# Schlüter®-PROFILES

Find the perfect style & finish

Complement or accent any tile & stone design

## Schlüter®-PROFILES

Find the perfect style & finish

Profiles provide the finishing touch for your tile or stone installation, covering exposed edges and smoothing transitions between surfaces. This is where it all began for Schlüter-Systems, when in 1975, founder Werner Schlüter created the original edge protection profile, Schlüter®-SCHIENE.

Today, we offer a palette of designs, textures and materials with hundreds of possible combinations, enabling you to achieve the perfect balance of aesthetics and practicality.

# Finish spotlight

#### Chrome Plated Brass (MC)

This finish is designed to provide the best match to the most popular brassware; it combines the hard wearing qualities of brass with the high end appearance of chrome plating. The result is a profile that is extremely high quality in every regard.

## Schlüter®-TRENDLINE

Texture coated tile trims to suit any design choice

Inspired by modern interior design trends – natural finishes, classic black and white, or stylish concrete looks, the coloured textured coatings from the profile series Schlüter®-JOLLY, -RONDEC, -QUADEC, -FINEC & -DILEX-AHK feature true to-the-touch textures and are beautiful aesthetic matches to match modern design trends:

**GREIGE**From timeless elegance to Mediterranean flair.

CONCRETE
From classic chic to
purist minimalism

WOOD
From natural feel to rustic elegance

From vintage to industrial design.

**BLACK & WHITE**Perfectly complements
classic tiles styles.

#### **Aluminium finishes**

anodised aluminium

Brushed antique bronze anodised aluminium
