Precision Extrusions

Naylor Specialist Plastics manufactures a wide range of plastic extrusions for a diverse range of industries. We use the latest state of the art extrusion machinery in our 28,000 square feet manufacturing area. In addition to our extrusion plant, we have comprehensive tooling support and hold large stocks of raw materials, enabling the shortest possible lead times.

MATERIALS

Naylor Specialist Plastics can manufacture extrusions in a wide range of materials. Flexible or rigid, coloured or transparent with many other combinations possible by co-extrusion. Our standard range of materials include:

- **PVC (flexible and rigid, cellular and high impact)**
- **ABS**
- **Polypropylene**
- **Polystyrene**
- **Polyethylene**

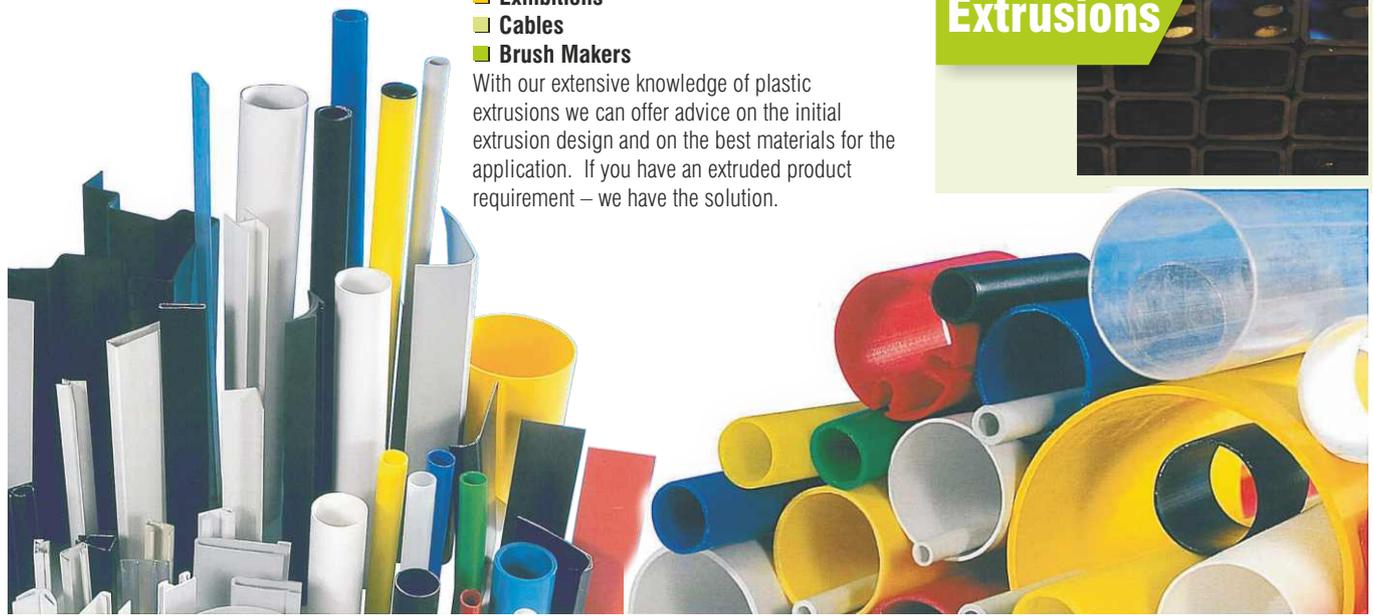

If the material you require is not listed – contact us on

0121 522 0290

The versatility of the thermoplastic materials used means that our extrusions are used in a wide variety of markets including:

- **Telecommunications**
- **DIY**
- **Flooring**
- **Furniture**
- **Automotive**
- **Signs and Displays**
- **Packaging**
- **Domestic Appliances**
- **Marine**
- **Building**
- **Aerospace**
- **Hoses and Tubes**
- **Pipes and Ducting**
- **Exhibitions**
- **Cables**
- **Brush Makers**

With our extensive knowledge of plastic extrusions we can offer advice on the initial extrusion design and on the best materials for the application. If you have an extruded product requirement – we have the solution.

Shapes & Profiles

Tubes of many shapes and profiles can be manufactured from a wide variety of materials & colours with secondary operations as required

Precision Extrusions
