SERVICE & MAINTENANCE AVAILABLE

FAST RISING SCREEN

Safetell Fast Rising Screens are concealed within counterwork, facilitating easy communication between staff and customers and desirable open counter trading. In the event of an attack or attempted robbery the screen provides bullet-resistant protection within half-a-second of activation and presents physical, visual and acoustic barriers to the aggressor. Typical applications include banks, building societies, government, local authorities and petrol forecourts.

MAIN FEATURES

- Open counter trading
- Unobstructed communication
- Bullet resistant protection in a fraction of a second
- All screens within a premises are activated simultaneously to create a secure area
