Multiple mailboxes | 3700

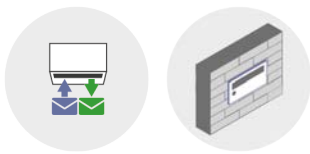

# 3700-1

This new and unique mailbox design by DAD was created to combat the threat of fishing and mail theft. The mail is delivered through the flap and over the anti theft device before dropping down a 45 degree chute to the back of the box. The door can only be opened using a key with protected profile (copies only available from our factory). Ideal for apartment blocks, student accommodation and large volume banks of mailboxes. Mailboxes compliant to SBD Homes 2019.
