

MEDIUM VOLTAGE - ALUMINIUM UK POWER NETWORKS

Medium voltage aluminum power cable approved by UKPN for connecting electrical grids to sub-main developments. Suitable for power networks, underground installations, outdoor usage, and installation in cable ducting.

CONDUCTOR	Aluminium
STRANDING	Class 2
INSULATION	XLPE
OUTERSHEATH	MDPE
OUTERSHEATH COLOUR	Red
RATED VOLTAGE	6.35/11kV
STANDARDS	IEC 60228, IEC 60502-2, IEC 60754-1

SPECIFICATION DATA

BATT Part No	Cores	Nominal cross sectional area of conductor	Approx overall diameter	Weight
56813	3x1	95	60	2440
56815	3x1	185	72	3970
56816	3x1	300	82	5180
