

THE CLARK-DRAIN AQUA KNIGHT RECESSED COVER AND FRAME

A LOW COST SOLUTION FOR HIGH WATER TABLE AREAS

IN HIGH WATER TABLE AREAS WHERE PRESSURE CONCENTRATION IN ACCESS SHAFTS CAN SOMETIMES LEAD TO COVERS BEING FORCED OUT, CLARK-DRAIN OFFERS A COST EFFECTIVE ALTERNATIVE TO MORE EXPENSIVE 'DOUBLE COVERS' TO OVERCOME PROBLEMS OF PRESSURE BUILD UP.

For internal applications where sealing against odour and water egress is essential, Aqua Knight provides a recessed tray which can be filled with a variety of floor coverings such as screed, carpet tiles and many more, leaving it virtually invisible to the eye once installed.

Designed to deliver a 5 tonne (GPW) load rating, Aqua Knight provides significant improvements in relation to:

- Health and safety
- Maintenance access
- Strength and durability
