

Degreaser & Bitumen Remover

Adomast Degreaser & Bitumen Remover represents a completely new development in the area of the next generation of ester-based microemulsions and out-performs all previous products when cleaning oil and grease from hard surfaces.

- Adomast Degreaser & Bitumen Remover is safe to use, safe to store and easy to handle.

Adomast Degreaser & Bitumen Remover is developed for application in industrial, institutional and house-hold applications for heavy-duty applications.

Adomast Degreaser & Bitumen Remover- Properties

Parameter	Unit	Typical value
Appearance	Visual	Clear to slightly turbid
Colour	Gardner	1
Odour	Sensory	Weak
Density	kg/m ³	987
Flash point	°C	> 100
Pour point	°C	< -5
Solubility in water	-	Miscible

Product description

- Adomast Degreaser & Bitumen Remover is an optimised combination of surfactants, ester solvents and coupling agents.
- The product forms the basis of high-performance degreasers for removal of oil, bitumen and greasy residues.
- Adomast Degreaser & Bitumen Remover has an exceptional all-round cleaning profile and is a serious alternative to cold-cleaners based on hydrocarbon solvents, hydrocarbon-based microemulsions and high-alkaline cleaners.
- Adomast Degreaser & Bitumen Remover is formulated with sequestering agents to form efficient cleaners with no VOC content and no CLP label.

Product applications

- Metal parts cleaners
- Truck cleaners
- Automotive degreasers
- Oil-spot removers
- Bitumen cleaners
- Cleaners for leisure markets such as boats, garden furniture, garage floor, motorbikes, bicycles etc.

Product formulations

- Cleaner concentrates for dilution on-site at customers.
- Ready-for-use products for trigger spray application.
