

COLOURS OF NATURE

PRECIOUS METALS

SUBTLE & DISCREET

Colours & materials

Be uniquely you. Stand out. Shine.
Be colourful.

Jaga’s new colour collections allow us to react perfectly to current and future interior design trends.

Take a look at our range and find the perfect reflection of your personality.

THREE standard colours NEW

In addition to Traffic white (.33) and Sandblast grey (001), we now also offer Off-black (145) as a standard colour.

Be uniquely you

The new colours are divided into three colour groups: “Subtle & discreet”, “Colours of nature” and “Precious metals”. Away with white boxes, make way for interiors full of colour and character!

“**Subtle & discreet**” includes a selection of neutral colours that discreetly blend our units into the interior.

“**Colours of nature**” is a collection of 16 new colours containing bright, variegated, greyish and pastel shades. From soft natural colours to dark chic. For the bold.

“**Precious metals**” includes 10 metal lookalikes, in harmony with trends in the world of taps, lighting and bathroom accessories.

The code deciphered

What does the first digit of the colour code stand for?

- Code 1xx** ***Soft touch:** finely-textured matte look, gloss degree < 10%*
- Code 2xx** ***Glossy:** smooth gloss finish, gloss degree +/- 70%*
- Code 3xx** ***Satin:** smooth satin look, gloss degree +/- 30%*
- Code 0xx** ***Metal lookalikes:** the finish and the degree of gloss simulate the imitated material.*

*All our lacquered units are available in every code, except for the Strada, Linea Plus, Mini, Briza, Vertiga Hybrid, and Freedom units. These units are not available in **Code 2xx Glossy** and **Code 3xx Satin**.*

Our grilles and frames are available in all colours, with the exception of Sandblast grey 001. In case of intensive use (placement in circulation areas, for example in front of sliding windows and doors), wear is, of course, inevitable.
