ABOUT BETAFENCE

Betafence is a global leader in perimeter fencing and has supplied permanent and temporary fencing for over 140 years.

We use our experience to ensure we offer our customers what they need to do the best job possible and with our wide range of temporary fence solutions, there's a product for every use.

With famous references such as Formula 1 racing circuits, cycling events, world cup stadia and concerts as well as the safety of construction and renovation sites, Betafence provides temporary fencing solutions for all applications.

TEMPORARY FENCING SOLUTIONS

Temporary fencing or mobile fencing is used where demarcation of an area is required, or where protection of an area is needed but it is not possible, or practical, to secure the fence in the ground with foundations and posts.

Many of our customers secure construction sites and equipment on a short term basis, and others serve the events industry with fences used for crowd control and to temporarily create boundaries around specific areas.

HERE ARE

10 REASONS

why customers choose
Betafence mobile fences:

1

Betafence mobile fencing is a **HIGH QUALITY, ROBUST FENCE** that stands up to re-use, storage and transport challenges

2

The high quality Betafence panels are made in our dedicated factory in Germany by our experienced team of **MOBILE FENCE EXPERT ENGINEERS**

3

Betafence keeps stock available in its German factory to meet even **SHORT TERM CUSTOMER DEMAND** quickly

4

The fences are all pre-galvanised or hot dip galvanised materials for a **LONG-LASTING CORROSION PROTECTION** in all weather conditions

5

The panels are some of the **STRONGEST IN THE MARKET** thanks to each wire being welded separately to the frames

6

The Betafence range **CATERS FOR A WIDE RANGE OF SITES**, with various wire and mesh combinations, anti-climb features and panel heights available

7

CUSTOMER NAME PLATES can be fixed to every fence panel to promote your temporary fence rental business

8

Betafence's **EASY-TO-INSTALL SLIDING GATE** is designed and built to control and secure access to construction sites, temporary facilities and events

9

CONCRETE AND RECYCLED PLASTIC BASE OPTIONS ARE AVAILABLE, creating mobile barriers that have the benefits of both permanent and temporary fencing

10

SAFETY IS THE TOP PRIORITY at sporting and cultural events, where large and enthusiastic crowds gather to support their teams or enjoy a day out. A Betafence mobile fence system keeps the flow moving and everyone safe without impacting on anyone's enjoyment of the day

QUALITY AS STANDARD

Our temporary fences are manufactured in Germany by our experienced engineers, to the highest quality, resulting in strong and light mobile fencing solutions.

We are proud that:

- Every fence is constructed with a strong steel frame with welded pre-galvanised tubes
- Every fence has every wire individually welded to the steel fence frame.

TEMPOFOR F RANGE

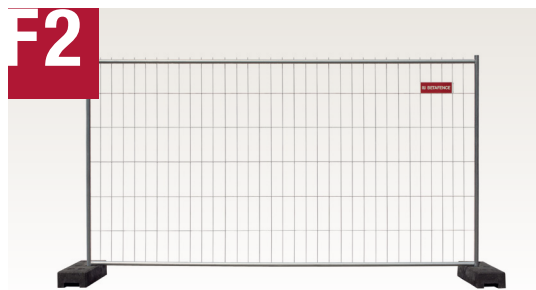

Our Tempofor F Range is proudly made in Germany to high quality standards. Tempofor F is the industry standard for quality, temporary fences. We offer long lasting corrosion protection in all weather conditions.

SLIDING GATES

The Tempofor sliding gate is mounted on a concrete base to be directly installed on a site. The base is designed to be combined with the Tempofor panel range to ensure easy integration.

- Manufactured with Hot Dip Galvanised Steel
- Supplied as either a manual gate, or as an automatic gate fitted with a motor operated by a remote control
- The gate infill is high quality, Betafence 3D mesh fencing
- Entry Width: 4.67M
- Total width: 7M
- Height: 2.09M
- Manufactured to EN13241

TEMPOFOR SLIDING GATE

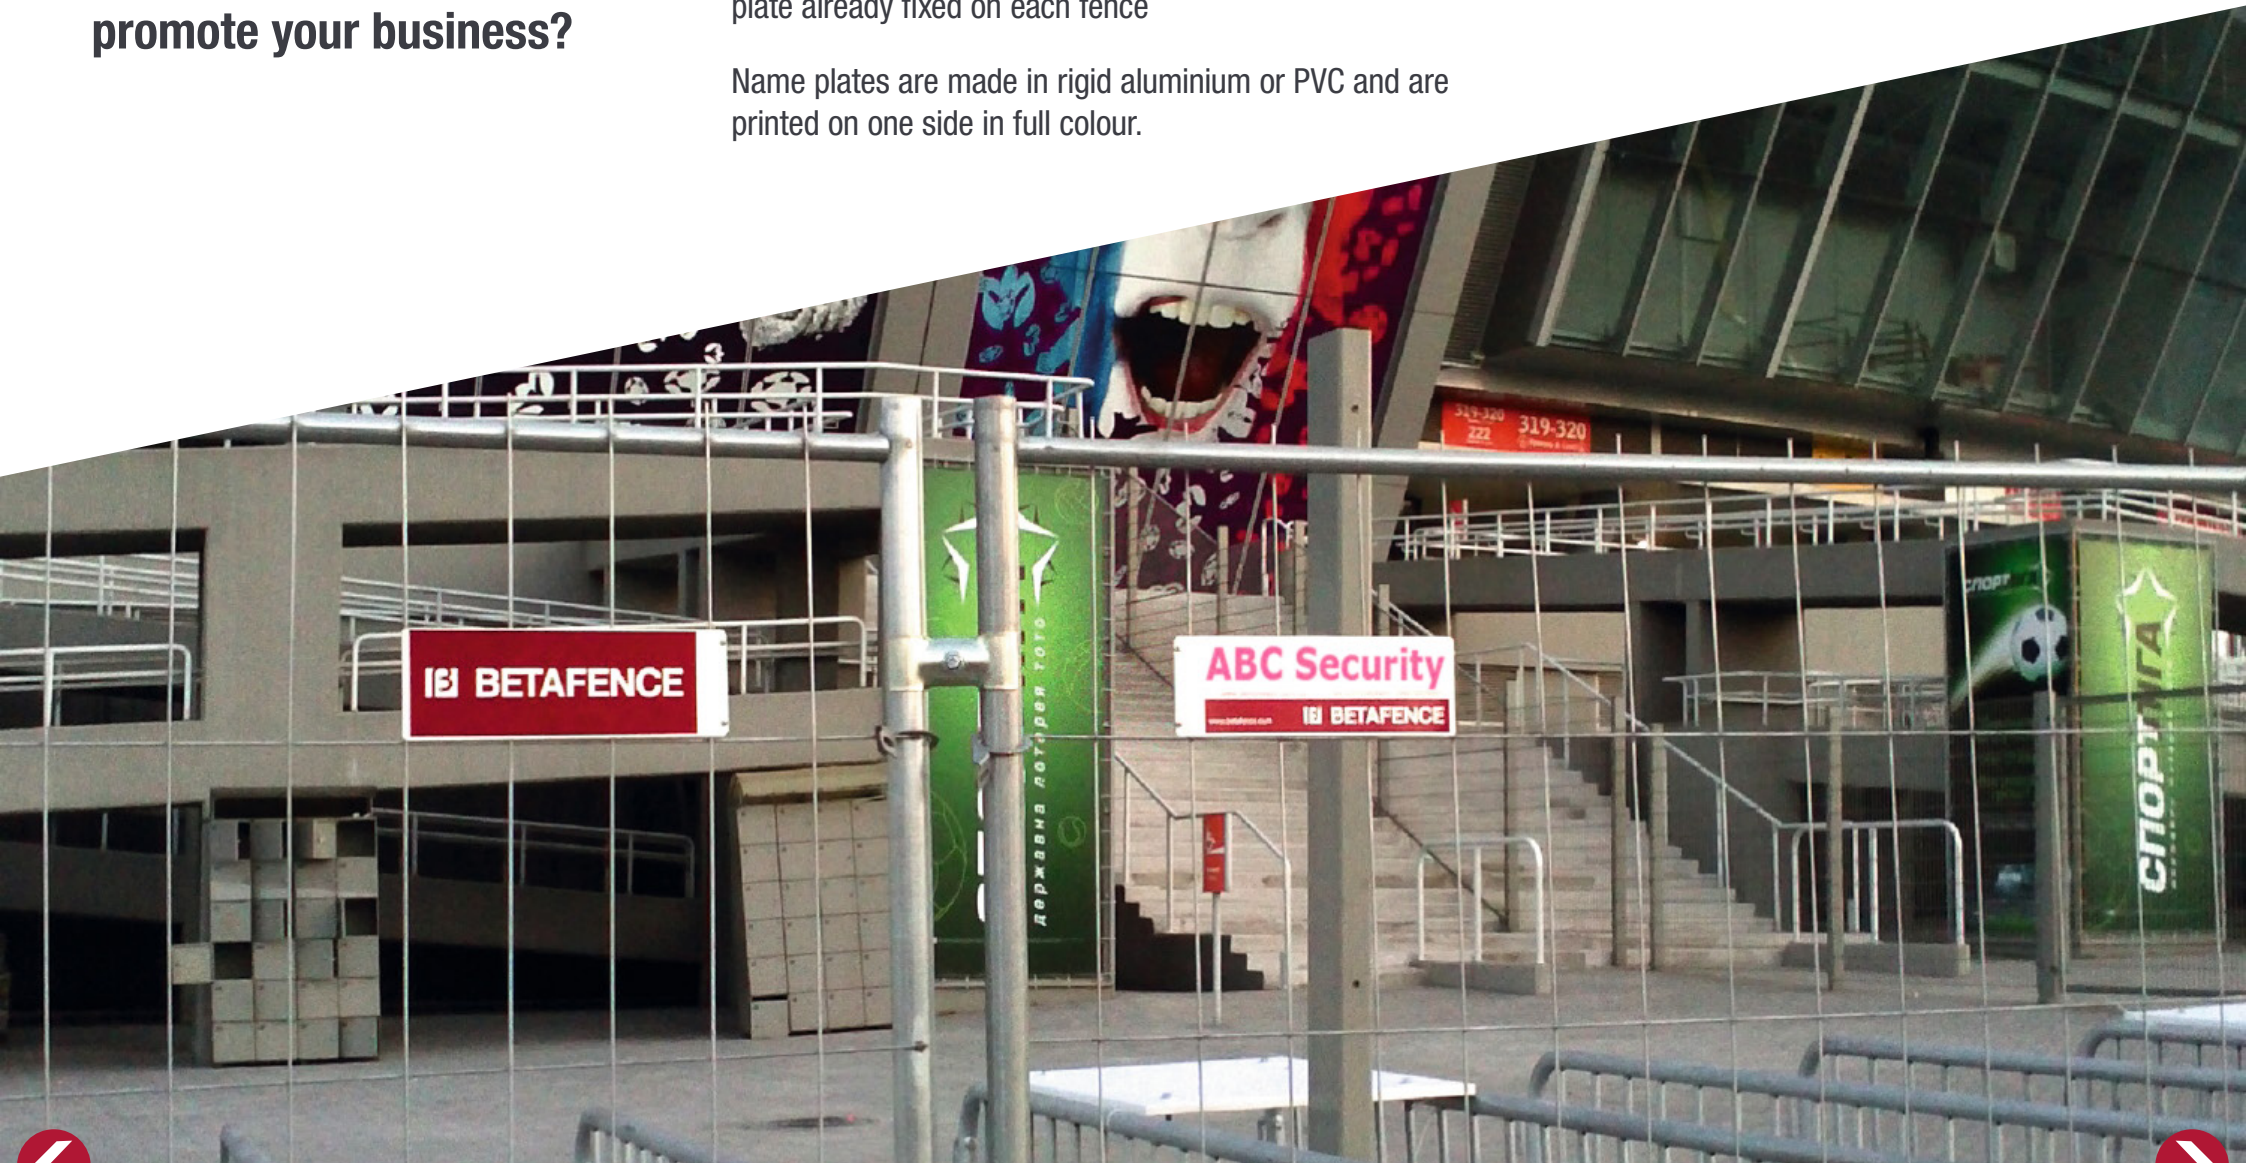

CUSTOMISE YOUR FENCES

Why not use our fences to promote your business?

We can supply your fences with your own brand name plate already fixed on each fence

Name plates are made in rigid aluminium or PVC and are printed on one side in full colour.

CREATE PRIVACY AROUND YOUR SITES

**Why not offer privacy screening
to your customer?**

Perhaps to shield performers back stage from fans, or to keep prying eyes away from construction projects.

We can offer wind proof, fabric screens for all of our fences.

You can provide logos or images to be printed on the screens.

We'll even ship a free privacy cover with every pallet of fences.

Crowd Control Temporary Fence Panels

Crowd control are frequently used at events that attract big crowds of people such as sporting fixtures, music festivals parades and rallies.

Event organizers, venue managers, and security personnel use these fence panels as part of their crowd management planning; to support entrance queue systems, or to keep crowds a safe distance from the main event.

All Betafence Crowd Control fences are hot dip galvanized with reinforced legs to ensure they can be used over and over again.

C2 FENCES – THE FENCE FOR EVERY EVENT
