

wedi Vapor 85 & wedi 620

The perfect combination of vapour barrier and sealing

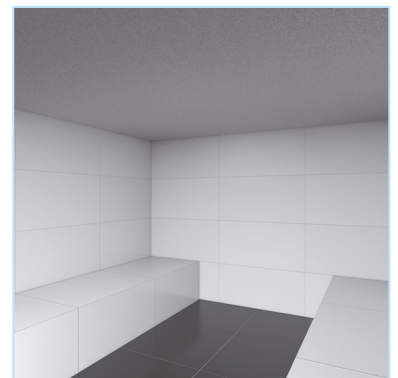

wedi Vapor 85 is a special building board with a pre-integrated vapour membrane barrier applied in the factory and is perfect for challenging applications in areas with high levels of humidity. For reliable sealing of connections, butt joints and intersections the high-quality single-component wedi 620 sealant is recommended alongside wedi Tools sealing tapes, sealing corners and sealing gaiters.

wedi Vapor 85 is direct bonded onto metal stud frames with the use of wedi 610 adhesive sealant...

... seal all joints with the combination of wedi Tools sealing tape and wedi 620 sealant ...

... and finally tile, or optionally apply plaster.

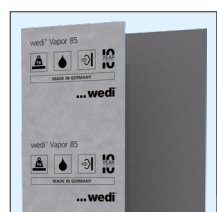

Vapour barrier and moisture guard

Products used

- 1 **wedi Vapor 85** ■ building board with a polymer modified mortar and alkali-resistant fiberglass mesh coating and pre-integrated vapor membrane barrier on one side (SD value: 92 m)
- 2 **wedi 620** ■ system component for sealing of wedi building boards with pre-integrated vapour membrane barrier applied in the factory (wedi Vapor 85), wedi sealing membranes (wedi Subliner) and wedi Tools sealing tapes, sealing corners and sealing gaiters
- 3 **wedi Tools sealing tape** ■ for reliable sealing of intersections and butt joints
- 4 **wedi 610** ■ system component for adhesion and sealing of wedi building boards and wedi Fundo shower elements

wedi Vapor 85 building board ■ with pre-installed vapour barrier
