MERIDIAN COMPOSITE TRANSFER UNITS

Safetell's Meridian Composite Units enable the secure transfer of valuables, whilst at the same time providing a screen for visual identification that will protect against physical and ballistic attack. Typical applications include cash offices, retail stores, cash in transit, banks, stadia and local authorities.

MAIN FEATURES

- Quick and secure transfer of cash and valuable totally controlled by the cashier
- A clear view of who is on the non-secure side of the transfer unit
- Pass through sizes of up to 35ltrs or 70ltrs
- Made to order

OPTIONAL

- Nationwide installation if required
- Optional 57mm transfer tray with slider
