A wood burning stove is more than just heating.

Lifestyle. Tranquility. Reflection.

ABOUT VARDE

Our products have always been about craftsmanship. VARDE Ovne was originally a smithy when we started out. This could be the reason why the respect and under-standing of the craftsmanship is such a deep-seated part of our company. We never compromise on quality.

On all our stoves, the heat-exposed parts are made of solid cast iron. We believe that quality is ultimately worth it all, and that is why we happily make an extra effort to achieve the perfect products.

You need to look at your wood burning stove every day and it needs to fit into your home. Therefore, design is about creating something that is beautiful to look at and functional to use.

We are inspired by the Scandinavian design. Simplicity, elegance, clean lines and a harmonious expression are just some of the stylistic features we try to achieve.

We think it is important that our stoves are not an unnecessary environmental burden. Therefore, we have made sure that every single VARDE stove has been subjected to careful testing by independent testing agencies.

In other words, when buying a VARDE stove, you are buying a stove that is compliant with the toughest environmental standards in Europe.

Every stove has various wear and tear parts which are expected to be replaced during the stove's service life.

VARDE offers a five-year guarantee against manufacturing errors and a six month warranty on selected wear and tear parts.

AIR-system
VARDE **AIR** wood-burning stoves come ready for connection of an external air inlet for optimal firing and a better indoor climate – perfect for low-energy homes.

Read more at page 11.

Convection system
Cool air is brought in via the bottom of the stove and heated air is discharged at the top. This ensures excellent air circulation inside the room and better heat distribution.

A grate disc at the bottom of the fire chamber allows you to finely separate the ash, which makes it easier to empty the ash pan.

All these features are included when you buy a VARDE stove

GLASS SIDE PANES
Several of VARDE's models feature large glass surfaces and side panes allow you to enjoy the fire from different angles.

GLASS PANE CLEANING FUNCTION
All our stoves have pane-cleaning functionality that reduces soot formation on the glass when you operate the stove correctly.

EASY OPERATION
We have thought about the functional details. The air flow is easy to control and the combustion chamber is easy to clean.

CONVECTION
All VARDE models are convection stoves, where air comes out from the top of the stove and is distributed around the room.

HIGH COMBUSTION EFFICIENCY
Combustion efficiency is an expression of how much of the energy from the wood that is exploited to heat the room. VARDE wood burning stoves are all well-known for their combustion efficiency which exceeds 80%.

THE ENVIRONMENT
All our stoves are CE-certified, which means they are compliant with Europe's toughest environmental legislation. With a stove from VARDE Ovne, you are sure to get a stove with focus on clean air quality and consideration of correct environmental combustion.

CAST IRON AND STEEL
Exposed parts such as the smoke outlet and bottom grate on all VARDE wood burning stoves are made of cast iron. That ensures longer service lives of the parts of the stove that are exposed to the most heat.
Some stoves also have a cast iron top plate and cast iron door to complete the design. All VARDE wood burning stoves have a fire chamber made of all-welded steel and are protected internally by cast iron and vermiculite.

ECODESIGN 2022
According to the ECODESIGN 2022 Directive, every single VARDE stove has been tested and complies with the ECODESIGN 2022 requirements.

ECO DESIGN 2022

VARDE CARDIFF AIR

Art. No. 100768

Colour	Black
Height	90 cm
Width	51 cm
Depth	45 cm
Output	7,2 kW
Firewood length	35 cm

VARDE Cardiff AIR

VARDE Cardiff AIR stove is designed with an emphasis on experiencing the fire, which can be seen from three sides and brings light and heat into your home.

VARDE Cardiff AIR features an AIR-Box system allowing the stove to take in air from the outside, instead of air from the room where the stove is placed. This produces better combustion and a better indoor climate, especially if your home is densely insulated.

The large combustion chamber has room for logs up to 35 cm in length.

VARDE Aura

With VARDE Aura you get a classic wood burning stove with a modern design and solid craftsmanship, ensuring a long-term lifespan.

The convection system allows cold air to be drawn in through the bottom of the stove, heated, and then released at the top of the stove. This ensures good air circulation and a better heat circulation within the room.

DEFRA APPROVED

Approved for Smokeless Zones

VARDE AURA 1

Advice and guidance
We have all the information you need when you are thinking of buying a wood burning stove.

Visit us at **vardeovne.dk/en** where you will find a wealth of useful information and inspiration.

VARDE Aura 3 with natural stone is the obvious choice if you are looking for long-lasting heat.

The elegant soapstone top with maximum heat retention and top cover can be purchased separately for both VARDE Aura 1 and VARDE Aura 11.

VARDE AURA 3 NATURAL STONE

VARDE AURA 1

Art. No. 100025

Colour	Black
Height	100 cm
Width	51 cm
Depth	45 cm
Output	5,0 kW
Firewood length	30 cm

Top cover not included.

VARDE AURA 3

Art. No. 100027

Colour	Black
Height	87 cm
Width	48 cm
Depth	44 cm
Output	5,0 kW
Firewood length	30 cm

VARDE AURA 3 NATURAL STONE

Art. No. 100029

Colour	Grey
Height	91 cm
Width	51 cm
Depth	46 cm
Output	5,0 kW
Firewood length	30 cm

VARDE AURA 11

Art. No. 100030

Colour	Black
Height	110 cm
Width	51 cm
Depth	45 cm
Output	5,0 kW
Firewood length	30 cm

Top cover not included.

VARDE Shape AIR

VARDE Shape 2 AIR has a stylish and oval design that fits into every home.

The modern design makes it easy to position the stove and allows it to enhance your own personal style and furnishings.

VARDE Shape 2 AIR with soapstone will always stand as a beautiful piece of furniture in the home, even when not in use.

Approved for Smokeless Zones

VARDE SHAPE 2 AIR

Art. No. 100019

Colour	Black
Height	103 cm
Width	52 cm
Depth	41 cm
Output	5,0 kW
Firewood length	30 cm

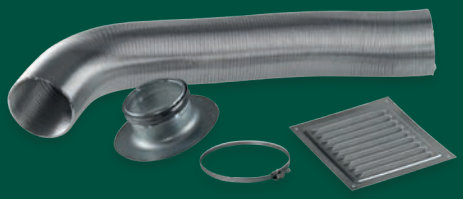

VARDE SHAPE 2 AIR SOAPSTONE

Art. No. 100022

Colour	Grey
Height	105 cm
Width	52 cm
Depth	41 cm
Output	5,0 kW
Firewood length	30 cm

VARDE SHAPE 2 AIR SOAPSTONE

Modern homes are very well insulated. When using a wood burning stove, you may experience that air in the room lacks humidity. It can also be difficult to achieve adequate air flow for combustion.

Some VARDE stoves can be fitted with our AIR-system, which takes in air from the outside. This can result in improved combustion, ensuring a proper, healthy indoor climate in your home.

VARDE NICE AIR

VARDE Nice AIR

VARDE Nice AIR wood burning stove impresses with its elegant appearance and its rounded shapes that float on a pedestal.

The curved side and front glass panels provide a 180 degree flame experience that spreads cosiness and great heating in the room.

VARDE Nice AIR model features an AIR-Box system allowing the stove to take in air from the outside, instead of air from the room where the stove is placed. This produces better combustion and a better indoor climate, especially if your home is densely insulated.

Elegant and practical soapstone top
The elegant soapstone top with maximum heat-retention and top cover can be purchased separately for both VARDE Lyon AIR and VARDE Nice AIR.

ECO DESIGN 2022

VARDE NICE AIR

Art. No. 100985

Colour	Black
Height	110 cm
Width	51 cm
Depth	44 cm
Output	6,2 kW
Firewood length	30 cm

Top in soapstone can be purchased.

VARDE LYON AIR

VARDE Lyon AIR

This round wood burning stove is not only pleasing for the eyes when sitting and contemplating the flames; it is also a great piece of furniture when not in use.

VARDE Lyon AIR comes fitted for connection of external air intake, for optimal combustion and better indoor climate. This type of wood-burning stove is perfect for low-energy homes that are extra air tight.

Elegant top cover
Cover the hole to the chimney pipe on the top of your stove with an elegant top cover. Top cover must be purchased separately.

ECO DESIGN 2022

VARDE LYON AIR

Art. No. 100984

Colour	Black
Height	100 cm
Width	51 cm
Depth	44 cm
Output	6,2 kW
Firewood length	30 cm

Top in soapstone can be purchased.

VARDE Samsö

With its light and rustic design, VARDE Samsö is a popular wood burning stove with an excellent view of the fire.

The uniform handles on the stove's combustion chamber and ash pan contribute to its attractive, coherent design.

VARDE Samsö with natural stone is the obvious choice if you want a more natural look that retains the heat.

DEFRA APPROVED

Approved for Smokeless Zones

VARDE SAMSÖ NATURAL STONE

VARDE SAMSÖ

Art. No. 100005

Colour	Black
Height	100 cm
Width	49 cm
Depth	35 cm
Output	5,0 kW
Firewood length	30 cm

VARDE SAMSÖ NATURAL STONE

Art. No. 100007

Colour	Black
Height	103 cm
Width	49 cm
Depth	35 cm
Output	5,0 kW
Firewood length	30 cm

BORNHOLM

VARDE Bornholm

Finding space for a VARDE Bornholm stove is easy and the rounded sides makes it ideal for corner placement.

The side panes provide a 180 degree view of the flames, which means that the stove provides good light, wherever it is positioned in the room.

ECO DESIGN 2022

VARDE BORNHOLM

Art. No. 100846

Colour	Black
Height	101 cm
Width	46 cm
Depth	35 cm
Output	5,5 kW
Firewood length	30 cm

ECO DESIGN 2022

VARDE THURÖ 13

Art. No. 100771

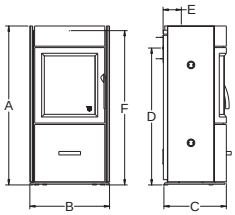

Colour	Black
Height	96 cm
Width	52 cm
Depth	41 cm
Output	6,0 kW
Firewood length	35 cm

VARDE Thurö

VARDE Thurö 13 is a popular stove.

The classic and rustic design creates a lovely cosiness throughout your home when the extra-wide combustion chamber is lit up.
