

AN INNOVATIVE

Approach

Schlüter-Systems

OUR *History*

When the young master tile installer Werner Schlüter was laying tiles in a bathroom, he hit on the idea of using Schlüter®-SCHIENE, a metal profile he invented to finish, protect and to make the installation last its intended lifetime. This was the beginning of a successful career as an entrepreneur and the birth of Schlüter-Systems. Essentially a simple but practical idea, something which all of our products have in common today.

Werner Schlüter

SCHLÜTER *Today*

Schlüter-Systems is now the largest and most innovative manufacturer of system solutions for the function, protection & decoration of tile and natural stone in the world. In 2011, Werner handed over to his sons, Marc & Udo Schlüter, but the company's commitment to innovation, its culture and its ethos remains the same to this day.

Udo Schlüter

HOME IN THE *United Kingdom*

Joachim Backes

The UK offices were established in Leicestershire in 1993 with Joachim Backes taking the helm in 2013. The company now has over 50 employees providing full sales, specification, marketing, technical and training support services for the UK and Ireland.

APPLICATION *Gallery*

The Application Gallery is a purpose-built facility dedicated to the display of Schlüter products in situ. Opened in 2017 and located at the UK offices, it showcases where and how our products are used, and the design possibilities that can be achieved with tile and stone in the modern living and leisure environment.

OUR *Vision*

We are a family-owned group of companies. Our knowledge, professional expertise and thorough understanding of the market allow us to provide innovative solutions and services based on the specific needs of the industry.

“ To be the essential choice of our industry, through all of our products, services and relationships. ”

The loyalty of our clients and the strength of our brand are achieved through comprehensive, high-quality installation systems for tile and stone, education based marketing, and our commitment to accessibility.

This is what makes us *different.*

OUR *Services*

When it comes to support and service, you can rely on Schlüter-Systems to deliver above and beyond.

We boast a wealth of experience working with architects, specifiers, designers, tilers and contractors providing solutions and support for all manner of projects — from the renovation of renowned historic landmarks to superb and innovative new-builds.

We endeavour to make our products accessible and easy to specify and install.

Product Training & Guidance

BIM Objects & Product Clauses

Advice & Confirming Compliance

Sample Service

Continued Project Support

Comprehensive CAD Drawings

INDUSTRY Training

Our ethos, outlined by company founder, Werner Schlüter, underpins our educational focus. We have crafted each of our 10,000 products in order to benefit the architect, the installer and the end user.

Knowledge of our products enables quicker, more efficient and effective installations. Once you understand our products, you won't look back.

INDUSTRY
PARTNER

OUR *Products*

“

*Our products cannot be sold,
they must be understood.*

Werner Schlüter

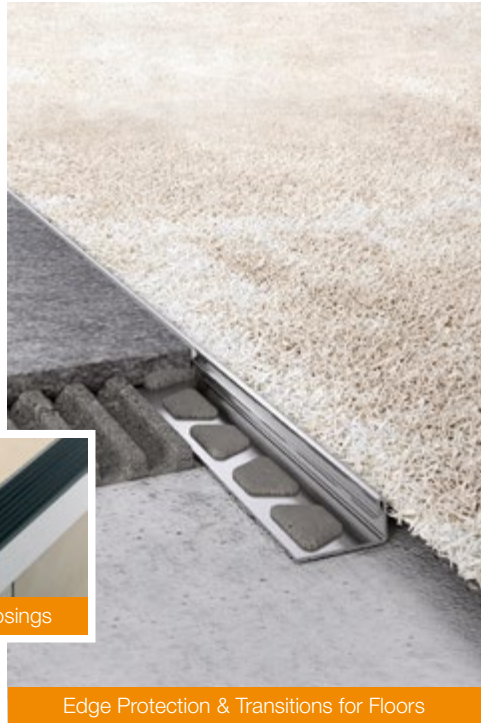

TILE & STONE

Trims

Schlüter-Systems invented edge profiles for tiles over 50 years ago when Werner Schlüter introduced the industry to Schlüter®-SCHIENE.

Today it remains our most popular profile and is synonymous with innovation, quality and durability. Schlüter-Systems offers a complete range of floor and wall profiles, providing edge protection, decoration & function.

Wall Edge Protection

Movement Joints

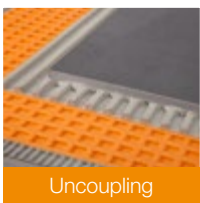

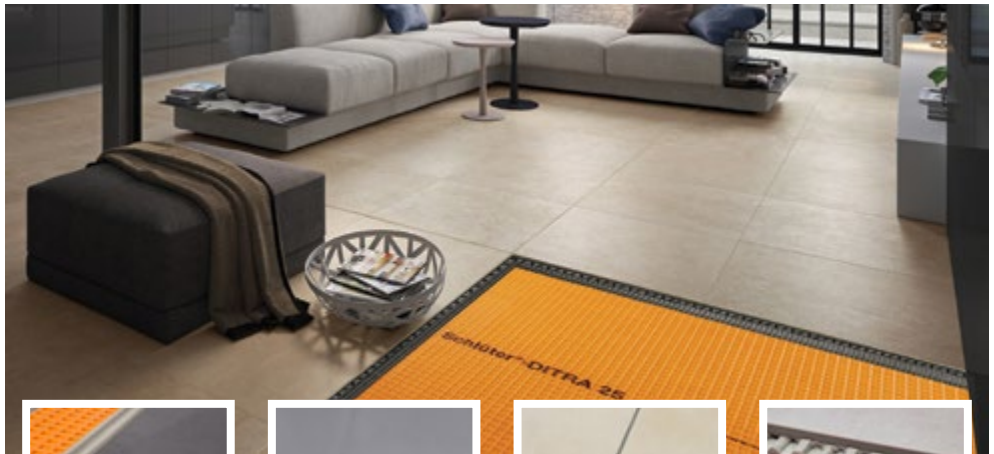

Stair Nosings

Edge Protection & Transitions for Floors

THE ORIGINAL *Uncoupling*

In 1987 Schlüter-Systems developed uncoupling membranes with the introduction of the revolutionary Schlüter®-DITRA 25. Today that name is firmly established as the market-leading solution for uncoupling.

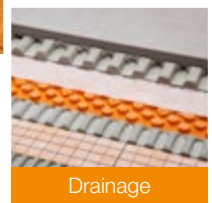

Uncoupling

Undertile Heating

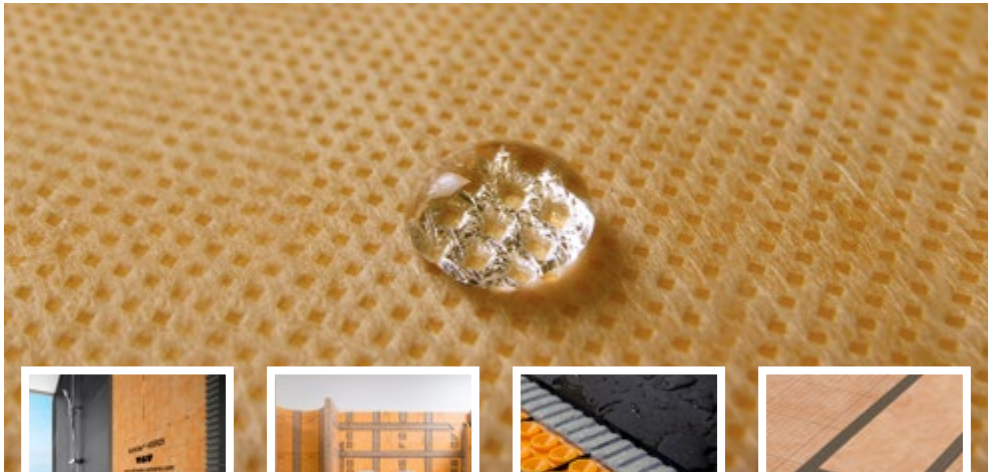

Sound Reduction

Drainage

WATERPROOF *System*

The Schlüter®-KERDI range features waterproofing membrane KERDI-200 and waterproof backerboard KERDI-BOARD for walls, as well as DITRA for floors, which has been providing a tried, tested and trusted waterproofing and uncoupling CE Marked system for over 35 years.

Wall Membranes

Backerboards

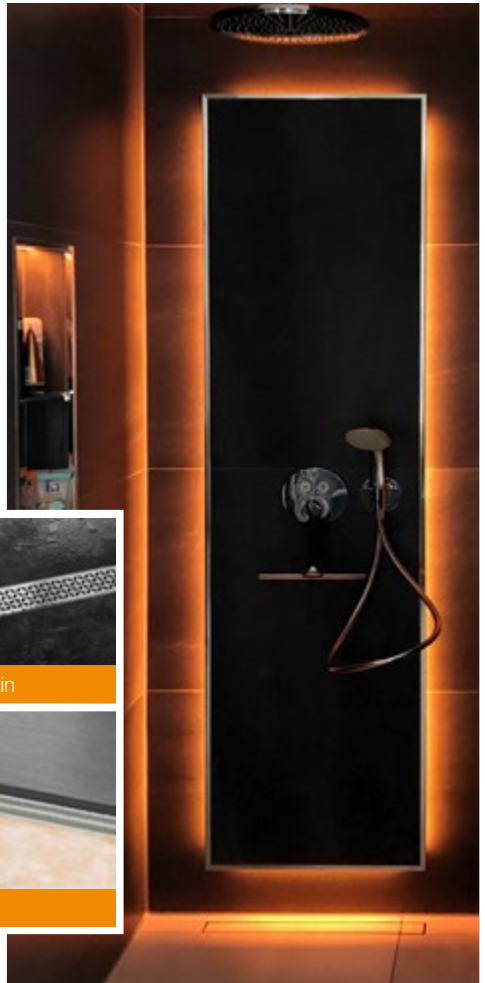

Floor Membranes

Sealing Components

SHOWER *Drainage*

Schlüter-Systems has designed an integrated wetroom system that can be used in showers, bathrooms and changing rooms. It provides guaranteed waterproofing and drainage that work together in one solution, ensuring the water only goes where it should.

Point Drains

Linear Drain

Tileable Pre-Formed Shower Trays

UNDERFLOOR Heating

The range of underfloor heating systems has been developed to provide unique solutions for both new-build and refurbishment projects. Our approach proves how combining heating, uncoupling, crack bridging and screed assemblies into a single system from one supplier saves time, money and materials.

Water Underfloor Heating

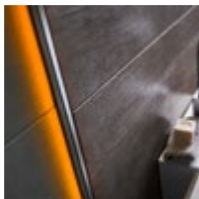

Electric Underfloor Heating

ACCENT *Lighting*

Intelligent lighting combined with first class profile technology, LIPROTEC allows you to emphasise and accent a myriad of features across any room you desire.

A choice of indirect or direct light is available, with Schlüter profile technology, allowing you to highlight curtain walls & illuminate stairways, foyers, bathrooms & more.

EXTERNAL *Applications*

At Schlüter-Systems, we provide solutions to ensure weather extremes do not cause damage to external tile and stone coverings or to the fabric of the building.

Through the use of our balcony and terrace solutions, internal and external environments can flow seamlessly in order to achieve a lasting, protected installation.

Drainage Systems

Pedestal Systems

A WEALTH OF *Experience*

The advantage of specifying Schlüter-Systems is the opportunity to utilise the wealth of experience we have gained over the last 30 years providing integrated system solutions.

This is just one of the brochures available from our suite of literature crafted specially for the architect, specifier and tiler. We have worked diligently to ensure that you have access to concise information that will help you in your journey.

SOLUTIONS IN *Action*

Want to see real-life examples of how everything comes together in practice? Here you'll find case studies taken from different types of project – residential, hotel and commercial. Each example is an individual take on an idea, but all feature one thing in common: a complete solution from Schlüter-Systems.
