

Shop Front Protection Rail

Designed with the retail market in mind, the AUTOPA Shop Front Protection Rail is ideal for protecting vulnerable walls and windows from trolley damage. Sitting only 185mm above the ground, this railing can be used to protect both internal and external structures and is commonly found around entrances or glass panels.

Available concrete in order bolt down (galvanised only).

Shop Front Protection Rails are sold in 1 metre sections of 48mm diameter tube and manufactured to order. A drawing complete with dimensions including overall length must be specified at the time of order.

<u>Part Number</u>	<u>Description</u>
138 174 700	1m Shop Front Rail, Stainless Steel - Concrete In
138 174 795	1m Shop Front Rail, Galvanised - Concrete In
138 174 800	1m Shop Front Rail, Galvanised - Bolt Down
