

## Keystones

Generated on 02.10.2017

### Detailed description

Cast stone keystones, generally used to finish arches around windows and entrances.

Can be integrated into the window head or supplied on its own. All heads are non-loadbearing components, and must be used in conjunction with a suitable load-relieving lintel.

### Options

Type:

#### - Projecting keystones:

- Size (h x w x d): 290 x 150/ 250 x 100 mm.
- To be used with 215 mm or 290 mm high lintels only.
- Supplied in a minimum of three pieces.

#### - Flush keystones:

- Size (h x w x d): 215 x 130/ 290 x 100 mm.
- To be used with 140 mm or 215 mm high lintels only.
- Supplied in one piece.

A wide range of non-standard keystone types is available – consult manufacturer and requirements. Keystones to suit lintels in render are also available.
