Altro Tegulis™

Tile-effect wall panels

altro.com/uk

Altro tile-effect wall panels

Altro Tegulis™ tile-effect wall panels offer the ideal alternative to traditional tiles for wet rooms, bathrooms, kitchens, and retail spaces. With a range of tile-effect patterns offering a grout-free alternative to tiles, Altro Tegulis offers a more familiar feeling than traditional wall panel sheets.

Create a realistic tiled look without any of the drawbacks of tiles

Offering both style and substance, Altro Tegulis draws on 40 years of Altro wall panel experience to create stunning looks in a combination of colours and designs; from natural stone effects to smooth neutral satin finishes, featuring on-trend chevrons, hexagons and timeless metro tiles.

Unlike porous grout used in traditional ceramic tile installations, the grout lines etched into Altro Tegulis' surface are impervious to moisture meaning there is nowhere for dirt to hide. Using our **half-lap installation method** combined with

Altro sanitary sealant, the Altro Tegulis wall system prevents water and bacteria from penetrating below the surface, allowing for easy cleaning and disinfecting.

For dry areas, our **interlock installation method** works a treat for installations where excess moisture and water are unlikely to impact the walls.

Low in VOC emissions, easy to clean and stain resistant, an area clad in Altro Tegulis wall panels is healthier and more hygienic, protecting people and keeping them safer.

Fabulous walls, without the hassle

Altro Tegulis is an innovative wall system available in an extensive colour and design palette. With the look and feel of tiles, the innovative custom-etched grout lines eliminate the cleaning, repair and hygiene issues often associated with tiles.

Altro Tegulis is a grout-free alternative to ceramic tiles, no grout means there is nowhere for mould to grow.

Sophisticated style

For end users looking for a more stylish finish, Altro Tegulis offers a multitude of design options in a range of colours and tile patterns. With innovative etched designs, wall panels are adaptable to numerous décor choices, rooms, and environments. The only challenge is deciding which combination to choose!

Hygienic and grout-free

With cleaning such an important factor, Altro Tegulis uses a proven hygienic system as the basis for its panels. Completely grout-free, the etched grout line proves there is nowhere for dirt and germs to hide. Unlike ceramic tiles, Altro Tegulis will not discolour in any way, and with no grout lines to harbour mould, walls will continue to look fresh for years. Panels are easy to clean with a mild alkaline detergent, meaning hassle-free maintenance and a safe hygienic environment for all users.

Cost effective, guaranteed

Faster installation means minimum disruption and significant cost savings compared to traditional ceramic tile installations. Downtime for Altro Tegulis is significantly reduced, ensuring the building can be occupied quickly and cleanly. With its 10-year guarantee, you can also be confident that walls will continue to last for many years, reducing renovation costs over time.

Durable and waterproof

Built to last, with an impressive 10-year guarantee, our wall coverings are resistant to everyday knocks and bangs. Unlike tiles, wall panels are not easily chipped or cracked, keeping walls that look like new for longer. Impermeable to water, they are suitable for use in wet rooms and spaces with high levels of humidity when installed with our half-lap jointing method.

Quick and easy installation

Altro Tegulis is faster to install than ceramic tiles, saving you time and money. Easy to install using one of our unique jointing methods, installations become simpler, and easier, guaranteeing a great result every time.

Did you know?

You can blend your Altro Tegulis walls with Altro Wood™, Altro Wood™ adhesive-free or Altro Aquarius™ to create a stylish, designer space without the hassle of tiles.

Forget tiles. Build your own wall panels

With numerous colour and tile-effect combinations Altro Tegulis is perfect for end-users looking to create a stylish, flexible look for walls. Created from 11 standard tile-effect options with multiple colour and design palettes. An innovative and functional wall system, with no grout to contend with and impervious to water, Altro Tegulis takes innovative wall design to a new level.

To reduce our carbon footprint, we have made the decision not to stock samples of every Altro Tegulis configuration. Please order a sample of the colour of your choice. An additional sample will also be selected for you, showing the high-quality finish and etched grout line of Altro Tegulis. White Mineral | 9905
LRV 61

Warm Woodgrain | 9904
LRV 38

Cool Mineral | 9906
LRV 48

Antique Copper | 9912
LRV 9

Urban Mineral | 9907
LRV 28

Determine your installation method

With alternative installation methods available, Altro Tegulis is flexible for your needs. Choose the installation method best suited to your individual requirements, half-lap or interlocking. We recommend using AltroFix™ W139 adhesive for all installations to ensure fire certification compliance.

Half-lap

Recommended for use in wet areas, half-lap panel edges are machined to fit on top of each other creating a smooth, water-resistant joint. Use Altro sanitary sealant for secure, watertight joints.

Interlocking

For use in dry environments, tiles form an easy puzzle-like interlock, making the joint virtually invisible.

Decide for yourself: Altro Tegulis, the grout-free alternative to ceramic tiles

	Altro Tegulis	Ceramic tiles
Quick to install: no grouting required	✓	✗
Simple to install: light and easy to cut	✓	✗
Grout-free, no water absorption and nowhere for mould to grow	✓	✗
Easy to clean: no scrubbing required	✓	✗
Robust: resistant to knocks and bangs, no cracking or chipping	✓	✗
Low in VOCs	✓	✓
Waterproof, suitable for use in wet rooms	✓	✓
