Hooped Perimeter Barrier
48mm Diameter
Stainless Steel, Removable

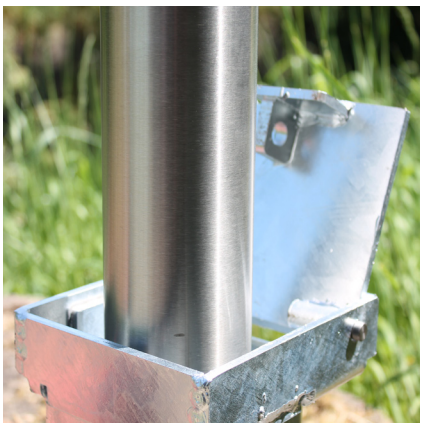

Perimeter Barriers are designed to help secure site perimeters and provide a permanent obstacle to vehicle access, to mark boundaries, define trolley parks and protect vulnerable door entrances and exits.

Suited to sites where aesthetics and security are equally important, perimeter barriers are commonly found outside car showrooms acting as protection for the cars on the forecourt without impeding a customer's view of the vehicles.

Available in a variety of heights and widths, available as concrete in, bolt down or removable for occasional access.

Galvanised, Stainless steel, galvanised and colour coated available.

Part Number	Description, Height above ground x overall width	Weight (kg)
138 205 168	500 x 1000 Stainless Steel Grade 304 - Removable	15kg
138 205 164	500 x 1500 Stainless Steel Grade 304 - Removable	17kg
