

# Hinged Parking Post FB Randomly Keyed Galvanised, Galvanised & Colour or Stainless

The hinged parking post is still the preferred choice for the protection of individual parking spaces throughout Britain.

The extremely durable and reliable design of the hinged parking post ensures your parking space will always be available. The reflective, high visibility label ensures your parking post will always be seen.

The hinged parking post is unlocked by rotating the key (Supplied with 2 keys) and allowing the spring loaded lock barrel to move outwards. The post is then fully raised or lowered and relocked by pushing the lock barrel back in.

For emergency access the Hinged Parking Post FB has a removable hinge pin which is secured with a Fire Brigade padlock (lock & key both available separately)

Available Galvanised, Galvanised and Colour Coated, or Stainless Steel (Grade 304)

Part Number	Description	Weight (kg)
