

Type B Cycle Rack Galvanised

The Type B Cycle Rack is a floor mounted cycle rack based upon the Model R Holder. The Type B offers a high single sided cycle parking density. The high and low holders combined ensure that cycles are parked only 305mm apart (typical parking distance for a Sheffield Cycle Stand is 500mm). The high holders, which incorporate ramps are alternated with the low holders, ensuring that all holders can accommodate bicycles at the same time at a higher density than single level cycle parking racks.

The practical and durable nature of the Type B Cycle Rack ensures that the rack is suitable for all environments where high density, single sided cycle parking is required.

Part Number	Description	Weight (kg)
138 200 228	2 Holder Type B Cycle Rack - Concrete In	11kg
138 200 227	2 Holder Type B Cycle Rack - Bolt down	11kg
138 200 428	4 Holder Type B Cycle Rack - Concrete In	22kg
138 200 427	4 Holder Type B Cycle Rack - Bolt down	22kg
138 200 628	6 Holder Type B Cycle Rack - Concrete In	33kg
138 200 627	6 Holder Type B Cycle Rack - Bolt down	33kg
138 200 828	8 Holder Type B Cycle Rack - Concrete In	44kg
138 200 827	8 Holder Type B Cycle Rack - Bolt down	44kg
138 200 028	10 Holder Type B Cycle Rack - Concrete In	55kg
138 200 027	10 Holder Type B Cycle Rack - Bolt down	55kg

Product details

- 696mm x 1057mm (height x width)
- 305mm distance between holders (centre to centre)
- Length varies per number of holders
- Price excludes fixing down bolts

Installation & use

Bolt down versions require bolting to a suitable concrete surface.
Concrete in versions require casting into concreted hole, no less than 300mm x 300mm x 350mm
Some on-site assembly may be required.
This product is guaranteed for 12 months (if installed and used correctly).
