

## String Course

Generated on 02.10.2017

### Detailed description

String course, also known as a band course, is used as a horizontal feature within a wall. Procter Cast Stone string courses help break up large expanses of brickwork. A string course can either be installed flush with the wall, or in some instances the design may dictate that it projects slightly.

### Product guidance - As Standard

Size (h x w):

- String Course Type 1: 85/ 50 x 150 mm.
- String Course Type 2: 140/ 100 x 150 mm.
