

# Caxton Shelter - Galvanised Galvanised Steel Frame Open - PETG Sheet

The Caxton shelter is a free-standing, open sided shelter designed for on site assembly, constructed from galvanised mild steel. Complete with galvanised sheet curved roof.

Width of 2m, with lengths from 2m-5m, extension bays can be added to achieve the desired shelter length.

Bolt down as standard.

## Uses

- |                                             |                                            |                                         |
|---------------------------------------------|--------------------------------------------|-----------------------------------------|
| <input checked="" type="checkbox"/> Cycle   | <input type="checkbox"/> Waiting/Passenger | <input type="checkbox"/> Smoking/Vaping |
| <input type="checkbox"/> Trolley            | <input type="checkbox"/> Walkway/Canopy    | <input type="checkbox"/> Bin Store      |
| <input type="checkbox"/> Sport & Spectators | <input type="checkbox"/> Pay & Display/E.V | <input type="checkbox"/> Youth          |

| Part Number | Description                     | Weight (kg) |
|-------------|---------------------------------|-------------|
| 138 204 670 | Caxton Shelter 2m               | 178kg       |
| 138 204 672 | Caxton Shelter 3m               | 213kg       |
| 138 204 674 | Caxton Shelter 4m               | 247kg       |
| 138 204 676 | Caxton Shelter 5m               | 282kg       |

## Product details

- |                                          |                                       |
|------------------------------------------|---------------------------------------|
| • Height – 2132mm front, 1534mm rear     | • Flange plate - 1224mm x 300mm x 8mm |
| • Width – 1987mm overall                 | • Each flange plate requires 8 bolts  |
| • Length – 2m, 3m, 4m, 5m and extensions | • 1mm galvanised steel panels         |

## Installation & use

This product is guaranteed for 12 months (if installed and used correctly)  
Each shelter leg requires bolting down to a suitable concrete surface, using expanding anchor bolts  
The area surrounding the installation must be flat and level with no nearby surface irregularities or gradient changes  
On-site assembly requires construction skill
