Paroc Panel System

SHAPED MODULES

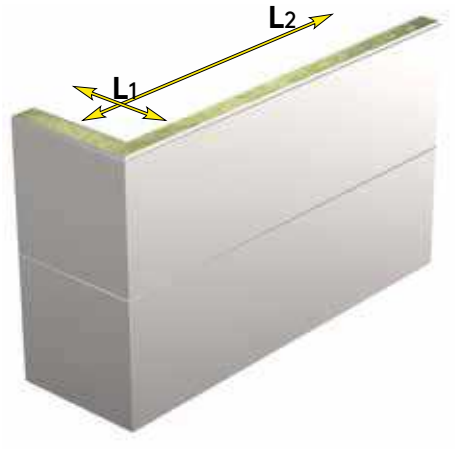

Paroc Panel System shaped modules set your creativity free. They give your building facade more aesthetic and unique look.

PANEL INFO

Corner Panels

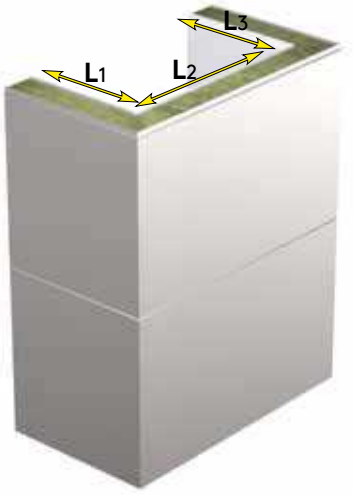

Paroc corner panels form sharp corners without any flashings. For horizontal installation. Corner panels can be made from all panel models.

Available in all thicknesses from 50-200mm

“U” Panels

Paroc U-panels have sharp corners. Use them for a range of applications, such as to cover bearing structures. For horizontal installation. U-panels can be made from all panel models.

Available in all thicknesses from 50-200mm

Rounded Corner Panels

Paroc rounded corner panels smoothen the shape of a building and combine the corners to the facade. For vertical installation. Rounded corner panels can be made from all panel models.

Available in all thicknesses from 50-200mm

Rounded U-Corner Panels

Paroc rounded U-panels bring variety to a facade. Use them, for example, to create rhythmic shapes in facades with an external frame. For vertical installation. Rounded U-panels can be made from all panel models.

Available in all thicknesses from 50-200mm

Bevelled Panels

Paroc bevelled panels allow the use of very narrow flashings in corners. They are for horizontal and vertical installation and can be made from all panel models.

Available in all thicknesses from 50-200mm

Radius Panel

Paroc radius panels smoothen the shape of a building and bringing its attractive look. For vertical installation. Radius corner panels can be made from all panel models.

Available in all thicknesses 80-100mm, minimum radius 1500mm
