

# RESIDENTIAL AND LANDSCAPE Domestic Drainage Channel

## The perfect drainage channel for domestic applications

Manufactured from recycled polypropylene, CD 422 delivers aesthetic appeal, is quick to install and easy to maintain.

Clark-Drain's choice of black plastic 'snap-lock' or galvanised steel slot gratings (CD 425) provide the perfect finish to driveway threshold and patio projects.

A full range of accessories are available and features such as 'spring-lock' connections are designed to aid simple and fast installation.

## Typical applications

- Garage thresholds
- Pedestrian areas
- Patios
- Paths
- Gardens
- Play areas

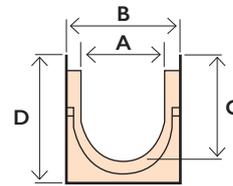

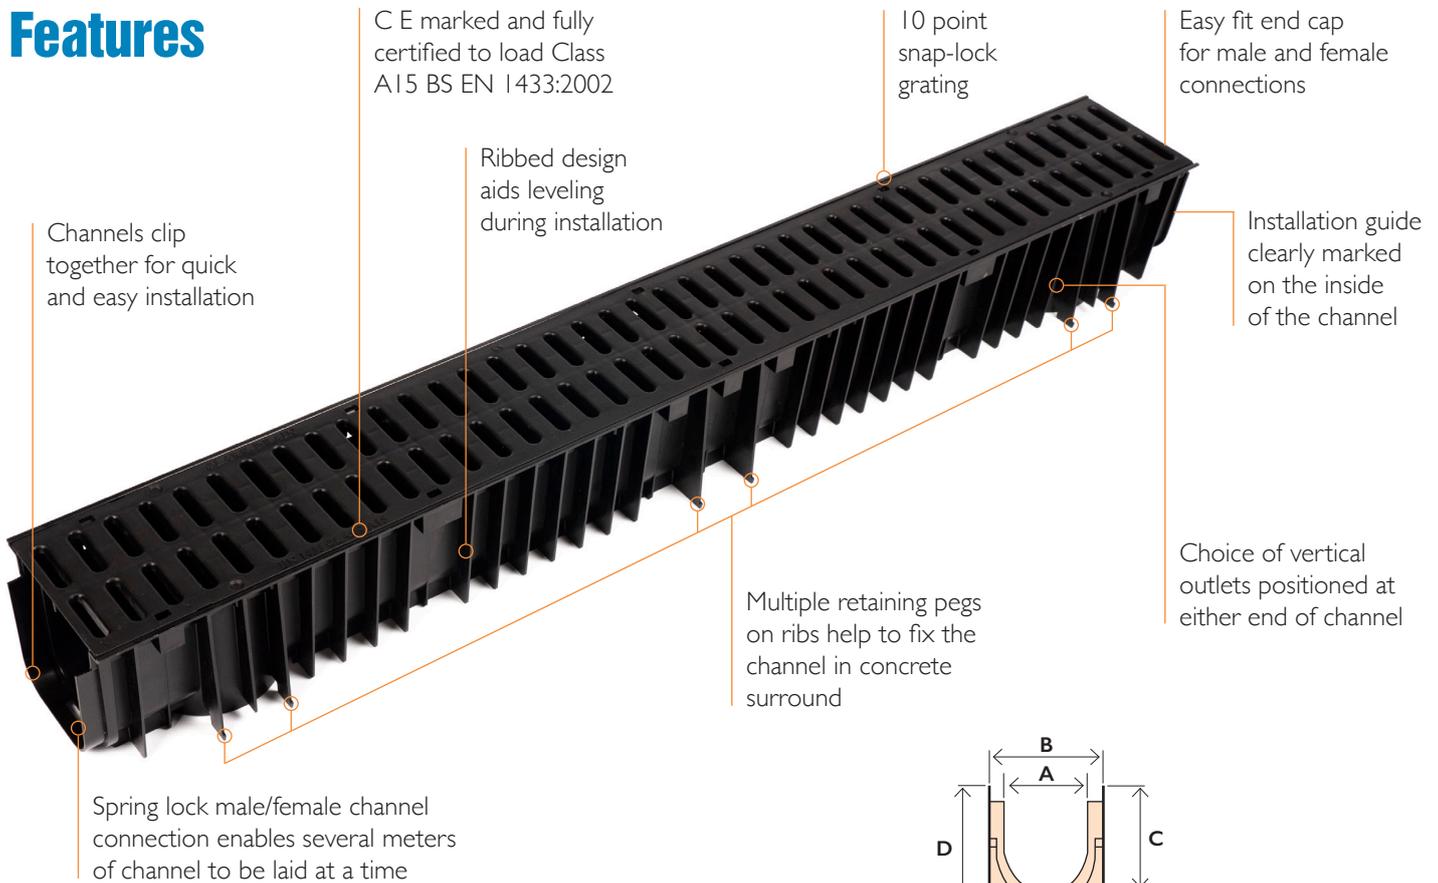

A15 products are tested to a loading of 1.5T and are not suitable for trafficking by heavy domestic vehicles such as 4 x 4s or SUVs. If in doubt use a B125 (12.5T) or greater loading.
