The Future of Site Safety and Efficiency at an Unbeatable Price

Roadway tread

Walkway tread

Quality Protection Without the Premium Price

Lightweight, Durable and Easy to Install

- Maximise site safety without breaking the bank - a cost-effective solution that reduces slip and trip hazards.
- Light in weight and robust in performance - easy to handle and stands up to heavy-duty use.
- Versatile and reversible, with a walkway tread on one side for pedestrians and a roadway tread on the other for vehicles.
- Reliable steel 'clip' joiners ensure a secure and straightforward setup, reducing installation and de-rig time.
- Moulded from recycled premium grade HDPE, ensuring top-notch durability while promoting eco-friendly practices.

Overall Size: 2.4m x 1.2m x 12mm
Surface Area: 2.88m²
Weight: 38kg
Connectors: Choice of bolted or wire joiners
Material: 100% Recycled HDPE
Load Capacity: 60 tonne
