# PROREND PAINTS

## Advanced Silicone Masonry Paints

# PROREND MASONRY PAINTS

## Advanced Silicone Protection for Modern Facades

**High-performance, breathable masonry paints designed to protect and enhance modern façades. Suitable for new build and refurbishment projects.**

**Advanced Water Repellence**
Available in Water Repellent and Self-Clean ranges, delivering a durable, weather-resistant finish that keeps façades cleaner for longer.

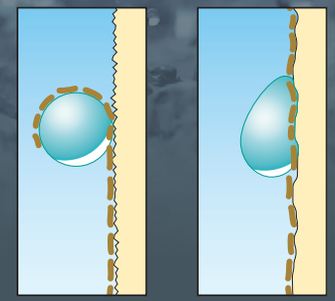

**Self-Clean Technology**
Hydrophobic technology repels water and dirt, allowing rainfall to wash away contaminants and reduce maintenance.

## THE SELF-CLEANING EFFECT

**Inspired by nature, our Self-Clean Masonry Paint uses advanced hydrophobic technology to repel water and dirt.**

Rainwater beads and rolls across the façade, lifting contaminants away and reducing maintenance - keeping façades cleaner for longer.

*This innovative formula creates a microscopic textured surface with a high contact angle (140°), forming a hydrophobic finish that allows water to carry dirt away as it moves.*

## DESIGNED FOR PERFORMANCE

Engineered for flexibility, our silicone paints accommodate substrate movement while maintaining a durable, protective finish.

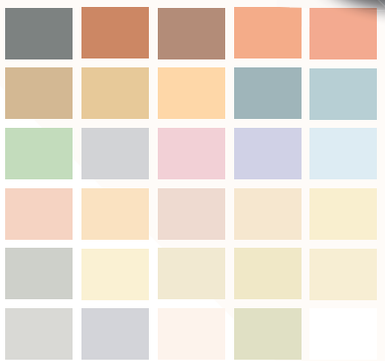

- 65,000+ Colours Available
- Simple 2-Coat Application
- Highly Water Repellent
- Vapour Permeable Finish
- Low Maintenance & Easy Repair

## EXPANSIVE COLOUR RANGE

Discover a palette of 30 popular colours within our standard range.

For a truly personalised touch, we offer the flexibility to create bespoke paint colours. Available in RAL, NCS and BS colours, or matched to your exact specification.

**Request a free sample of your selected colours today.**
