
NESTOR
MARTIN

A Legacy of Excellence

Crafted by a European leader in home heating, Nestor Martin cast iron stoves blend over 170 years of expertise with advanced innovation.

Rooted in a tradition of craftsmanship, since 1864 our stoves offer the perfect harmony of heritage and modern technology.

With a refined combustion system, they deliver outstanding efficiency.

Built to last and designed to inspire, Nestor Martin continues to set the benchmark in time-less home heating solutions.

The stoves will burn for up to ten hours in saving mode, without reloading. The view of flames and incredibly precise control of the fire is unmatched.

MQ33

10 NESTOR MARTIN 10 YEAR WARRANTY

Every Nestor Martin stove comes with the reassurance of an extended 10-year warranty, a testament to the lasting quality and crafts-manship behind each model.

It's our promise of long-term reliability and peace of mind for years to come.

Built to Last for Generations

Harmony I

Heart of your home

While practicality and function may have inspired the creation of the Harmony I, at its heart, this stove is so much more—it's the warm and welcoming centrepiece of your home. Its timeless design and charming presence make it more than just a heating appliance; it enchants your home's atmosphere, radiating warmth and elegance.

Satisfying Flames

Whether you're curled up on a chilly evening with a book or hosting loved ones in a cosy, fire-lit setting. With the Harmony I, warmth isn't just about temperature, it's about crafting an inviting and enchanting space where memories are made.

Effortless control

For effortless control and a truly tailored experience, the Harmony I features a thoughtfully designed thermostatic under grate lever. This intuitive addition allows you to fine-tune the heat output with precision, creating the perfect ambiance to suit every moment.

Harmony III

Big, Bold & Beautiful

The Harmony III is a true statement piece, bold, beautiful, and built to warm even the largest of spaces with ease. Its grand presence and timeless charm make it the heart of the home, filling the room with a soft, steady glow. Its commanding presence brings timeless beauty to your home, with smooth and simple operation.

Fuel for your home

The Harmony III is a true all-rounder, offering the versatility of multifuel capability so you can enjoy the comforting crackle of wood or the steady glow of smokeless fuels, whichever suits your mood or lifestyle.

Enduring Elegance

With effortless control and enduring cast iron elegance, the Harmony III offers not just heat, but a sense of comfort, character, and calm that transforms any space into a warm retreat. The Harmony III invites you to slow down, unwind, and enjoy life's simple moments in a space that feels truly yours.

Harmony 23

Timeless Charm

The Harmony 23 seamlessly combines the timeless charm of a traditionally styled cast iron stove with cutting-edge technology, offering both aesthetic appeal and exceptional performance. Designed for those who appreciate classic craftsmanship, these stoves feature intricate detailing and a robust cast iron construction that exudes warmth and character.

Smart & Sustainable

Nestor Martin's Woodbox steel combustion chambers are lined with cast iron and vermiculite for lasting durability and efficient heat retention. Preheated combustion air is gradually introduced, ensuring a cleaner, more complete burn and outstanding efficiency.

Woodbox® technology

The integrated Woodbox® technology system combines primary and secondary combustion. This gives you precise control over the stoves burn rate, and helps keep your glass clean with the air wash system. Optional remote control available.

Harmony 23

Harmony 33

Rustic Elegance

Beyond their rustic elegance, the Harmony 33 incorporates the most advanced combustion technology, ensuring optimal fuel efficiency, cleaner burning, and superior heat output. This focus on their traditional cast iron crafting blended with its innovative technlogy system maximizes heat retention while minimizing emissions, without compromising performance.

Lasting Performance

Nestor Martin's Woodbox steel combustion chambers are thoughtfully lined with cast iron and vermiculite, combining strength with intelligent heat retention for lasting performance. Preheated air is gently introduced to the fire, encouraging a cleaner, more complete burn.

Woodbox® Technology

Woodbox® technology blends primary and secondary combustion to create an efficient and controlled burn. Enjoy effortless control over the flame, a clear view through the self-cleaning glass thanks to the gentle air wash system, and the option of remote control for ultimate convenience.
