on site when required

SIMPLY BETTER

How do we create the best brick and GRP building products on the market?

It's through innovation and investment.

We value our incredible people and invest significantly in their training and development, respecting their opinions and implementing their ideas. In this way we create technological advancements that make our processes more efficient and our products even more useful to you. Combine this with our on-site customer service and our keen ear for real-world feedback, and we're confident you won't find a better building partner.

We set ourselves
apart from the
competition
by investing
in innovative,
industry-leading
technology

LEADING THROUGH INNOVATION

Why do housebuilders turn to us for quality and convenience?

Because we're always striving to make our products lighter and smarter, better-looking and easier to install.

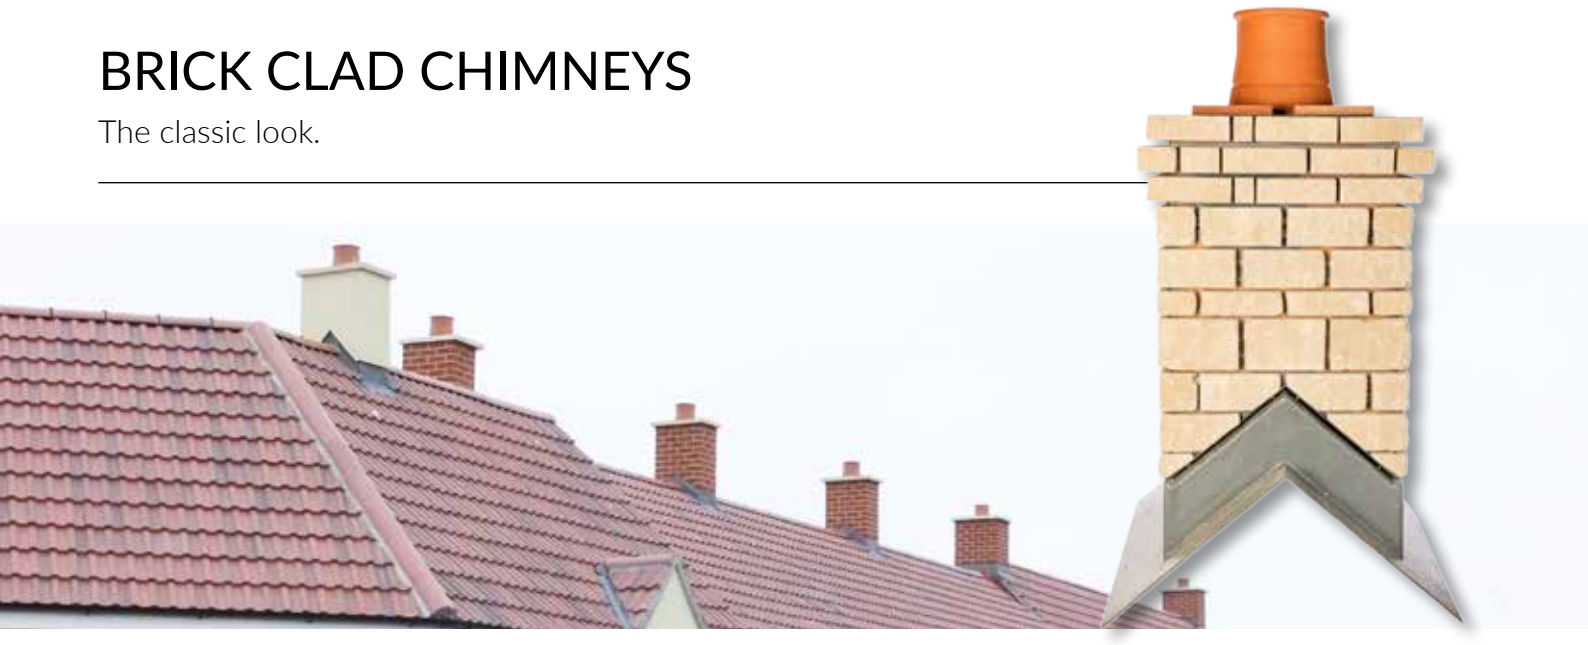

Brick-built homes have been around for over 9,000 years and they're still evolving, still improving, still becoming more efficient.

These days off-site construction of pre-built elements makes the building process faster and more precise; we supply key features such as brick arches, GRP chimneys and brick specials, collecting your bricks from site and working with them in our immaculate facilities. Our materials include brick, stone, VRTM-GRP and more.

We use cutting-edge equipment and modern, lean manufacturing processes carrying no fault forward to ensure a perfect finish every time; which is why so many housebuilders turn to Brickfab for the ideal finishing touch. Ultimately, we help you build better homes.

BRICK CLAD CHIMNEYS

The classic look.

PREFABRICATED ARCHES

Curved, flat gauge or bullseye.

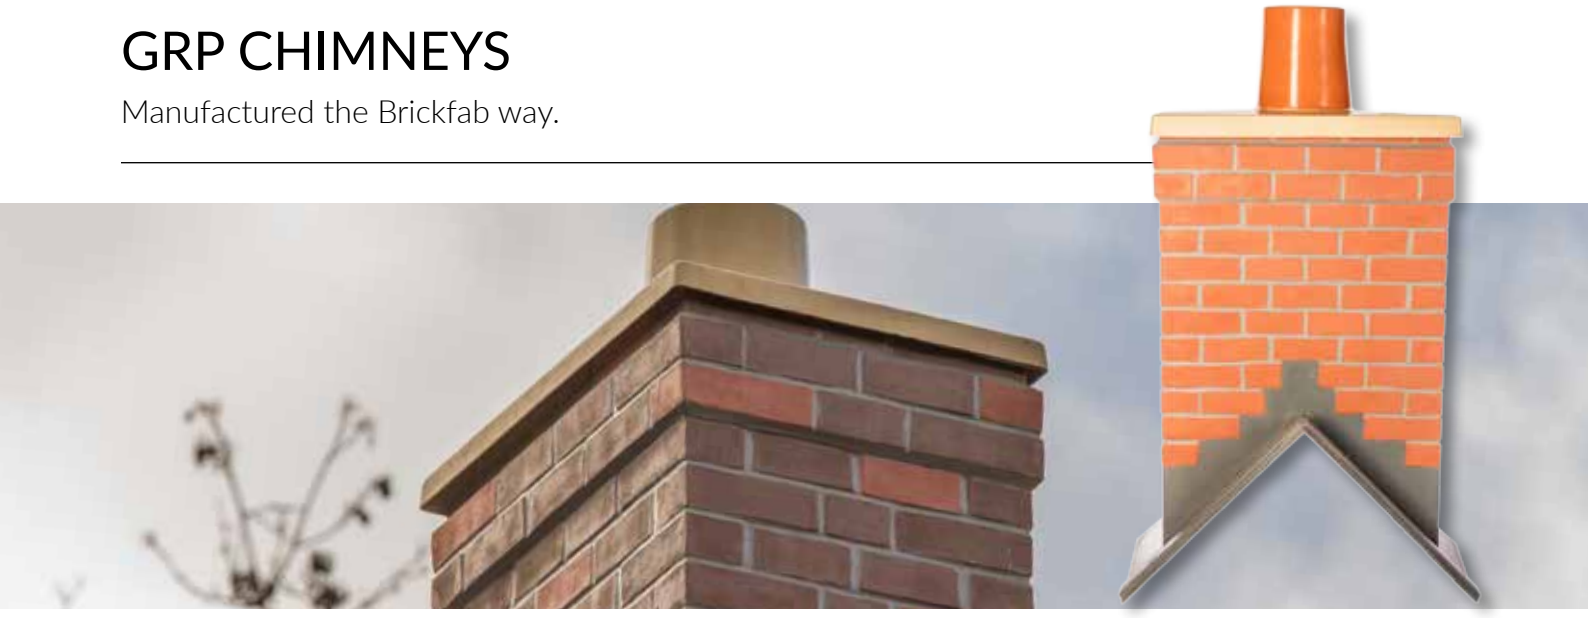

BRICK SPECIALS

Cut and bond angles, plinths and more.

GRP CHIMNEYS

Manufactured the Brickfab way.

GRP CANOPIES

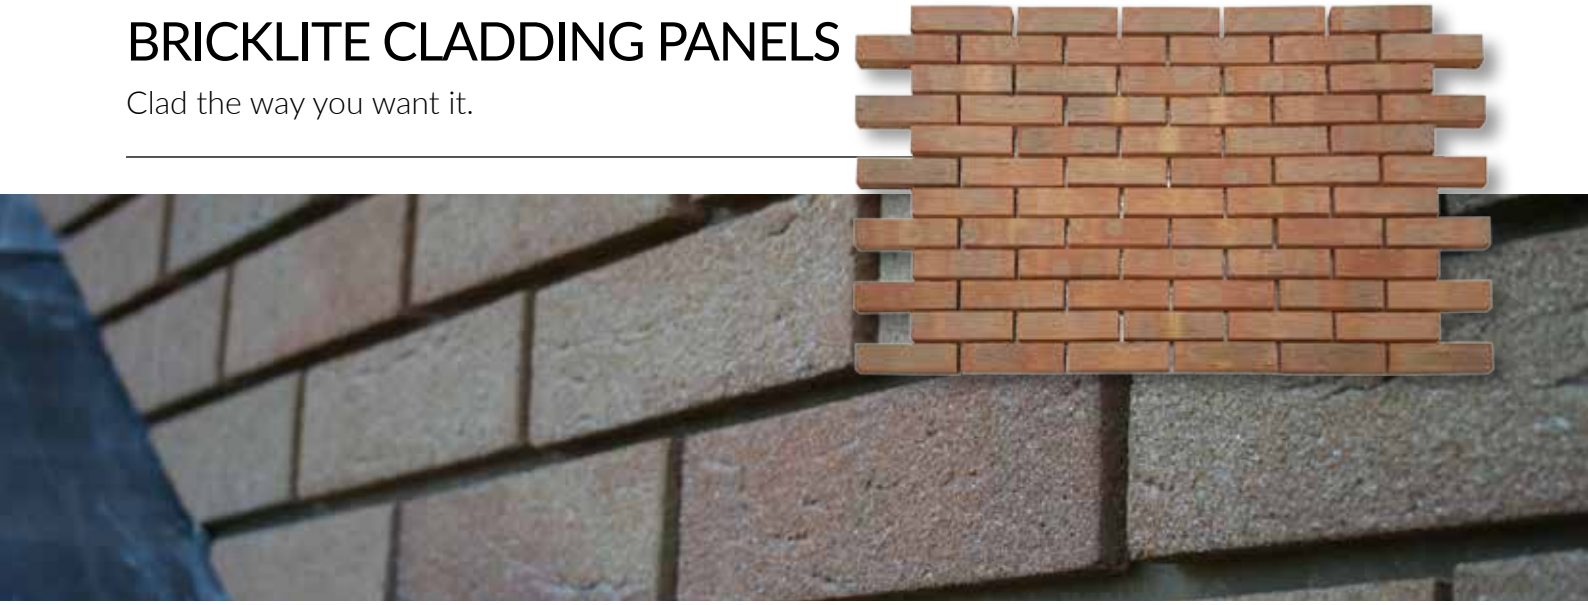

The finishing touch for any doorway.

BRICKLITE CLADDING PANELS

Clad the way you want it.

TOTAL SUPPORT

How do we maintain our reputation for offering the best customer service in the industry?

By treating our people, customers and suppliers with the same level of honesty and consideration.

Everyone in the industry says they have the best customer service, and it's an easy claim to make. That's why here at Brickfab we don't just want to claim to be the best – we want to prove it.

We value our people above all else; their satisfaction and input ensures a quality service for our clients and happier stakeholders at all levels. Our on-call teams will visit your site to recommend the right construction solution and help you measure up, collecting bricks to return them in just the form you need at industry-leading speeds – we'll even deliver in individual plot pallets for your convenience. It is our honest goal to be the first choice for our people, customers, suppliers and investors.

Site visits ensure we understand the exact requirements of your housebuilding scheme

WORKING HARD TO GUARANTEE QUALITY

How do we ensure you get the best quality building products, every time?

Through hard work and a dedication to always improving our working processes

There's a good reason why our customers stay our customers long after that initial purchase – we work hard to ensure our products are fit for purpose first time, every time. Our brick products are manufactured and conform to BS4729 to ensure our customers of the quality we provide, and our production teams operate to Kaizen (continuous improvement) and lean manufacturing principles. In this way we improve quality and reduce lead time.

The same principles apply to our customer service; we improve through innovation and a genuine commitment to each other, our customers and suppliers.

And that's just the Brickfab way... simply better.
