| Sector: | Residential |
| Room Type: | Kitchen |
| Specifier: | William Tozer Associates |

This modern kitchen formed part of an extension and refurbishment of a terrace house in London by William Tozar Associates.

GEC Anderson was commissioned to measure, manufacture and install two made to measure brushed satin stainless steel worktops for the complete kitchen refurbishment,

The main worktop included an integrated sink (A70).

The stunning rooflights allow the stainless steel to reflect the sunlight within the open plan kitchen area.

EN 1.4301 grade brushed satin stainless steel was used throughout.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
