SPECIAL SHAPES FRAMES AND MATTING

Price Calculation for Circular Divided Entrance Mats and Frames

The red lines in the following drawings indicate the extra charge for the cutting of mats or frames. The prices of circular mats depend on how mats are divided. The mat area and the circumference of the curve will be calculated. These two positions form the basic price for the four variants of circular divided mats.

We are happy to make a detailed offer with drawing for custom-made variants. Please ask for our planning installation service.

Typ 1: +-Dividing	Typ 2: Y-Dividing	Typ 3: X-Dividing	Typ 4: 6-Dividing
Extra charge only for circular cutting (highlighted in red)	Extra charge for circular cutting and four diagonal cuttings (highlighted in red)	Extra charge for circular cutting and eight diagonal cuttings (highlighted in red)	Extra charge for round cutting and gap (highlighted in red)
			

Extra costs will be added to the basic price.

Price Calculation for Custom-Made Options with Gaps, Diagonal Cuts and Curves for Frames and Matting

The red lines in the following drawings indicate the extra charge for the cutting of mats or frames. We always charge the actual area and add the costs for the cutting versions a, b or c. Depending on the shape of the mat or frame to be produced, all three cutting options may be charged once or several times for calculating the price. We are happy to make a detailed offer with drawing for custom-made options. Please ask for our planning installation service (digital measurement).

a) Gaps	b) Diagonal Cuts	c) Curves
(highlighted in red)	(highlighted in red)	(highlighted in red)
		

Extra costs will be added to the basic price.

Choose between bright red, luminous yellow, and more colours for your individual design concept. Any Top Clean version is available in your preferred colour. For powder-coated versions you can select any RAL colour.

INDIVIDUAL DESIGN – INDIVIDUAL PROFILE COLOURS

Colours have an impact unlike any other design element. No matter if compositions are harmonious or rich in contrast, they are essential for the atmosphere of a room. In order to make our entrance matting systems particularly effective for design, we offer a broad range of powder-coated profiles in any RAL colour. Any TOP CLEAN aluminium profile may be added to support your design concept. We create entrance mats with efficient dirt collection according to your requirements – this gives our customers great flexibility when it comes to individual design preferences.

Combined with the colours of ribbed carpet and brush profiles, a multitude of design concepts may be put into practice. How about a classy design with all-black profiles and ribbed carpet, or deep-red ribbed carpet and scraper bars for a concept that is rich in contrast?

HIGH-QUALITY UPGRADING: ANODIZED PROFILE SURFACE WITH CORROSION PROTECTION

Anodized aluminium profiles have a very hard, scratch-resistant surface. This exclusive upgrade also provides a powerful protection against corrosion. Thanks to this technique, the profiles are suitable for use in outdoor areas and are resistant to chemicals. Anodized profiles are hardly more expensive than powder-coated profiles – an investment that is worth it!

We apply a procedure in which the colour is a part of the anodized layer, which makes it abrasion-resistant. Our standard colours are natural aluminium and variants in light bronze, medium bronze, dark bronze and black. Special colours are available for systems with a short bar length.
