

# GUTTERmaster

ALUMINIUM IN CONSTRUCTION

## Product Data | Slimline Minimal Rainwater Pipe

The Guttermaster Slimline Minimal aluminium rainwater pipe system is an affordable solution to suit any application where external rainwater drainage is required, with modern sockets that create an unobtrusive connection between components.

**Specification clause:** R10

**Product:** Slimline Minimal aluminium pipe system

**Manufacturer:** Guttermaster Limited, Healey Works, Shawclough Road, Rochdale, OL12 6ND

**Material:** Marine grade 6063T6 aluminium to BS EN 755

### Product description:

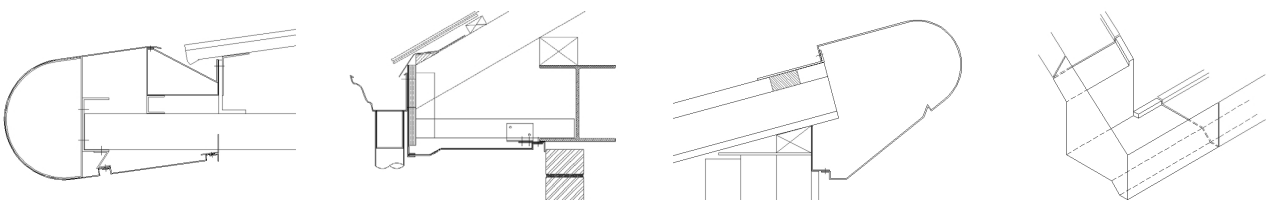

- Available in 63mm, 76mm, 102mm, & 152mm diameters
- Stocked in 3000mm lengths
- Fully customisable components to suit any on-site conditions, such as eaves projections, drainage connections, and bracket off-sets
- Compatible with all Guttermaster pressed, extruded, and cast gutter systems
- Functional life expectancy of 40+ years
- High corrosion resistance
- Minimal maintenance
- Fully recyclable
- Lighter and safer to handle than other metal rainwater pipe systems

### Finishes:

All Guttermaster products can be supplied in a wide-range of finishes to best suit the application and compliment the surrounding components, including:

- Polyester powder coated to BS EN 12206-1:2004
- Anodised (A1 fire rating)
- Mill finish
