

**UNIQUE BLUE SEAL  
WITH INTEGRATED  
LUBRICANT**

**SUPER-EASY INSTALLATION  
IS NO COINCIDENCE**

The new Wavin AS+ represents the ultimate in noise reduction and performance. And that's no coincidence. The Wavin AS+ is composed of unique high-density material, features specially developed noise reducing brackets

and is perfect for buildings large and small. With its sculptured spigot and self-lubricated blue seal our latest AS+ is not just super quiet, but super-fast and easy to install.

# INTRODUCING NEW WAVIN AS+

# WAVIN AS+ IS PACKED WITH FEATURES

# WAVIN SOUNDCHECK TOOL

Integrated lubricant  
lowers push-in force

Blue seal's shape  
guarantees leak-free,  
failure-proof installation

Unique material  
composition delivers  
perfect sound absorption

Compact design perfect for  
small and narrow spaces

Sculptured spigot  
reduces push-in force with  
50% compared to Wavin AS

## ULTIMATE NOISE REDUCTION, HIGH LEVEL PERFORMANCE

The new Wavin AS+ has been designed to meet the needs of engineers and installers. On top of 30 years of experience, we spent over a hundred thousand hours on noise level testing, explored new materials and invested heavily in developing a seal with integrated lubricant lowering push-in force. This is why we can confidently say that the ultimate noise reduction and super easy installation delivered by the new Wavin AS+ is no coincidence.

## CALCULATING SYSTEM ACOUSTICS JUST GOT EASIER

With noise regulations continuously being updated, calculating noise levels to ensure your design meets requirements can be a complex exercise. Wavin's online SoundCheck Tool is designed to relieve some of that stress.

Unique to Wavin, the SoundCheck Tool simulates system acoustics in a final installation and calculates noise levels based on individual parameters. In just six clearly defined and intuitive steps, you can get the answers you need to see if your design meets regulations.
