

Our **quietest**
bathroom fan.
Fact.

GH[®]ST™
AIR MOVEMENT
TECHNOLOGY

**NO MORE
SLEEPLESS NIGHTS.**

14.5m

An estimated 14.5m UK adults have
a noisy bathroom fan in their home

1 in 4

1 in 4 UK adults describe their
bathroom fan as 'annoyingly noisy'

1 in 10

More than 1 in 10 UK adults have been
woken up or kept awake by a noisy
bathroom fan

33%+

More than 1/3rd of the British public
is affected by a chronic lack of sleep

**The revolution in bathroom
fans starts here.**

INTRODUCING THE

Xpelair® Simply Silent™ Contour.

Effectively eliminates
humidity, condensation and
odour to improve air quality
in bathrooms, shower rooms,
cloakrooms and toilets.

Other bathroom fans claim to be quiet. The Simply Silent™ Contour range uses advanced Ghost™ Air Movement Technology to deliver near-silent running. Plus, it's stylish, simple to install and maintain, and it comes with a two-year warranty. It's truly revolutionary.

Simply Silent™

Near-silent running minimises disturbance from noisy bathroom fans for a peaceful night's sleep.

Simply Beautiful

The stylish fascia – available in square or round – blends seamlessly with the surrounding decor.

So Simple Installation

A range of smart and innovative features enables a quick, simple and hassle-free installation.

So Simple Maintenance

The sleek, smooth fascia – which acts as a protective shield against dust and grime – may be removed with ease for cleaning.

Compliant

Rest assured that the Simply Silent™ Contour range complies fully with Building Regulations Part F and Part L.

IPX4 rated

The Simply Silent™ Contour range is suitable for safe installation in bathrooms providing extra protection and peace of mind.

Two-year warranty

As a measure of our confidence, every Simply Silent™ Contour bathroom fan comes with our two-year UK warranty.

GHOST™
AIR MOVEMENT
TECHNOLOGY

Simply Silent™ With Ghost™ Air Movement Technology

The Simply Silent™ Contour range features unique, innovative Ghost™ Air Movement Technology to deliver near-silent running.

Fan noise comes from both the motor and the movement of air. To combat this, Ghost™ Air Movement Technology uses long-life silent running motors and precision engineered components to avoid all forms of mechanical noise. Advanced air flow management eliminates turbulence and irregular air flow paths within the fan.

A look inside

1

Flow straighteners guide air through the duct, **reducing turbulence.**

2

Long-life ball-bearing motors **prevent motor noise.**

3

Optimised impeller blade design, **maximising performance whilst minimising noise.**

4

A cone behind the front baffle directs air straight onto the impeller for **optimal airflow efficiency.**

Simply Beautiful

Sleek. Smooth. Subtle.

The Simply Silent™ Contour range of bathroom fans has been designed to blend seamlessly with the surrounding decor. Discover the beauty of silence.

The sleek, smooth fascia is available in interchangeable options – square or round – to suit all applications and design preferences. You won't even know it's there.

So Simple Installation

Fuss-free fitting

Twist and clip cover

Radial fixing points and level reference line

Larger cable access

Screwless hook and clip cover

The flexible Simply Silent™ Contour suits wall, ceiling, panel or window installations. So Simple Installation makes fitting quick and hassle free – wherever it's positioned.

It's all thanks to a range of clever features – like the built-in So Simple quick-fit clamp that allows the fan to be secured simply to ceilings and panels. Larger cable access slots enable easy wiring.

Three adjustable radial screw fixing points and level reference line ensure flexible and accurate fan alignment.

The duct is strengthened to avoid breakage and distortion during installation. Plus, the Simply Silent™ Contour has a hook and clip fan cover – no screws.

Simply Silent™

Wall Kit

The revolutionary Simply Silent™ wall kit allows fitting of the outer grille from the inside. Simply push the folded grille through the walltube and pull the attached string back to secure on the outside wall. Available in four different grille designs, the kit comes complete with walltube.

So Simple Maintenance

Quick and easy cleaning

The Simply Silent™ Contour range has been designed to make cleaning and servicing as simple as possible for the homeowner. We call this So Simple Maintenance.

The sleek, smooth fascia is wipe-clean – just use a cloth. Or, for a more thorough clean, a twist-and-click mechanism allows the fascia to twist off for cleaning inside. The fascia may then be cleaned in a sink. Maintenance really is So Simple.

Simply Silent™ CV

Constant Volume Fan Range

4"/100mm constant volume extractor fan for the effective control of humidity, odours and mould growth in bathrooms, shower rooms, cloakrooms, toilets and kitchens.

The Simply Silent™ Contour CV combines all the benefits of the Simply Silent™ Contour with Constant Volume technology. This adjusts the speed of the fan automatically, ensuring the correct airflow. Additionally, an integral hour run meter shows exactly how long the fan has been running.
