

## Special Features

- ▲ VANDAL RESISTANT DESIGN
- ▲ INTEGRAL SHROUD
- ▲ HYGIENIC ONE PIECE CONSTRUCTION
- ▲ EASILY AND QUICKLY INSTALLED AT ADULT OR JUNIOR HEIGHT
- ▲ AVAILABLE WITH **Enviro-Glaze** COLOUR FINISHES

## Description

The urinal bowl is easily wall mounted at adult or junior height and incorporates an integral shroud that conceals the waste outlet and trap area. Designed for exposed or concealed pipework, the urinal is available in a single bowl or range form complete with automatic cistern and feed pipes.

The urinal is manufactured in one piece without joints or crevices from 304 grade stainless steel, with all exposed surfaces polished to a satin finish.

The shaped bowl and spreader assembly ensures an efficient spread of flushing water over the internal surface.

The integral shroud that conceals the waste outlet and trap can be easily cut away, during installation, to suit locations with exposed surface mounted pipework.

Available as a single bowl or in range form of 1, 2, 3 or 4 urinals. The bowl urinal ranges are supplied with an automatic cistern, flushpipe and feedpipes. Each urinal is supplied with an integral 32mm flush grated waste, spreader assembly and water inlet connector.

## Options

- ▲ Stainless steel wall divider panel.
- ▲ Stainless steel automatic cistern product code 131
- ▲ Available with **Enviro-Glaze** colour finishes including white
