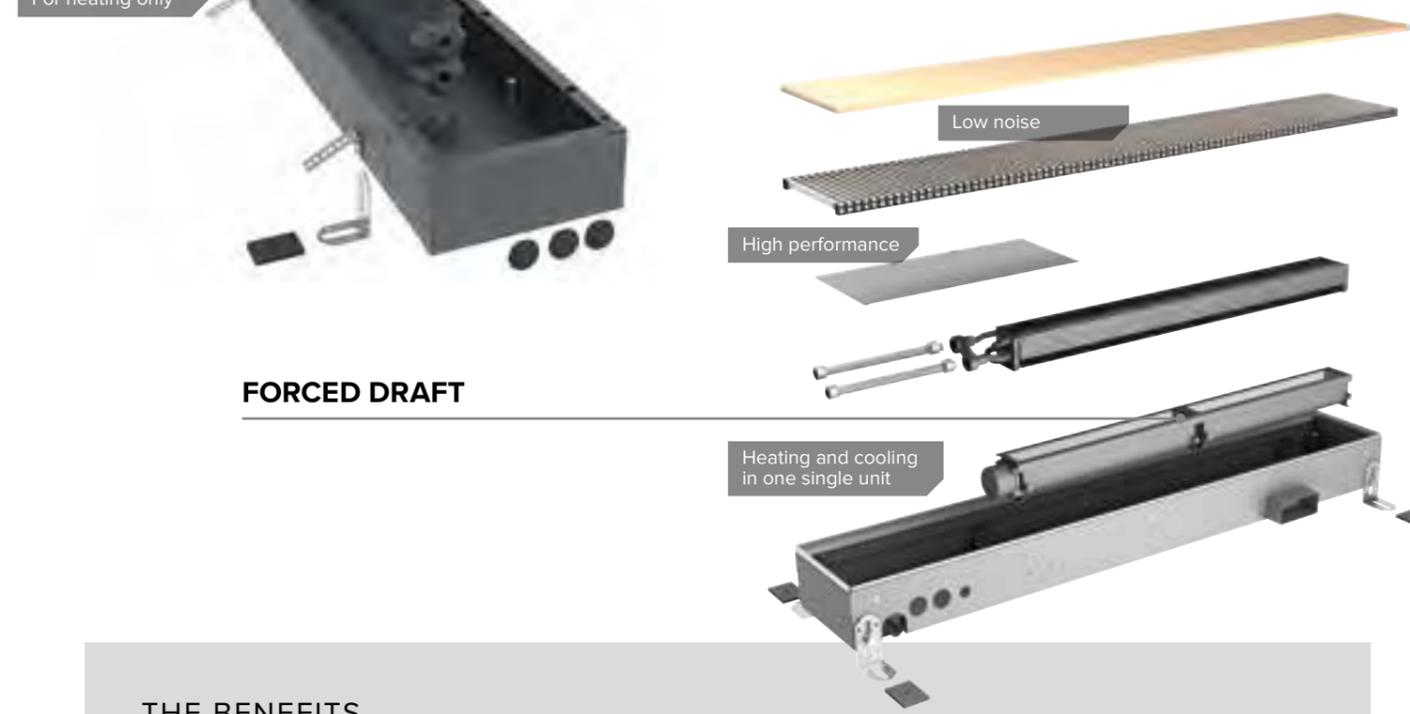

## NATURAL CONVECTION

## FAN ASSISTED

## FORCED DRAFT

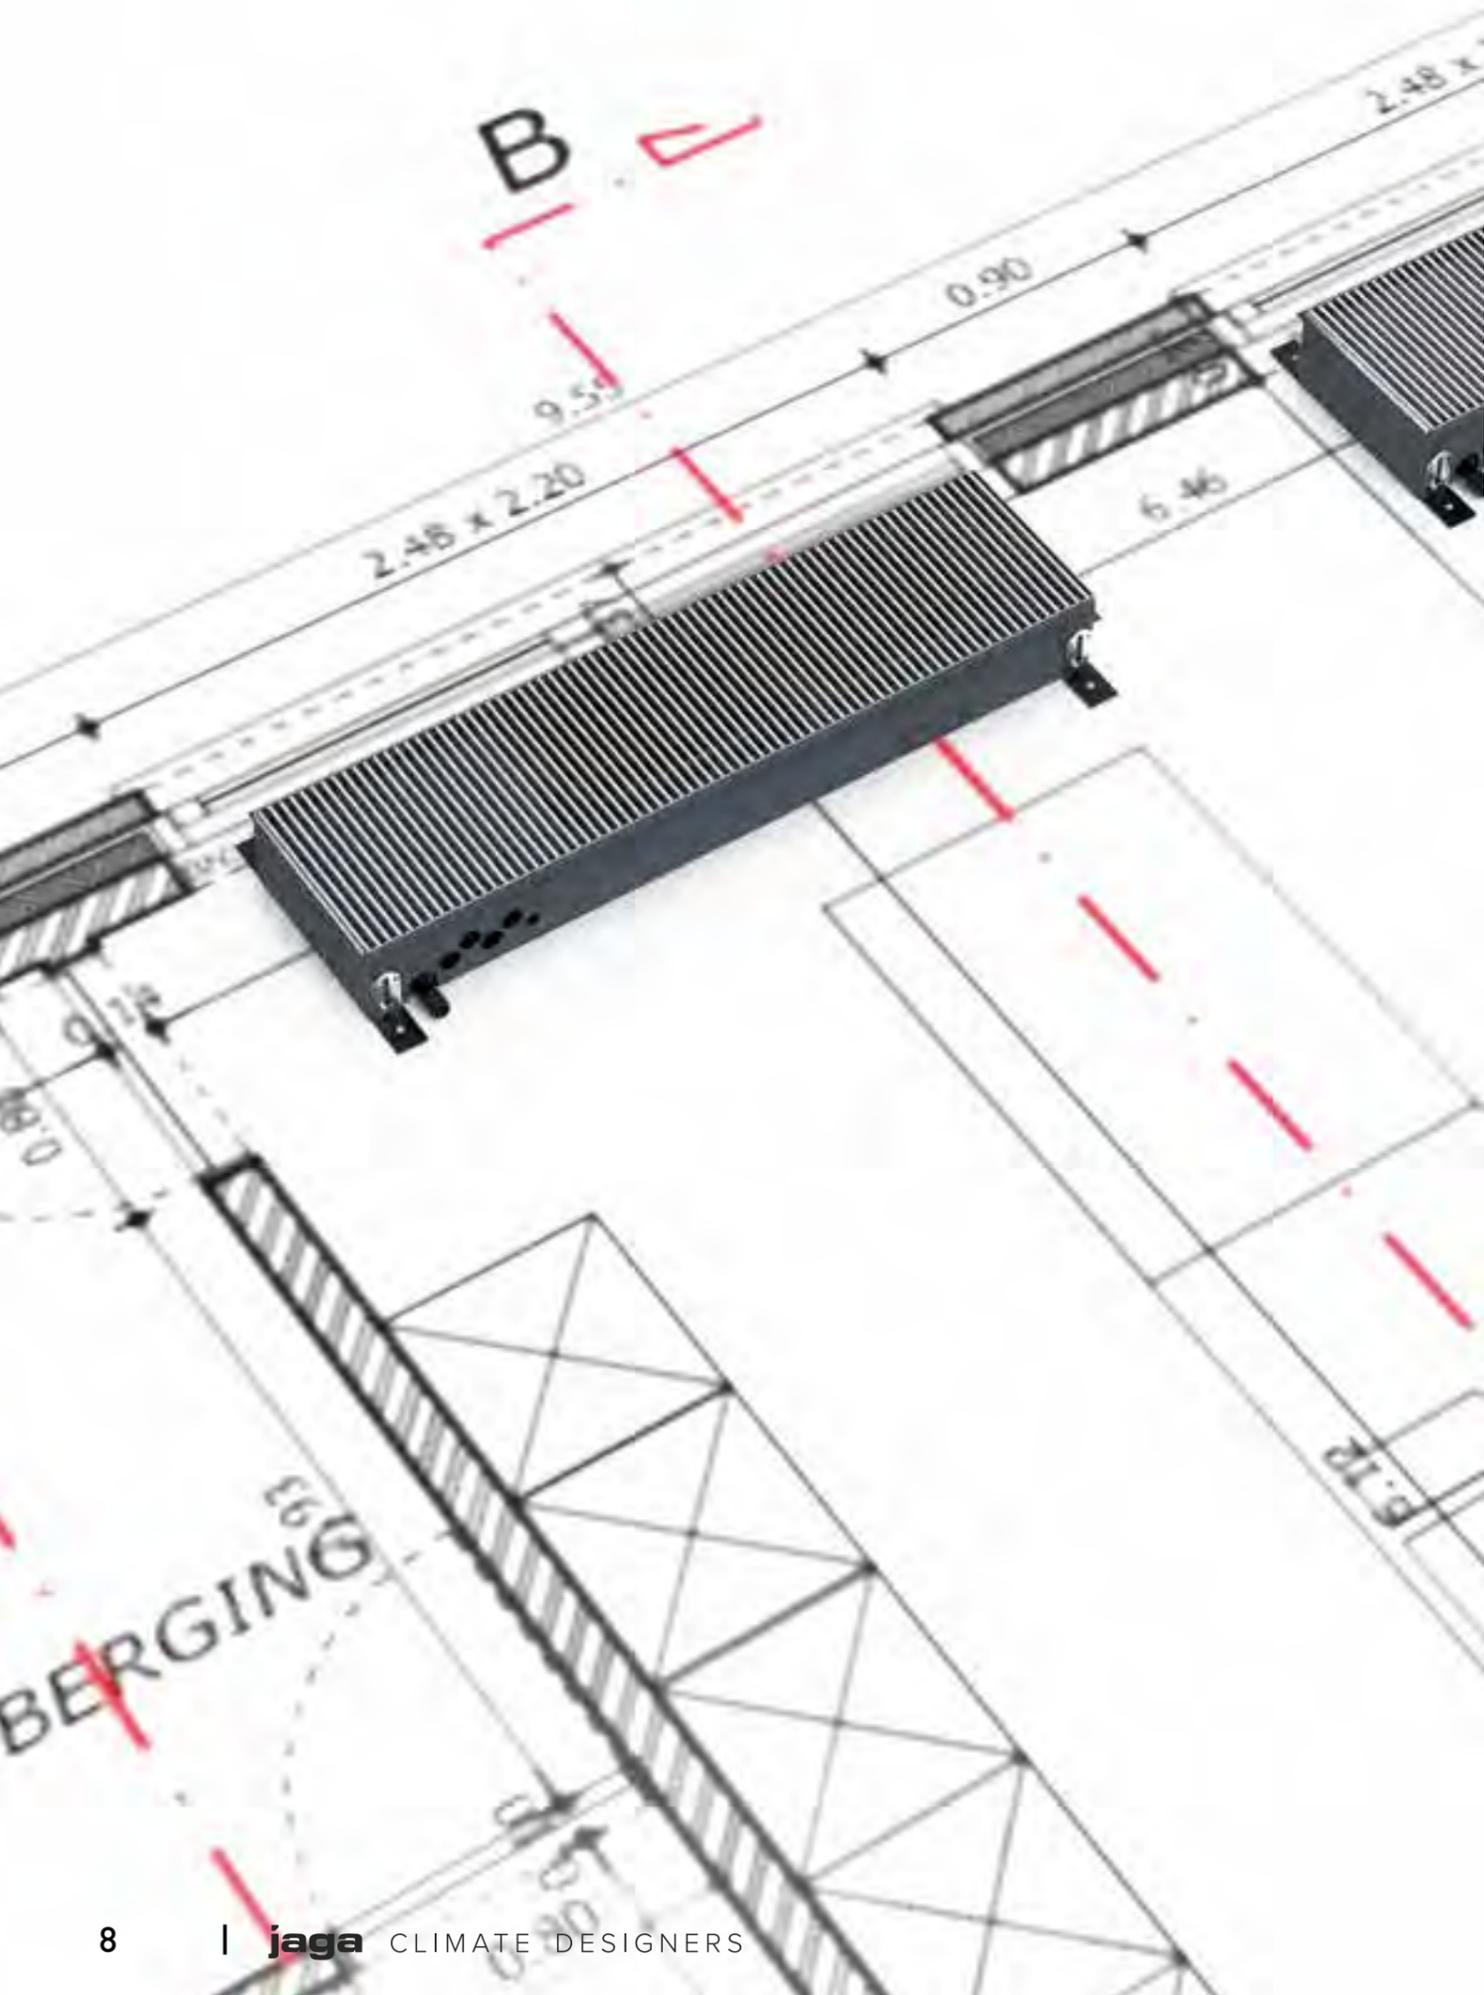

## THE BENEFITS

- Heating, cooling and ventilation from one unit
- Maximises lettable or living space
- Architecturally pleasing
- Compact and discreet
- Suitable for low water temperature systems
- Energy-efficient
- Powerful heating and cooling performance for full or partial load
- Speed controllable
- Low maintenance
- Can be used to lay or install other services and equipment

REGISTER FOR OUR CPD COURSE TO LEARN MORE ABOUT SELECTING TRENCH CLIMATE CONVECTORS

## DESIGNED TO MEASURE

Jaga designs the most energy-efficient and aesthetic solutions, tailor-made to meet your project's needs and specifications. This way you don't have to limit your creativity due to the HVAC requirements.

With depths starting at just 65 mm, our dynamic trench convectors are discreet yet powerful and fit seamlessly into the fabric of the building. They can be installed either in screed or within a raised floor, depending on the desired height, or underneath floor-to-ceiling glazing.

In the Jaga Experience Lab, a unique EN 442 and EN 16430 certified climate laboratory, we can simulate and test any customised solution and climate situation with temperatures down to -30°C.

Our SafeContractor approved, high quality installation service is available for contractors nationwide, this includes:

- Site visit
- Detailed site measure
- Production of detailed drawings prior to manufacture
- Full installation including mounting, securing, connecting runs and corners, fitting grilles, and final levelling adjustments

Clima Canal: Installation

Clima Canal: Finished

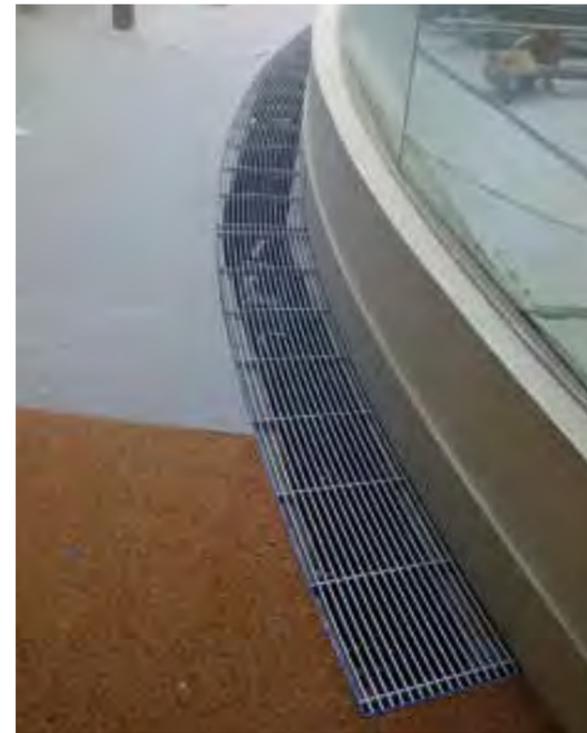

# CLEAN, FRESH AIR AND ARCHITECTURAL FREEDOM

To help improve indoor air quality and thermal comfort for occupants, all Jaga trench climate convectors can provide ventilation via a fresh air duct.

This is achieved through spigots being incorporated into the trench unit which can be connected to contractor duct work to introduce fresh air.

Jaga Clima Canal not only fits in the floor, but can be installed in various ways. The numerous installation options ensure architectural freedom.

Matching custom grilles are available in every colour and size.

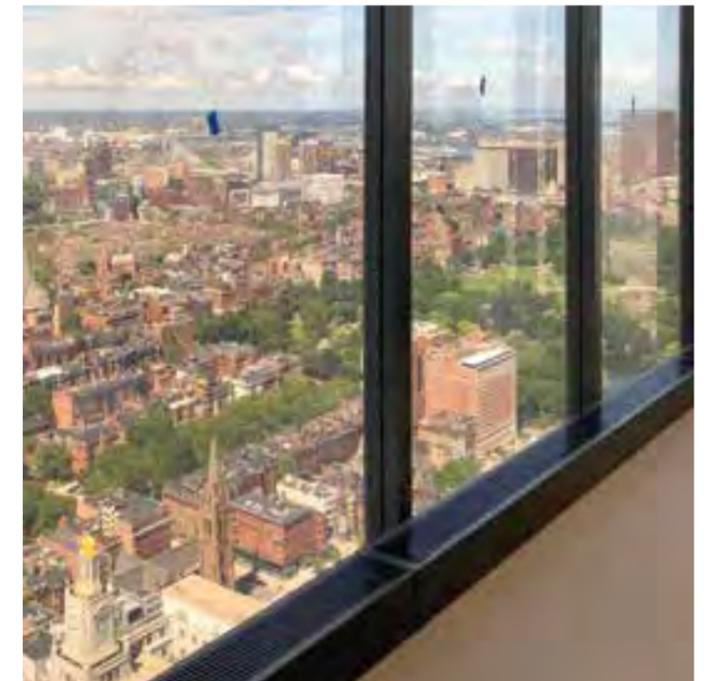

Curved trench

Trench incorporating lighting

Clima Slim

Floor mounted

Bespoke corners

Continuous runs with clean corners

## MINI CANAL

### Minimal recess depth

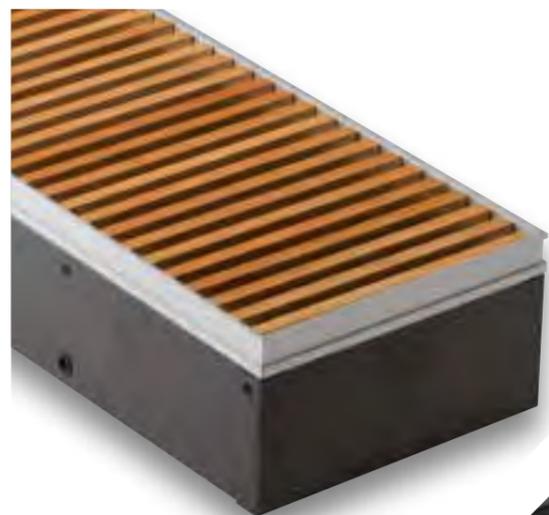

For spaces with large windows, glazed façades, conservatories, display windows and offices. From a depth of 90 mm, Mini Canal is the perfect solution for multi-storey buildings and computer floors.

Hidden under the grille is an ultra fast Low-H<sub>2</sub>O element. The internal elements of the Mini Canal have been made 'invisible', using lacquered dark grey components. The grille cover can be perfectly tailored to match the floor or the interior design.

- Depth from 90 mm.
- Delivered ready-to-use , fully assembled and factory tested.
- A range of grilles for every interior.
- Low-H<sub>2</sub>O technology with super conductive and ultra fast heat exchanger for low energy consumption and maximum heat emission.
- **A 30 year guarantee** on the heat exchanger.

 fill in grille code

### DELIVERY

Product is made to order, please contact our sales department on 01531 631 533 for further information.

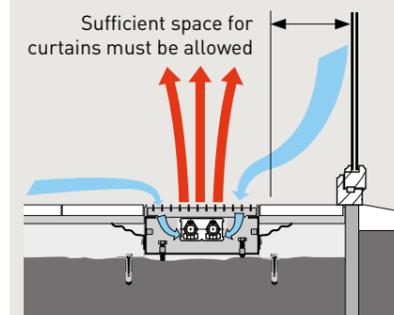

Mini Canal is also available with a cover frame. The cover frame facilitates a perfect finish with renovations or wooden floors.

# COMPOSITION - MINI CANAL

## DESIGNO ALUMINIUM GRILLES

### OPERATING PRINCIPLE

### EVEN COMFORT TEMPERATURE

The downward cold air flow associated with glazed façades often causes discomfort. Mini Canal ensures a warm air curtain: the cold air layer from the glass and the cooler return air on the floor are drawn in, heated and mixed with the warmer upper air so a balanced and even comfort temperature is achieved.

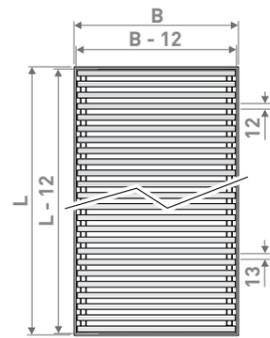

# OVERVIEW GRILLES - ROLL-UP

## DESIGNO WOODEN GRILLES

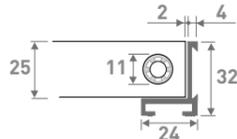

Roll-up natural or varnished grille, Designo model with reduced slat spacing and natural colour anodised aluminium spacers. Frame in natural coloured anodised aluminium.

Free air flow: 52%  
Output correction factor: 0.93

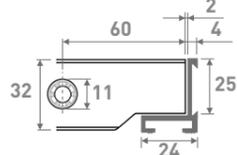

Dimensional tolerance grille width 0/+2mm

Grille with  $\leq 408\text{mm}$

Grille with  $\geq 448\text{mm}$

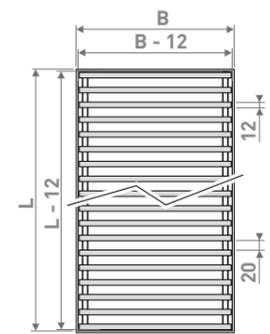

## WOODEN GRILLES

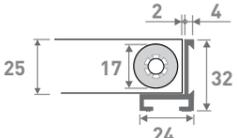

Roll-up natural or varnished grille, with dark brown coloured synthetic spacers. Frame in brown anodised aluminium. Free air flow 63%.

Free air flow: 63%  
Output correction factor: 0.97

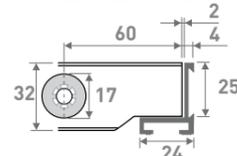

Dimensional tolerance grille width 0/+2mm

Grille with  $\leq 408\text{mm}$

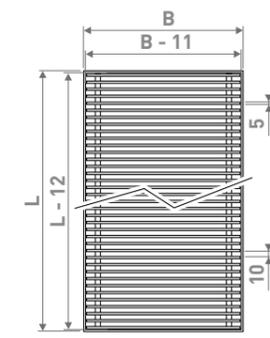

Grille with  $\geq 448\text{mm}$

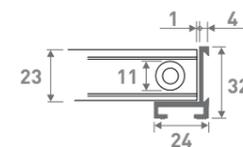

# ROLL-UP - OVERVIEW GRILLES

## ALUMINIUM GRILLES

Dimensional tolerance grille width 0/+2mm

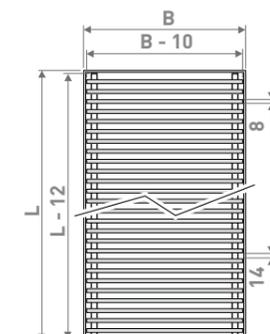

Roll-up anodised aluminium grille with frame in matching colour.

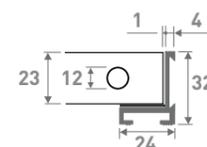

Free air flow: 70%  
No correction factor to apply on the output.

**RSS** Stainless Steel

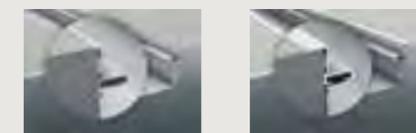

Dimensional tolerance grille width 0/+2mm

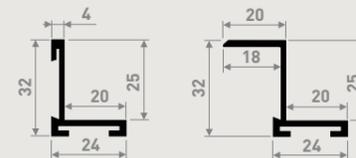

Mini Canal and separate frames are available with L-profile or Z-profile frame.

Canal Compact and Canal Plus are only available with L-profile frame.

Frame L-profile

Cover frame Z-profile

## INSTALLATION

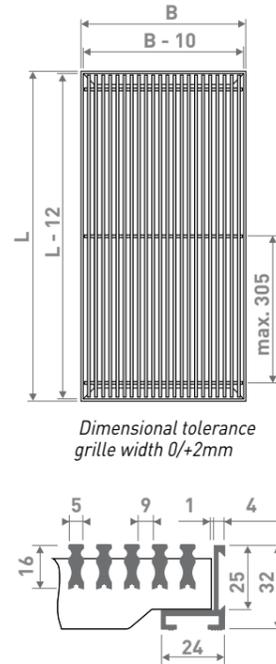

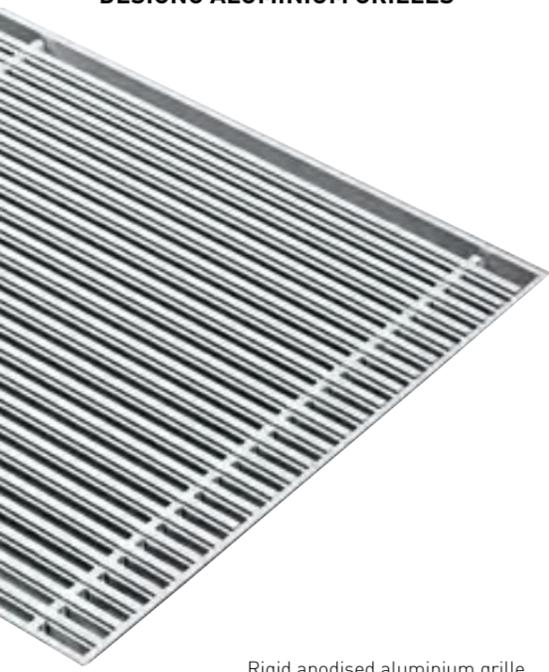

The Mini Canal is supplied pre-assembled and ready for installation. Suitable for installation onto rough concrete subfloors, in floating or suspended floors, or even into existing trenches. Optional 'Z' profile cover frame for mounting on the finished floor. If this isn't possible, the cover frame can be detached and be replaced when desired. The cover frame allows the seam between the floor and the trench to be covered.

Roll-up grille in high grade stainless steel 1.4301. With matching frame in natural anodised aluminium. Maximum length: 6 m.

Free air flow: 60%  
Output correction factor: 0.96

# OVERVIEW GRILLES - RIGID

## DESIGNO ALUMINIUM GRILLES

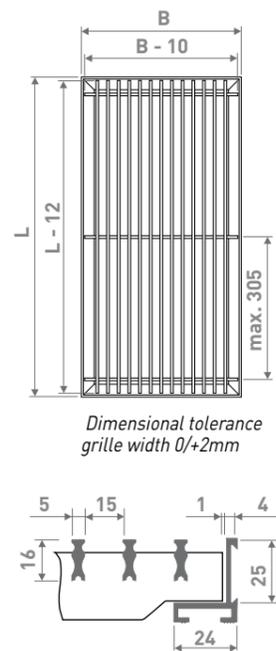

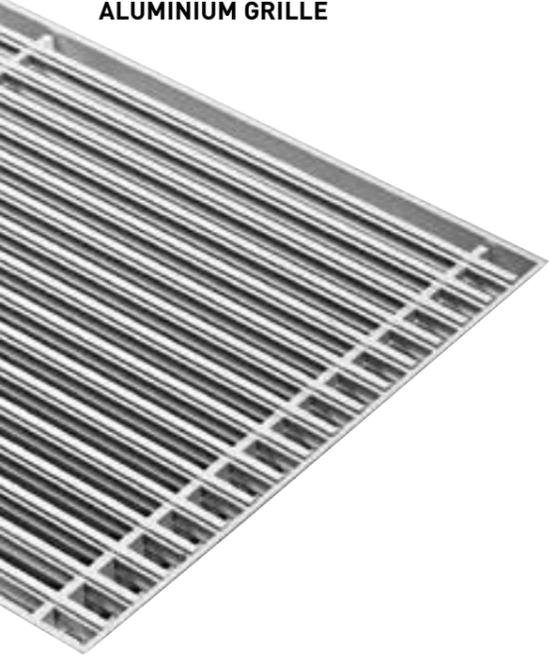

To ensure perfect adherence of the lacquer coating, an extremely wear-resistant and UV-resistant polyester lacquer coating of the highest quality is used. Only in glossy (code 2..)

Rigid anodised aluminium grille, Designo model with reduced slat spacing. Matching colour frame.

Free air flow: 62.5%  
Output correction factor: 0.97

## ALUMINIUM GRILLE

To ensure perfect adherence of the lacquer coating, an extremely wear-resistant and UV-resistant polyester lacquer coating of the highest quality is used. Only in glossy (code 2..)

Rigid anodised aluminium grille with matching colour frame.

Free air flow: 75%  
No correction factor to apply on the output.

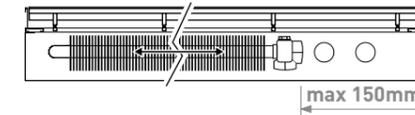

# INSTALLATION & CONNECTION - MINI CANAL

## CONNECTION

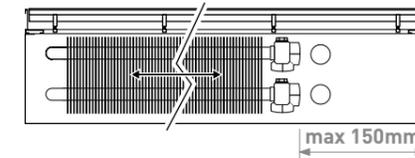

For guidance on how to connect control units, please see fitting instructions or contact our technical department.

### Maximum space for connection

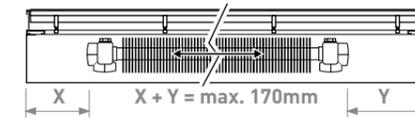

With same end connection, height 90 and 110.

With same end connection, height 140 and 190.

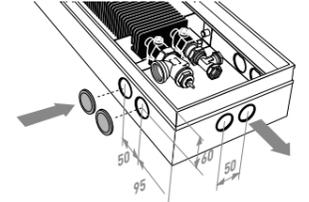

With same end connection, height 140 and 190.

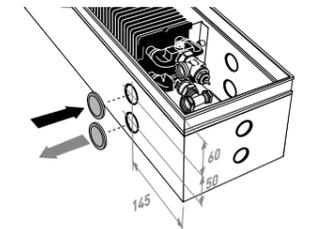

### Connection dimensions

Height 90 and 110

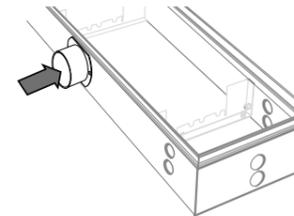

Height 140 and 190

## AIR REFRESHMENT

### Mounted spigot connector for air supply channel

Not available with height 90 - 110

### CODE

**/V1** 1 spigot connection ø 80 mm

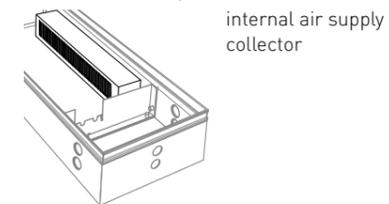

**/V2** 2 spigot connections ø 80 mm

Add **/V1** or **/V2** to the Mini Canal code.

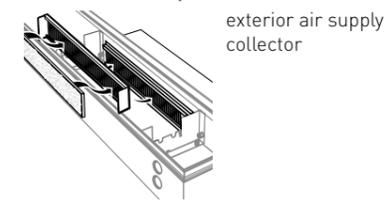

Example: MICL. 014 110 14 /XXX /V1

### Other systems

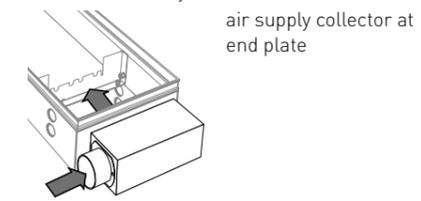

Air refreshment system 2

Air refreshment system 3

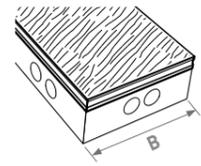

Air refreshment system 4

For more information see:  
[www.jaga.co.uk](http://www.jaga.co.uk)

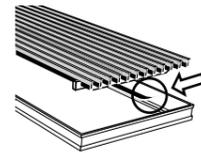

## COVER PLATE

In fibreboard, thickness 22 mm. Protects the duct against contamination and damage during construction works.

**ORDERING CODE** code length width  
7691.000 110 14

## CONTACT STRIP

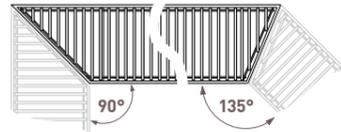

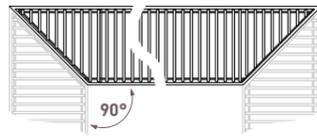

For aluminium and wood grilles (not for stainless steel). Black adhesive rubber strip, thickness 0.5 mm. To avoid contact noises. Order

the number of rolls required according to the circumference of the frame:  $(B + L) \times 2$ .

**CODE**  
7690.02 Roll 6 metre

## CORNERS 135° OR 90°

For wooden and aluminium grilles.

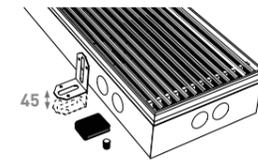

To order corner elements, please contact Jaga at: [jaga@jaga.co.uk](mailto:jaga@jaga.co.uk). Ducts and grilles delivered with mitre joints +connecting pieces for invisible mounting.

## DIFFERENT HEIGHT, WIDTH OR LENGTH

Contact Jaga.

## HEIGHT CONTROL

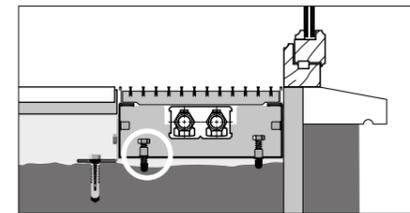

Simple height control for uneven subfloors. Provided with acoustic decoupling.

**CODE**  
7690.01 height control 0 - 45 mm  
7690.04 height control 45 - 130 mm

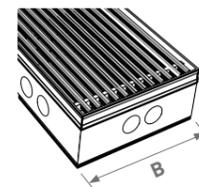

Recommended numbers for length:

1 set =	1100 mm	2 sets
	1300 > 1900 mm	3 sets
	2100 mm	4 sets
	2300 > 3100 mm	5 sets
	3300 > 3700 mm	7 sets
	4100 mm	8 sets
	4500 > 4900 mm	10 sets

The height control option is always provided with extra adjusting screws in order to install the duct flat against the window frame.

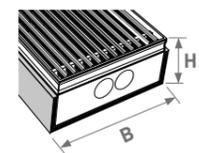

## BASE INSULATION

In dark grey extruded EPDM, thickness 5 mm. Also to avoid transfer of noise when used on upper storeys. (Not available separately!)

**ORDERING CODE** code length width  
7692.000 110 14

## 3-SIDED INSULATION

In dark grey extruded EPDM, thickness 5 mm. (Not available separately!)

**ORDERING CODE** code height length width  
7693.009 110 014

## GRILLE CODES

### Designo rigid aluminium grilles

**DNA** natural coloured

## MICRO CANAL

Maximum warmth,  
minimum dimensions

The latest Jaga trench heating solution is only 60 mm high and 135 mm wide. With small, but powerful dynamic Low-H<sub>2</sub>O heat exchangers and super-quiet fans that are no wider than a thermostatic radiator valve, it creates immense power.

Micro Canal combines minimalist aesthetics and architectural freedom with a power that breaks all temperature records!

Micro Canal integrates harmoniously with any interior. This provides every architect, designer or engineer the greatest possible design freedom on any project without making any compromises for the heating system.

By using the **latest EC motors**, Micro Canals consume up to 50% less electricity than traditional motors.

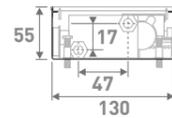

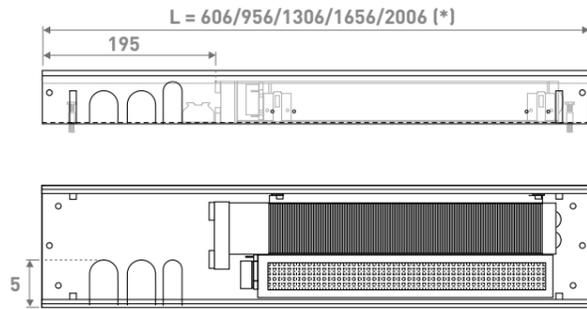

MICRO CANAL

# MICRO CANAL - SUMMARY

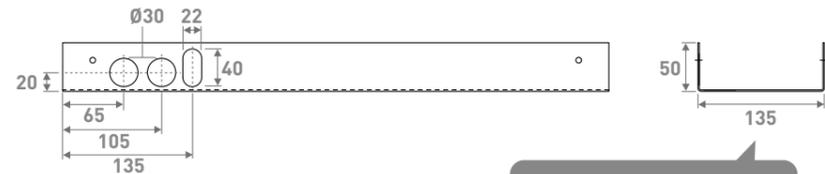

## DIMENSIONS in mm

### Inner casing

(\* In case of through-mounting, do not install the intermediate tops. Reduce length by 3 mm for each top.

### Outer casing

Building in-opening: +5 mm

## HYDRAULIC CONNECTION

- One-sided 2-pipe connection on the left.
- Always install Micro Canal with the heat exchanger on the window or wall side.
- 2 x 1/2" stainless steel hose included.
- Allow extra space for curtains, in between the window and the Micro Canal.
- The heat exchanger must always be kept accessible for maintenance purposes.

- If the appliance is not mounted flat on the floor, the space between the bottom of the appliance and the floor should be filled with a stable filler material.

## ORDERING CODE

code height length width grille  
**MIRF . 006 060 14 . /SSS**  
*fill in grille code*

## DELIVERY

Product is made to order, please contact our sales department on 01531 631 533 for further information.

## ELECTRIC CONNECTION

- Clamp connector for electrical connection 24 VDC to the left, to be connected via external power supply. Install a thermostat with a potential-free contact to control the water supply with the help of a zone valve. Micro Canal requires a 0-10v fan speed control.

With energy efficient EC motor

## COMPOSITION

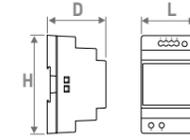

Anchorage elements / height control from 62 to 80 mm

# OPTIONS - MICRO CANAL

## POWER SUPPLY DIN-RAIL MONTAGE

The guarantee is only valid if the original Jaga power supply is used.

Required power = sum of the power consumption of the devices

## SEPARATE POWER SUPPLY

Waterproof power supply 24 VDC/30 Watt with waterproof cable gland.

Not suitable for installation in the floor duct.

- Conformity: UL60950 - EN 60950 / Class 2.
- Output voltage 24 VDC.
- Input voltage 100 - 240 VAC.
- Dimensions L 1450 x B 450 x H 300 mm.

CODE	Output Watts	Output current A
37603.010002	30	1.25

## JAGA TWO-WAY VALVE AND THERMOELECTRIC DRIVE 230 VAC

- Only for mounting on the distributor, not in the Micro Canal!
- With varistor to protect against power surge.
- With position indicator (open/closed).
- Sleeve couplings have to be provided by the installer.

CODE	Description
7990.409	180° - G1/2" F / NG 230V 2Watts
7990.411	180° - G3/4" F / NG 230V 2Watts

## VALVE UNIT

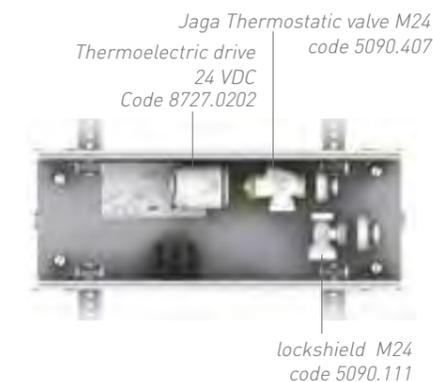

- Length 350 mm.
- Motorised thermostatic valve 24 VDC with lockshield.
- Outer casing with height control.
- Inner casing with stainless steel grille support.
- Stainless steel grille, natural coloured or lacquered.
- Protection block.

CODE

## STANDARD DELIVERY

### ASSEMBLY & PROTECTION BLOCK

Install the polyethylene protective block(s) as protection on the construction site.

### DESIGN GRILLES

Continuous design grille of stainless steel grilles.

### HEIGHT CONTROL

Double height adjustment by means of the anchoring on the outer casing and by fine adjustment with the bolts in the inner housing (adjustable from 62 to 80 mm).

### FLEXIBLE CONNECTION

Stainless steel flexible hoses (150 to 250 mm), enabling the internal mechanism to be removed completely for easy cleaning.

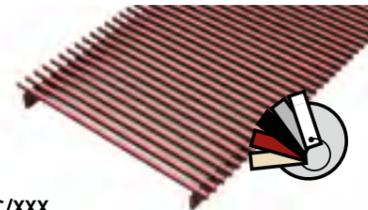

## OVERVIEW GRILLES

### Stainless steel grilles

SSS  
stainless steel

### Stainless steel grilles lacquered

SSC/XXX  
stainless steel lacquered

To ensure perfect adherence of the lacquer coating, an extremely wear-resistant and UV-resistant polyester lacquer coating of the highest quality is used. Only in glossy (code 2..) and special colours 006, 005, 026, 028.

# OPTIONS - MICRO CANAL

## CLOCK THERMOSTATS HEATING / COOLING

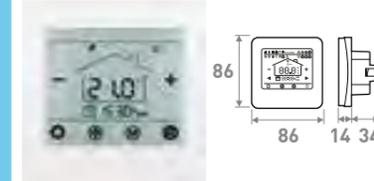

The general characteristics in bold below are valid for the thermostats 8751.050013 - 8751.050012 - 8751.050009 - 8751.050017

- Automatic thermostat for 2-pipe: heating/cooling or auto.
- Ventilator speed: min./med./max. or auto.
- Power supply 24 VDC.
- Output control(s) 0-10 VDC.
- 1 clock thermostat per room.
- Programmable zones.
- LCD display with background lighting.
- Protection category IP30.

## FOR RECESSED MOUNTING

### NEW

#### Jaga clock thermostat for recessed/panel mounting JRT-100TW

Touchscreen

Wi-Fi

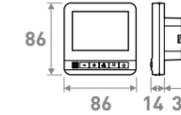

App

- LCD touchscreen with background lighting.
- Control via WIFI (smartphone app).
- Programmable time zones 7 days (1-7).
- Control valves 24 VDCa heating/cooling.
- Thermostat to be mounted in a junction box
  - Spacing holes at 60 mm.
  - Minimum depth 45 mm.
  - Inner dimension 50 x 50 mm or Ø 60 mm.

CODE
8751.050017 recessed/panel mounted

## Jaga clock thermostat for recessed/panel mounting

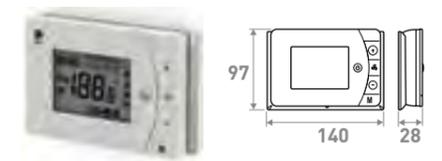

- Control valves 24 VDC heating/cooling.
- Thermostat to be mounted in a junction box
  - Spacing holes at 60 mm.
  - Minimum depth 45 mm.
  - Inner dimension 50 x 50 mm or Ø 60 mm.

CODE
8751.050012 recessed/panel mounted

## FOR WALL MOUNTING

### Jaga clock thermostat for wall mounting

- 2 potential-free contacts heating/cooling (f.e. valve control 24 VDC or 230 VAC).
- With key card contact / window contact.
- Can be mounted on a junction box with screw holes at 60 mm.

CODE
8751.050013 wall mounted

# PRESSURE DROP - MICRO CANAL

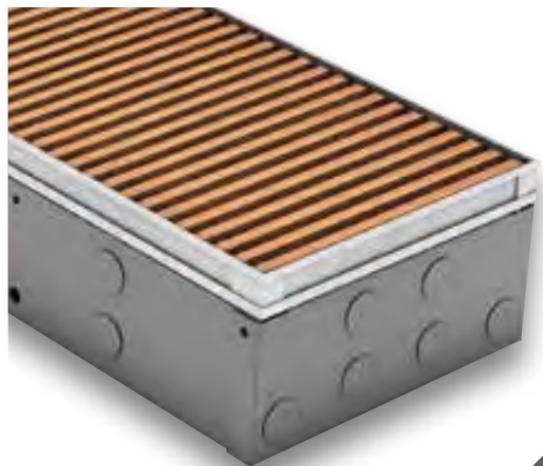

## MINI CANAL HYBRID

Same size, 3 times  
the heating output!

Condensing boilers, heat pumps and solar energy systems need far bigger heating elements because they operate at very low water temperatures that sometimes don't get above 35°C. For Mini Canal Hybrid it's not a problem, because it delivers 3 to 4 times more heat than a traditional natural trench heating output solution.

- High output at low water temperatures.
- For newbuild and renovation of commercial and public buildings.
- Connection for ventilation (option).
- Less space needed.
- A range of grilles for every interior.
- Low-H<sub>2</sub>O technology with super conductive and ultra fast heat exchanger for low energy consumption and maximum heat emission.
- **A 30 year guarantee** on the heat exchanger.

Mini Canal Hybrid is also suitable for non-condensing cooling in combination with any heat pump that has a cooling function. This mild form of cooling is very energy-efficient.

MINI CANAL HYBRID

# HEATING OR HEATING + LIGHT COOLING: THE IDEAL HEAT PUMP PARTNER

## HIGH OUTPUTS WITH ALL WATER TEMPERATURES

New, environmentally-friendly installations require much better thermal units. This ensures a comfortable temperature at a low water temperature and a refreshing coolness with non-condensing cooling.

Jaga Hybrid heating units are equipped with the brand new DBH system, DB stands for Dynamic Boost, to considerably increase the power of the heater. The H stands for Hybrid meaning the dual effect: heating and cooling.

- With Mini Canal Hybrid you are choosing a complete climate solution for your space that is optimally controlled to guarantee efficiency at the lowest water temperature thanks to the hybrid system's reaction speed.
- By default, suitable for energy-efficient non-condensing cooling in combination with any heat pump.

## MULTIFUNCTIONAL INTELLIGENCE

### TPT configuration (default)

TPT (temperature control) configuration is set at time of order. This means the thermal activators will run once the water temperature is above set-point (28°C default) and the measured room temperature is below the set-point, speeding up and slowing to achieve the desired room temperature.

### ACO configuration

If you choose ACO (auto-changeover) configuration at time of order, Mini Canal Hybrid will be fully automated thanks to the accurate temperature sensor. With every heating or cooling demand, the activator is controlled automatically as soon as the correct water temperature is detected. Depending on the room where the heating unit is located, you can set 3 different fan speeds: whisper-quiet bedroom mode max 26 dB(A) on setting 1, comfort mode for living areas max 30 dB(A) or the maximum setting.

## MOST RESPONSIVE OUTPUT SYSTEM CRUCIAL FOR HEATING AND COOLING

### Heating

Is the oven or the dishwasher on? Is sunlight entering the room? Your home is dynamic with constantly changing temperature conditions and comfort requirements. As soon as the room thermostat or the control system wants to make an adjustment, the Mini Canal Hybrid will very quickly provide the desired room temperature.

### Light cooling

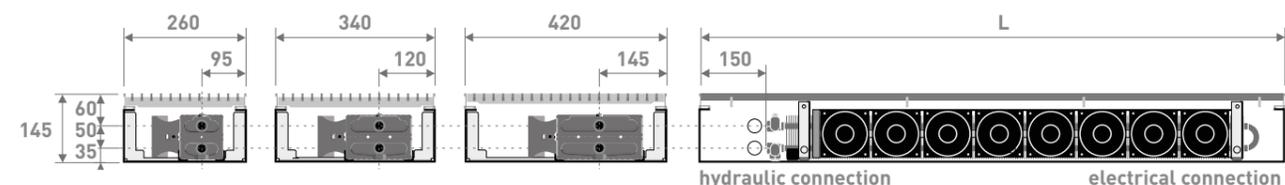

The reaction capacity is also crucial for non-condensing cooling. In order to prevent moisture problems, central condensation monitoring must be provided. This can only work efficiently with a very fast-acting delivery system, which immediately adjusts the cooling system in case of a sudden rise in humidity.

**More than ever, the responsiveness determines your energy consumption and your comfort.**

Building in-opening: height H + 10 mm, length L and width B + 5 mm!

# SUMMARY - MINI CANAL HYBRID

DIMENSIONS in mm

## ORDERING CODE

### WITH FRAME (L-PROFILE)

code	height	length	width	grille
MDCL .	014	110	26	/XXX

fill in grille code

### WITH COVER FRAME (Z-PROFILE)

fill in grille code

Mini Canal Hybrid is also available with a cover frame. The cover frame facilitates a perfect finish with renovations or wooden floors.

## OPERATING PRINCIPLE STANDARD ASSEMBLED JAGA DYNAMIC PRODUCT CONTROLLER (JDPC)

NEW

Multifunctional controller for dynamic heating and cooling devices, pre-configured and assembled inside the device.

- Indication of operating mode by LED's.
- Control with touch operation and sensor for water temperature, pre-configured and assembled by Jaga.
- Power supply 12 VDC.
- Ventilator settings:
  - Standby.
  - Heating: 3 speeds (operates at water temperature >28°C, can easily be modified).
  - Light Cooling: 3 speeds (Operates at water temperature < 18°C, can easily be modified).
- 0-10 V input for building management system/thermostats / DPC.MD61. For more information contact Jaga

## DELIVERY

Product is made to order, please contact our sales department on 01531 631 533 for further information.

## INSTALLATION

The Mini Canal is supplied pre-assembled and ready for installation. Suitable for installation onto rough concrete subfloors, in floating or suspended floors, or even into existing trenches. Optional 'Z' profile cover frame for mounting on the finished floor. If this isn't possible, the cover frame can be detached and be replaced when desired. The cover frame allows the seam between the floor and the trench to be covered.

## HYDRAULIC CONNECTION

- The heat exchanger has to be connected at the left side of the duct. This can be done in several ways:
  - To the central control system, temperature regulators via room thermostat or BMS (no valve in the duct).
  - With thermostatic valve in the duct: in this case it is best to provide a head with remote control outside the duct. Control is simple and the thermostat will provide better measurement of the ambient temperature.
  - Alternatively, control via a zonal valve with room thermostat, with lockshields on element connections for isolation purposes.

# MINI CANAL HYBRID - COMPOSITION

## COMPOSITION

### Grille

a wide range of design types and colours in anodised aluminium, various wood finishes and stainless steel

### Connection options

230 V/12 V

### Pre-configured and assembled Jaga Dynamic Product Controller

Control with touch operation (indication by LED's) and sensor for water temperature. power supply 24 VDC

### Pre-mounted DBE units

### Low-H<sub>2</sub>O heat exchanger

made of copper and aluminium, made "invisible" by a dark grey lacquer (RAL 7024)

### Duct

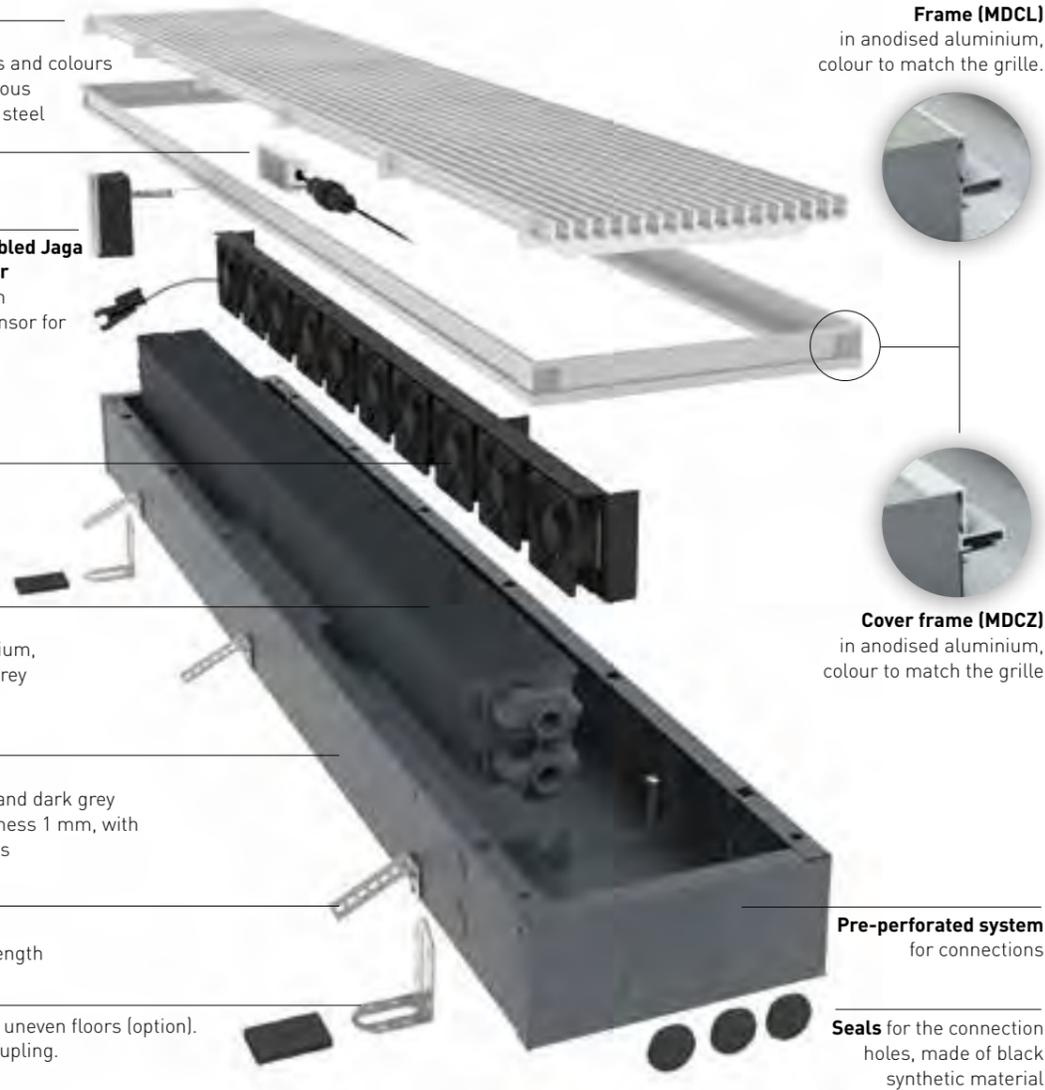

from Sendzimir galvanised and dark grey lacquered steel plate; thickness 1 mm, with connection holes on all sides

### Fixing straps

number depending on the length

### Easy height adjustment for uneven floors (option).

Provided with acoustic decoupling.

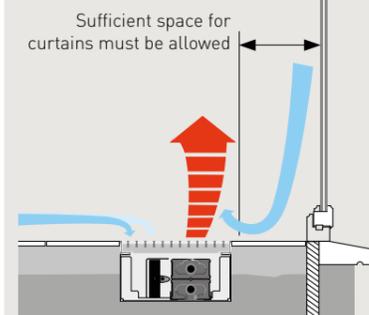

**Frame (MDCL)**  
in anodised aluminium, colour to match the grille.

**Cover frame (MDCZ)**  
in anodised aluminium, colour to match the grille

**Pre-perforated system**  
for connections

**Seals** for the connection holes, made of black synthetic material

## OPERATING PRINCIPLE

## EVEN COMFORT TEMPERATURE

The downward cold air flow associated with glazed façades often causes discomfort. Mini Canal ensures a warm air curtain: the cold air layer from the glass and the cooler return air on the floor are drawn in, heated and mixed with the warmer upper air so a balanced and even comfort temperature is achieved.

# OPTIONS - MINI CANAL HYBRID

## COVER PLATE

In fibreboard, thickness 22 mm. Protects the duct against contamination and damage during construction works.

**ORDERING CODE**

code	length	width
7691.000	110	026

## CONTACT STRIP

For aluminium and wood grilles (not for stainless steel). Black adhesive rubber strip, thickness 0.5 mm. To avoid contact noises. Order the number of

rolls required according to the circumference of the frame:  $(B + L) \times 2$ .

**CODE**  
7690.02 Roll 6 metre

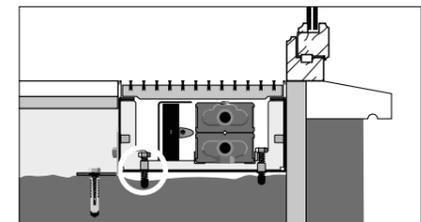

## HEIGHT CONTROL

Simple height control for uneven subfloors. Provided with acoustic decoupling.

**CODE**  
7690.01 height control 0 - 45 mm  
7690.04 height control 45 - 130 mm

Recommended numbers for length:  
1 set = 

1100 mm	2 kits
1300 > 1900 mm	3 kits
2100 mm	4 kits
2300 > 3100 mm	5 kits

The height control option is always provided with extra adjusting screws in order to install the duct flat against the window frame.

## BASE INSULATION

In dark grey extruded EPDM, thickness 5 mm. Also to avoid transfer of noise when used on upper storeys. (Not available separately!)

**ORDERING CODE**

code	length	width
7692.000	110	026

## 3-SIDED INSULATION

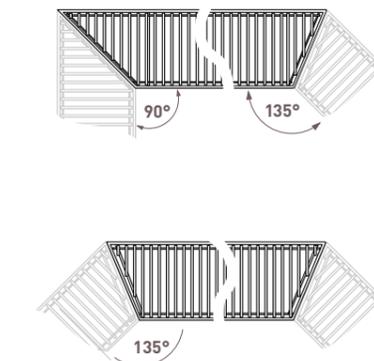

In dark grey extruded EPDM, thickness 5 mm. (Not available separately!)

**ORDERING CODE**

code	height	length	width
7693.014	110	026	

## CORNERS 135° OR 90°

For wooden and aluminium grilles.

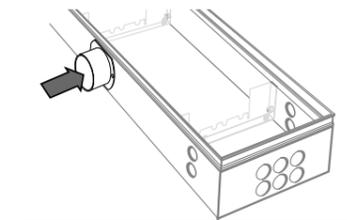

To order corner elements, please contact Jaga at: [jaga@jaga.co.uk](mailto:jaga@jaga.co.uk). Ducts and grilles delivered with mitre joints +connecting pieces for invisible mounting.

## DIFFERENT HEIGHT, WIDTH OR LENGTH

contact Jaga.

## AIR REFRESHMENT

### Mounted spigot connector for air supply channel

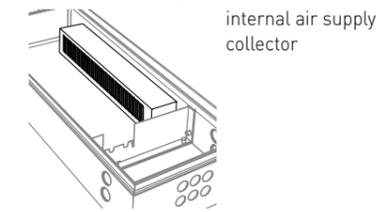

**CODE**  
/V1 1 spigot connection ø 80 mm  
/V2 2 spigot connections ø 80 mm

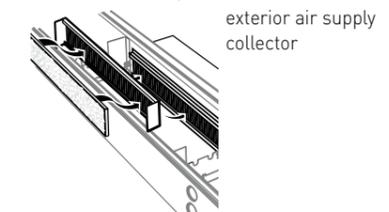

Add /V1 or /V2 to the Mini Canal code. Example: MDCL.014.110.26/XXX/V1

### Other systems

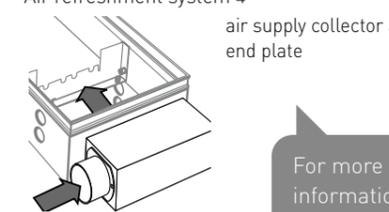

Air refreshment system 2

Air refreshment system 3

Air refreshment system 4

Weight and water content without packaging or options

Output measured in accordance with EN 16430  
\* Noise measurement according to ISO 3741:2010, 2 m from the device and with an assumed room attenuation of 8 dB(A) / room volume 100 m³ / reverberation time 0.5 sec.

## CLIMA CANAL 08

Extremely compact and silent

**For low temperature heating and light cooling**

Despite its height of just 80 mm, the Jaga Clima Canal 08 delivers a high heat output and is also suitable for light cooling. The dynamic heat exchanger and the tangential fans have been specially developed to generate higher power levels within a limited volume. It does so at a very low noise level.

**Ventilate comfortably**

Jaga Clima Canal can optionally be provided with a ventilation connection. The Clima Canal can thus provide comfortable and pre-heated ventilation while being completely integrated into the floor.

**With energy-efficient EC motors**

By making use of the latest EC motors, the Clima Canal units use 50 % less electrical energy. These can be controlled through the latest home automation systems via their 0-10 VDC speed control.

Clima Canal 10, 13 and 019:  
Also suitable for non-condensing and  
condensing cooling

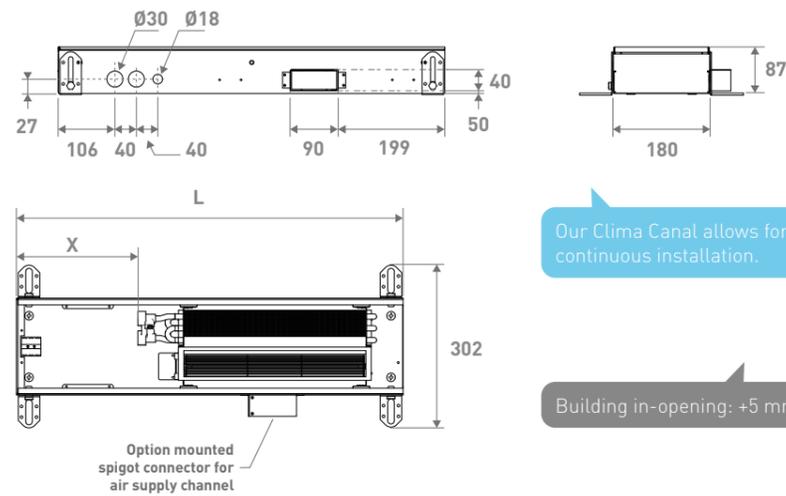

CLIMA CANAL 08

# CLIMA CANAL 08 - SUMMARY

## DIMENSIONS in mm

## ORDERING CODE

code	height	length	width	grille
CLCM .	008	072	18 /XXX	
<small>fill in grille code ↴</small>				

## DELIVERY

Product is made to order, please contact our sales department on 01531 631 533 for further information.

## HYDRAULIC CONNECTION

- Same end element with 2 pipe connection on the left.
- Always install Clima Canal with the heat exchanger on the window or wall side.
- 2 x 1/2" stainless steel hose included.
- Allow extra space for curtains, in between the window and the canal.
- The heat exchanger must always be kept accessible for maintenance purposes.
- If the appliance is not mounted flat on the floor, the space between the bottom of the appliance and the floor should be filled with a stable filler material.

## ELECTRIC CONNECTION

- Clamp connector for 24VDC electrical connection, left side, to be connected via external power supply.
- Control of speed activator(s) 0-10V.

With energy efficient EC motor

## COMPOSITION

### Cover plate

### Grille

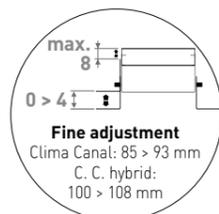

several styles and colours in anodised aluminium and a range of wood finishes

### Stainless steel flexible connections 1/2"

Length 150 mm

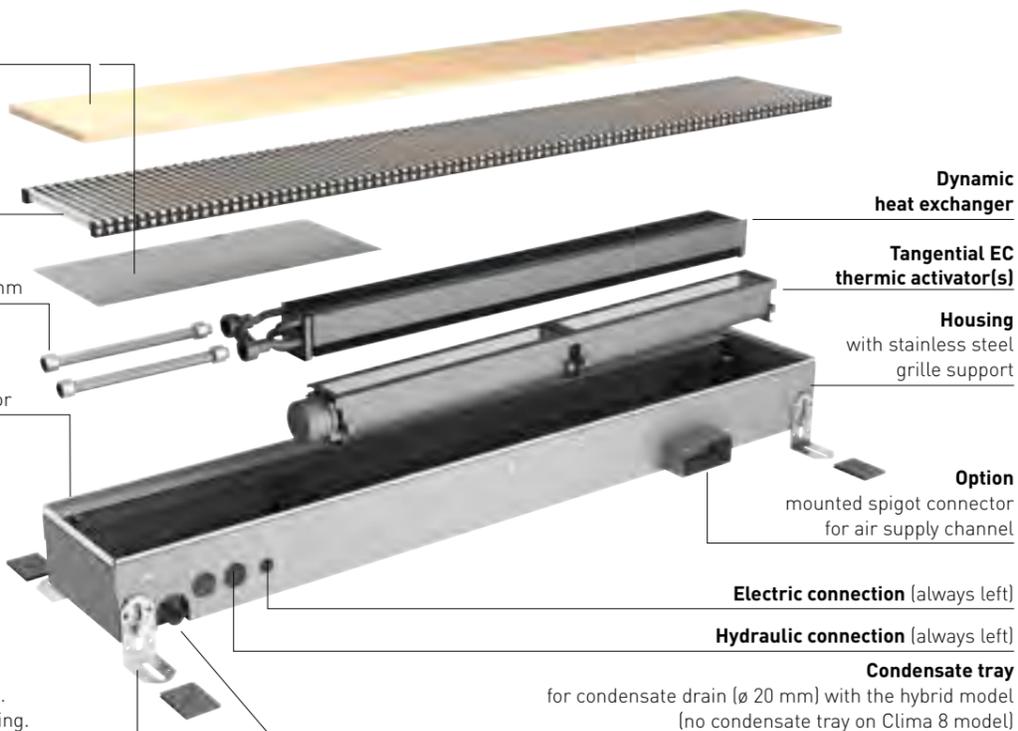

### Fine adjustment

to max. 8 mm, for a perfect alignment with the finished floor

### Height adjuster

for fine adjustment of 0-45 mm. Provided with acoustic decoupling.

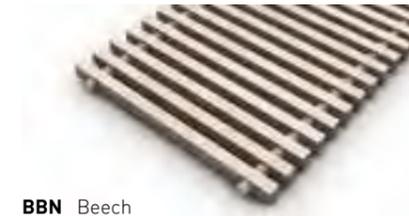

# OVERVIEW GRILLES - CLIMA CANAL 08

## OVERVIEW GRILLES

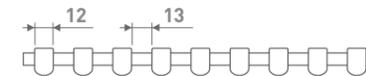

### Wooden grilles

- BON** Oak
- BOV** Oak varnished

- BBN** Beech
- BBV** Beech varnished

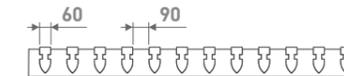

### Aluminium grilles

- BNA** Alu. natural

- BNC/XXX** Alu. lacquered

Fully removable internal mechanism for easy cleaning.

To ensure perfect adherence of the lacquer coating, an extremely wear-resistant and UV-resistant polyester lacquer coating of the highest quality is used. Only in glossy (code 2..) and special colours 006, 005, 026, 028.

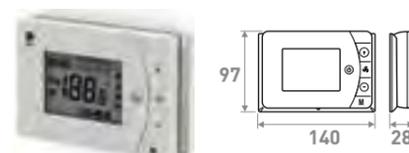

## CLOCK THERMOSTATS HEATING / COOLING

The general characteristics in bold below are valid for the thermostats 8751.050013 - 8751.050012 - 8751.050009 - 8751.050017

- Automatic thermostat for 2-pipe: heating/cooling or auto.
- Ventilator speed: min./med./max. or auto.
- Power supply 24 VDC.
- Output control(s) 0-10 VDC.
- 1 clock thermostat per room.
- Programmable zones.
- LCD display with background lighting.
- Protection category IP30.

## FOR WALL MOUNTING

Jaga clock thermostat for wall mounting

- 2 potential-free contacts heating/cooling (f.e. valve control 24 VDC or 230 VAC).
- With key card contact / window contact.
- Can be mounted on a junction box with screw holes at 60 mm.

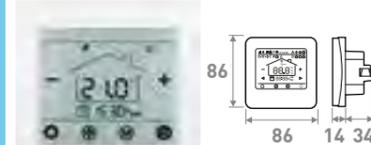

### CODE

8751.050013 wall mounted

## FOR RECESSED MOUNTING

**NEW**

Jaga clock thermostat for recessed/panel mounting JRT-100TW

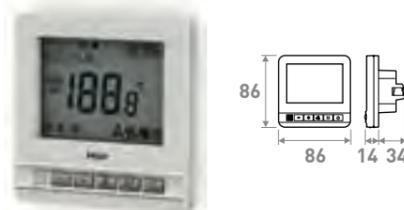

**Touchscreen Wi-Fi App**

- LCD touchscreen with background lighting.
- Control via WIFI (smartphone app).
- Programmable time zones 7 days [1-7].
- Control valves 24 VDCa heating/cooling.
- Thermostat to be mounted in a junction box
  - Spacing holes at 60 mm.
  - Minimum depth 45 mm.
  - Inner dimension 50 x 50 mm or Ø 60 mm.

### CODE

8751.050017 recessed/panel mounted

Jaga clock thermostat for recessed/panel mounting

- Control valves 24 VDC heating/cooling.
- Thermostat to be mounted in a junction box
  - Spacing holes at 60 mm.
  - Minimum depth 45 mm.
  - Inner dimension 50 x 50 mm or Ø 60 mm.

### CODE

8751.050012 recessed/panel mounted

## PRE-ASSEMBLED JAGA DYNAMIC PRODUCT CONTROLLER (JDPC)

Multifunctional controller for dynamic heating and cooling devices provided with one or more built-in fans. The Jaga Dynamic Product Controller is pre-configured and assembled inside the device. The configuration options are device dependent, and are selected using the code shown on the sticker in the device.

- Control per appliance.
- Control with operation and with sensor for water temperature, pre-configured and assembled by Jaga.
- Power supply 24 VDC.
- Ventilator settings:
  - Standby.
  - Heating: 3 speeds (operates at water temperature >28°C, can easily be modified).
  - Cooling: 3 speeds (operates at water temperature <18°C, can easily be modified).
- 0-10 V input for building management system/ thermostats/DPC.CC71-72.

For more information contact Jaga

## POWER SUPPLY DIN-RAIL MONTAGE

The guarantee is only valid if the original Jaga power supply is used.

CODE	H	L	D
7990.054	90	35	59
7990.055	90	53	59
7990.056	90	70	59
7990.057	90	103	59

- For DIN-rail or wall mounting.
- Conformity UL60950 / UL508 / IEC 60950-1 / TUV EN61558-2-16 / Class 2.
- Output voltage 24 VDC.
- Input voltage 100 - 240 VAC.
- Screw connection.
- LED indicator.

CODE	Output Watts	Output current A
7990.054	36	1.5
7990.055	60	2.5
7990.056	92	3.9
7990.057	150	10

Required power = sum of the power consumption of the devices

## SEPARATE POWER SUPPLY

Waterproof power supply 24 VDC/30 Watt with waterproof cable gland.

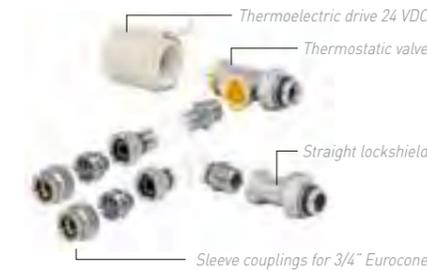

Not suitable for installation in the floor duct.

- Conformity: UL60950 - EN 60950 / Class 2.
- Output voltage 24 VDC.
- Input voltage 100 - 240 VAC.
- Dimensions L 1450 x B 450 x H 300 mm.

CODE	Output Watts	Output current A
37603.010002	40	1.67

## CONNECTION SET WITH JAGA TWO-WAY VALVE 24 VDC

All connection / valve sets shown are examples only. please confirm before ordering that the valve sets you have selected are suitable.

- 24 VDC thermoelectric drive.
- Valve G1/2" x G1/2" 90°.
- Lockshield G1/2" x G1/2" 180°.
- Pressure drop graph Jaga valve: see p. 48.

# PRESSURE DROP - CLIMA CANAL 08

# CLIMA CANAL 10, 13, 19

## Complete climate control

### Very high power level for heating and cooling

Despite its compact dimensions, the Clima Canal is very powerful. It's compatible with any heat source and perfect for low temperature systems and heat pumps. Suitable for both light cooling (non-condensing) and deep cooling (condensing). All Clima Canal units with a height of 10/13/19 come equipped with a condensation drain and have been developed to quietly generate high power levels within a compact space.

### Ventilate comfortably

Jaga Clima Canal can optionally be provided with a ventilation connection to provide comfortable and pre-heated ventilation while being completely integrated into the floor.

### With energy-efficient EC motors

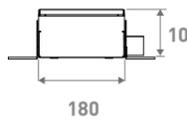

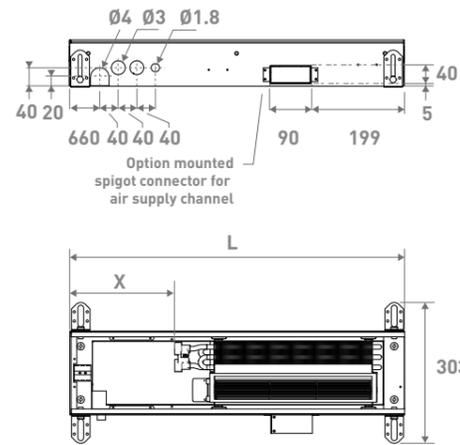

By making use of the latest EC motors, the Clima Canal units use 50 % less electrical energy. These can be controlled through the latest home automation systems via their 0-10 VDC speed control.

CLIMA CANAL 10, 13, 19

# CLIMA CANAL 10 - SUMMARY

## DIMENSIONS in mm

Our Clima Canal allows for a continuous installation.

L	L through-mounting	X
723	721	230
1083	1081	230
1443	1441	185
1803	1801	150

## HYDRAULIC CONNECTION

- Same end element with 2 pipe connection on the left.
- Always install Clima Canal with the heat exchanger on the window or wall side.
- 2 x 1/2" stainless steel hose included.
- Allow extra space for curtains, in between the window and the canal.
- The heat exchanger must always be kept accessible for maintenance purposes.
- If the appliance is not mounted flat on the floor, the space between the bottom of the appliance and the floor should be filled with a stable filler material.

## ELECTRIC CONNECTION

- Clamp connector for 24VDC electrical connection, left side, to be connected via external power supply.
- Control of speed activator(s) 0-10V.

## COMPOSITION

### Cover plate

### Grille

several styles and colours in anodised aluminium and a range of wood finishes

### Stainless steel flexible connections 1/2"

Length 150 mm

### Fine adjustment

to max. 8 mm, for a perfect alignment with the finished floor

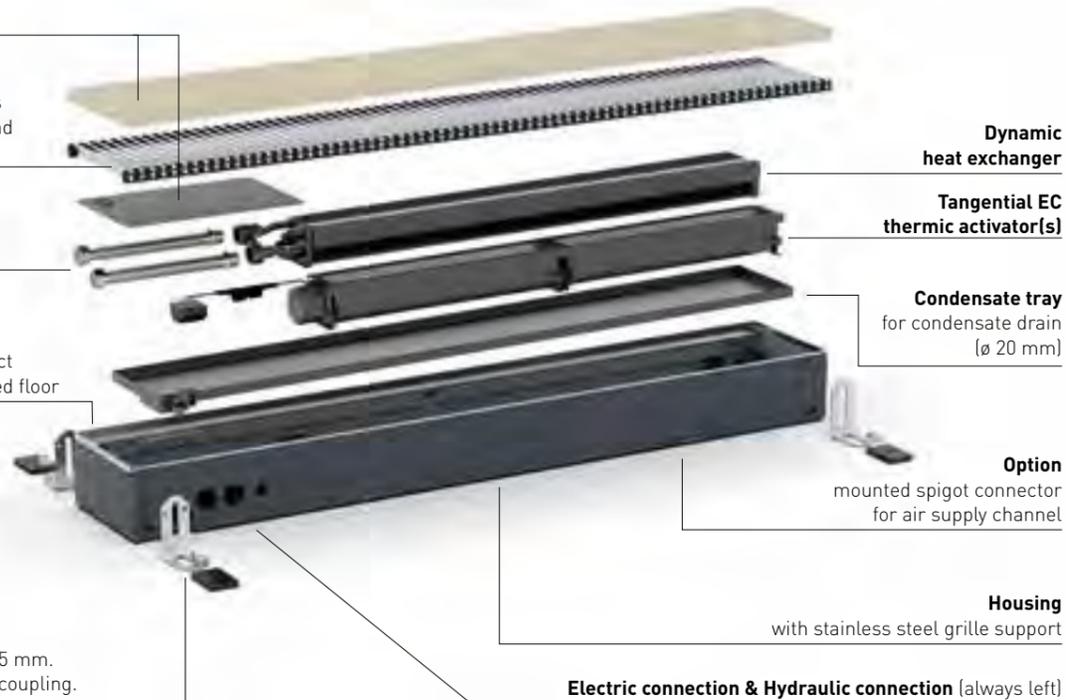

### Fine adjustment

100 > 108 mm

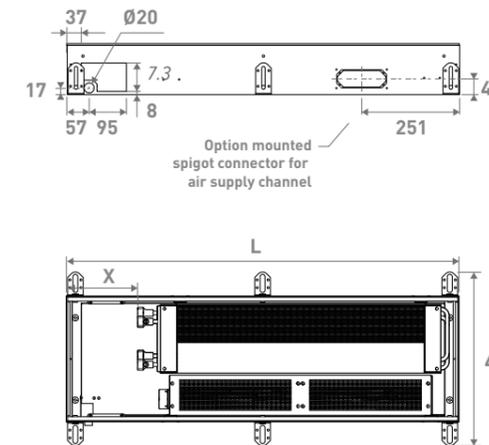

### Height adjuster

for fine adjustment of 0-45 mm. Provided with acoustic decoupling.

## CLOCK THERMOSTATS HEATING / COOLING

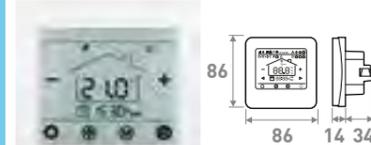

The general characteristics in bold below are valid for the thermostats 8751.050013 - 8751.050012 - 8751.050009 - 8751.050017

- Automatic thermostat for 2-pipe: heating/cooling or auto.
- Ventilator speed: min./med./max. or auto.
- Power supply 24 VDC.
- Output control(s) 0-10 VDC.
- 1 clock thermostat per room.
- Programmable zones.
- LCD display with background lighting.
- Protection category IP30.

## FOR RECESSED MOUNTING

**NEW**

### Jaga clock thermostat for recessed/panel mounting JRT-100TW

- LCD touchscreen with background lighting.
- Control via WIFI (smartphone app).
- Programmable time zones 7 days [1-7].
- Control valves 24 VDCa heating/cooling.
- Thermostat to be mounted in a junction box
  - Spacing holes at 60 mm.
  - Minimum depth 45 mm.
  - Inner dimension 50 x 50 mm or Ø 60 mm.

**CODE**  
8751.050017 recessed/panel mounted

### Jaga clock thermostat for recessed/panel mounting

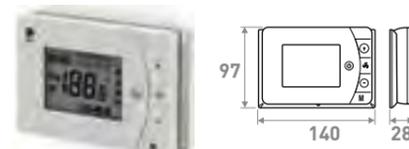

- Control valves 24 VDC heating/cooling.
- Thermostat to be mounted in a junction box

  - Minimum depth 45 mm.
  - Inner dimension 50 x 50 mm or Ø 60 mm.

**CODE**  
8751.050012 recessed/panel mounted

## FOR WALL MOUNTING

### Jaga clock thermostat for wall mounting

- 2 potential-free contacts heating/cooling [f.e.valve control 24 VDC or 230 VAC].
- With key card contact / window contact.
- Can be mounted on a junction box with screw holes at 60 mm.

**CODE**  
8751.050013 wall mounted

## PRE-ASSEMBLED JAGA DYNAMIC PRODUCT CONTROLLER (JDPC)

Multifunctional controller for dynamic heating and cooling devices provided with one or more built-in fans. The Jaga Dynamic Product Controller is pre-configured and assembled inside the device. The configuration options are device dependent, and are selected using the code shown on the sticker in the device.

- Control per appliance.
- Control with operation and with sensor for water temperature, pre-configured and assembled by Jaga.
- Power supply 24 VDC.
- Ventilator settings:
  - Standby.
  - Heating: 3 speeds (operates at water temperature >28°C, can easily be modified)
  - Cooling: 3 speeds (operates at water temperature <18°C, can easily be modified).
- 0-10 V input for building management system/ thermostats/DPC.CC71-72.

For more information contact Jaga

\* Noise measurement according to ISO 3741:2010, 2 m from the device and with an assumed room attenuation of 8 dB(A) / room volume 100 m3 / reverberation time 0.5 sec.

# OUTPUT TABLES - 4 PIPE - CLIMA CANAL 13

## STANDARD DELIVERY

- Casing in Sendzimir-galvanised steel sheet (RAL7024) with height adjustment and stainless steel grille support.
- Anodized aluminium or wooden grille(s).
- Dynamic heat exchanger.
- 2 stainless steel flexible connections 1/2", length 150 mm.
- Thermal activator(s), (tangential mini activator).
- Height adjuster for fine adjustment of 0-45mm, provided with acoustic decoupling.
- Cover plate.

Clima Canal 13 is also available in L 300.

## CLIMA SLIM

Complete climate control  
in a slim, designer casing

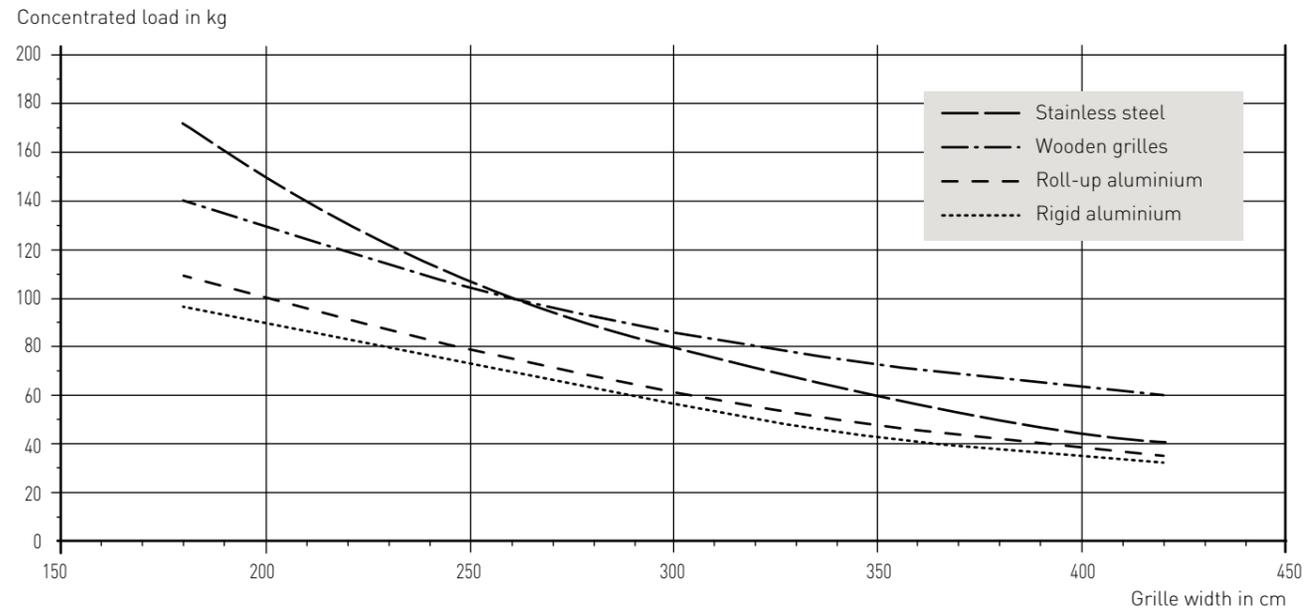

- Jaga Clima Canal not only fits in the floor but can be installed in various ways including from wall to wall.
- It is highly customisable so we can find the perfect fit for any project.
- It can be fitted inside a slim, sleek and sturdy laquered casing made from sendzimir galvanized steel plate.
- Several grille styles and colours are available in anodized aluminium or a range of wood finishes.
- Numerous installation options ensure architectural freedom.
- Matching custom grilles are available in various colours and sizes.

CLIMASLIM

# MAXIMUM GRILLE LOADINGS

- Roll-up wood and aluminium grille: concentrated load in kg in the centre of the grille up to 2 mm deflection.
- Rigid grilles: concentrated load in the centre of the transverse section up to 2 mm deflection.

# CORRECTION FACTORS - MINI CANAL

## AVERAGE CORRECTION FACTORS FOR STATIC PRODUCTS ACCORDING TO EN442

Room temperature: 20°C										Room temperature: 24°C
